

FOR THE GOOD OF THE CITY

How Candidate Thompson Proposes to Administer Affairs If Elected.

THE MAYOR'S APPOINTMENTS

Will Be of First Importance and He Proposes to Have the Best Men.

LAWS WILL BE ENFORCED

"Good government and the strict enforcement of the laws will be my platform if I am elected mayor, as I expect to be," said Chief of Police T. V. Thompson this morning when asked by a News Review reporter what the public could expect from the new administration. The chief continued:

"I announced my platform when I entered the mayoralty race, and I have seen no reason to change it. Nobody has suggested a better one, or is likely to, for the reason that it would be impossible to do so. I realize that the office of mayor of this city is going to be more important under the new code than ever before and when I enter the office, if I do enter it, it will be with a full sense of the responsibilities and duties of the position."

"What about appointments?" was asked.

"There is where you touch upon something a good deal more important than anything else that will come under the mayor's power. The success or failure of any mayor who holds office under the new code will, I take it, depend more upon the appointments the mayor shall make than upon the mayor himself. Here are a few things that are expected of the mayor under the new code."

Hereupon attention was called to the following paragraphs of the new code:

"Sec. 147. The mayor shall be chief conservator of the peace within the limits of the corporation.

"Sec. 148. The chief of police shall be the executive head of the department, under the direction of the mayor.

"Sec. 150. The chief of the fire department shall be the executive head of the department, under the direction of the mayor.

"Sec. 152. Par. 3. The mayor shall have exclusive right to suspend the chief of the police department or the chief of the fire department for incompetence, etc."

"These extracts," continued the chief, "by no means exhaust the list of officers whom the mayor is to appoint or over whom he is expected to exercise supervision. Besides the fire and police chief, there are the board of health, the board of public safety, the sinking fund, the library board, etc."

"Now, in making appointments I shall be bound by no bargains because I have made none. I shall be guided in making my selections by the sentiment of the best people of the community, as far as I can ascertain it; by the public interest and by fitness of the men to be chosen to fill the offices."

"As far as possible I want business men in the appointive positions—but I want men who can and will spare time from their own business to attend to the business of the city. If an appointed official is found neglecting his duties, he will be removed and another man given his place. I propose, if I shall be mayor, to have competent and faithful men in every place which I am expected to fill, for I realize that it will be impossible for the mayor to enforce the laws, as he is required to do, without the hearty and efficient cooperation of the men in other departments of city office."

GENERAL JOE GEIGER HAS PASSED AWAY

A UNIQUE CHARACTER WHOSE HISTORY IS CLOSED.

An Orator of Distinguished Ability And a Noted Man in His Day.

Columbus, March 24.—(Special).—In the death of General Joe Geiger, which occurred in this city yesterday, Ohio lost one of its most picturesque characters. He was 85 years of age and in his day was one of the most prominent men in public life in Ohio.

As an orator, lecturer, lawyer, humorist, wit and statesman he was almost without a peer. Although of diminutive size, being barely five feet tall, he was possessed of a giant intellect and was a formidable factor in his day. He was an orator of the school of General Gibson and Tom Corwin and could sway multitudes at will. He also enjoyed another distinction—he was known as the homeliest man in the state, a fact he took great pride in referring to in his speeches and lectures.

He was in great demand as a public speaker, in Ohio and abroad. His speeches were gems of oratory, his diction being faultless. He was called by the sobriquet of "Snapping Turtle Joe," on account of a lecture by that name, and in truth there was much in the general physiognomy to suggest the turtle. He excelled as a story teller and could convulse his audiences with laughter in a twinkling. He was an ideal campaign orator. He was a member of the legislature in 1850-51 and was state librarian in the 80's. In 1877 he was given a special invitation by congress to visit Washington and deliver his lectures. He was born at Harrisburg, Pa., but most of his life was spent in Ohio.

And still they come! A boy with a double handful of votes for one of the many candidates for the News Review's prize trips arrived at this office just before noon today. The ballots will be counted and tabulated and the result announced in tomorrow's paper. It will doubtless prove a welcome surprise to some one.

Interest in the voting is growing. More people are saving their coupons, and voting for their friends. A free trip to Europe is no small prize, neither is a summer tour of the lakes or a trip to Atlantic City. The certainty that these prizes are to be bestowed on News Review readers makes the contest spirited. It is good natured rivalry, though. One voter remarked yesterday: "I am casting my vote for one man, a particular friend. But there are five or six of my friends on the list of candidates, and I would be satisfied to see any one of them win one of the prize trips, and I feel pretty sure that some one of them will. The News Review's offer is a most liberal one, and the readers appreciate the fact, that is certain."

Coupon collectors are busy, and some of them are very systematic in their work. The News Review gives all an equal chance. Read the conditions on page 4, if you have not already done so and begin voting.

LIVE ISSUES FOR COUNCIL

Questions of Moment to Come Up at Tonight's Meeting of the Solons.

THE GARBAGE DUMP MATTER

And the Proposed Franchise For a New Lighting Company to Be Considered.

THE RAILROAD INJUNCTION

The meeting of council to be held this evening will be a most important one. There are numerous matters of general interest to be acted upon and the members state that definite conclusions will be reached. Among the questions that are scheduled to arise is the granting of a franchise to C. A. Smith, allowing him to place poles and string wires throughout the city for electric lighting purposes. Just what action will be taken on it can not be predicted.

Councilman Marshall, at the last meeting of the body, refused to vote on the franchise, stating that he wanted time to consider it and it is thought that some controversy will ensue when the subject is reached. Dr. Marshall when asked if he had come to any conclusion on the franchise, stated that nothing had been done, but that a copy of it had been submitted to each member of council and that the meeting only could decide the situation.

Another question which is being looked upon with more than the usual interest is that of the council providing a public dumping ground for the disposal of filth, refuse and all cleanings which are a menace to the health of the public. The true conditions which exist in the city have been placed before the people by the News Review. The subject has caused considerable comment and every resident of the city is more than anxious that some steps be taken, and that immediately.

Several members of the council have announced that they will argue the question strongly and do all possible for the provision. There has not been a day during the past two weeks that the health department has not been approached by some taxpayer who has had a long story to tell either of his inability to find a dumping ground or of the dirty and unhealthy condition of his neighbors' back yards. Invariably the objectors have been turned away. The board is not in a position to assist them. There is but one thing to be done to remedy the condition and that is by purchasing or leasing property for the garbage plant and it is thought that council will take the matter up with a will and give the people that for which they are earnestly in favor.

One of the members of the health board said last evening: "The sanitary conditions of the city are even worse than can be comprehended. Over the entire city people are suffering as a result and we are powerless to help them. If council does not give us a dumping ground we will suffer from a health standpoint to an alarming degree. It will be absolutely necessary for council to provide two dumps at least, one in the East End and one for the use of the people in the central districts and the West End. Residents of the East End would be much put out at having to haul their refuse to the lower end of the city and they must be looked after."

Among other matters that may come up for consideration is the railroad injunction question. The railroad committee of council may be ordered to hold a meeting to take some action regarding this question which is now perplexing the city. Mr. Peach, chairman of the board, is out of the city, but it has been suggested that the president of council call the committee together.

PAINTERS' LOCAL DELIVERS ULTIMATUM TO BOSSES

Painters', Decorators' and Paperhangers' local, No. 165, voted last night to strike if their demand for a new wage scale was not acceded to by the bosses on Saturday, March 28. The old scale is \$2.80 for a day of nine hours.

BEAL LAW UPHELD BY SUPREME COURT

W. H. Hepburn, city treasurer of Lisbon, and U. V. Gaskill, of Council City, Alaska, directors of the Ophir Creek Gold company, were in the city today. Mr. Gaskill spent several months in the Nome gold fields last year and secured options on placer territory that the Ophir Creek Gold company will develop. He will return to Council City this summer accompanied by Mr. Hepburn and perhaps others of prominence in the company.

GOVERNMENT TAKES A HAND

Proposes to Stop Pollution of the River Through Garbage Dumping.

LAW CLEARLY VIOLATED

The sanitary condition of East Liverpool is known for a greater distance than the city limits. The outrageous state of affairs has even reached the heart of the country, Washington, D. C., and as a result a government employee arrived in the city this morning and made a thorough examination of the conditions, especially along the river bank.

After thoroughly sizing up the situation he called at the office of City Clerk Davidson this afternoon and informed that official that something will have to be done to prohibit the throwing of the filth and garbage over the river banks, and that persons convicted of violating the marine law in that manner will be prosecuted to the full extent of the law. He further stated that it was absolutely unlawful to throw any garbage on government property and that his mission here was to find the exact conditions and make a report at government headquarters. He discovered that the law had been violated at points all along the city river front. Whether or not steps will be taken to land the parties who have disposed of garbage on the bank he did not say, but insisted that the practice must be stopped and that all necessary precautions would be made for that purpose.

Health Officer Ogden and Mayor Davidson were having their trouble this afternoon over the awful conditions existing. For two weeks they have been constantly besieged by residents, asking for a dumping ground, and they have now decided to tell all comers simply to await the action of council. Both of these officials will likely present the matter to council tonight and they have asked several others to exert their powers to influence the body.

NO CANDIDATE

The Democratic City Ticket Still Headless And Likely to Remain So.

The Democrats caucused for some hours yesterday on the question of filling the vacancy on the Democratic ticket, caused by the withdrawal of John W. Hall, candidate for mayor. No action was taken toward filling the vacancy, and matters are expected to remain as they are.

Although the French engineers have made much of the machinery they will turn over when the purchase is completed it is said by experts who have recently been over the canal route that most of this has been left exposed to climatic action until it is useless for anything except the scrap heap. What little machinery there is in good running order is considered antiquated by up-to-date American engineers. It is probable that almost everything down to the smallest steam shovel of the lot will be imported from the United States to save time and insure more efficiency in this work.

UNCLE SAM TO OWN IT

With the Panama Canal He Will Acquire an Important Railroad Property.

A PILE OF OLD SCRAP IRON

Is the Description Given by Experts of the French Engineers' Machinery.

MONEY WASTED ON DITCH

Washington, March 24.—With the ratification of the canal treaty by Colombia, government ownership of railroads will cease to be a theory and become a fact as far as the United States is concerned. The Panama railroad running across the isthmus is part and parcel of the canal property for which this country will pay the French company \$10,000,000. With the completion of the bargain and the exchange of the purchase price the already huge list of federal employees will be expanded to include section hands, brickmen, switchmen, freight and passenger conductors, station agents, telegraphers, all the people required to run a railroad; in short, right up the list to general manager and president. Moreover the government will find itself in possession of a fine line of three passenger and freight steamers operated in connection with the Panama line. Uncle Sam will be a bloated monopolist, too. His railway across the isthmus will be the sole transportation agency thereabouts until the ditch is dug and filled with the water that is to carry through the shipping of the world. People who object to his freight charges or to his passenger schedules can walk or send their goods through by mule—unless they can get passes or rebates through friendly congressmen. Under these circumstances it will hardly be necessary for our people to employ traveling freight or passenger agents to drum up trade. He will not need to either enter or fight any combination of competitors or to engineer any traffic agreements. He will be saved the danger of falling foul of his own interstate commerce commission. Incidentally the Panama railroad under present conditions is said to be one of the best paying railway properties in this hemisphere. The steamboat line is considered a good investment as well. Both are essential adjuncts to the work of excavating a passage way between the oceans.

But even a bonanza has its drawbacks. Outside of the railroad and the steamship line the property to be acquired by the payment of \$10,000,000 to the French company comprises a most unhealthy hole in the ground, or succession of them; the most comprehensive collection of junk in the way of rusted and impossible machinery that this French company could find as an excuse for sinking a large part of the \$300,000,000 of its stockholders' money already spent, and a choice assortment of fatal diseases, beginning with yellow fever and smallpox, and continuing in ascending scale to a climax, yet to be investigated by medical men, that is warranted to kill in 35 minutes or less.

The holes in the ground are valuable but they would be more so if they had been taken care of after being excavated. Silt and rubbish have accumulated wherever the French engineers have already dug. This will require re-dredging and then the whole canal will have to be broadened and deepened to the width of 150 feet at the bottom and the depth of 35 feet determined upon. A small sized mountain of 273 feet of indurated clay must be cut through. The French have barely scratched the surface here. This is the Culebra cut.

Although the French engineers have made much of the machinery they will turn over when the purchase is completed it is said by experts who have recently been over the canal route that most of this has been left exposed to climatic action until it is useless for anything except the scrap heap. What little machinery there is in good running order is considered antiquated by up-to-date American engineers. It is probable that almost everything down to the smallest steam shovel of the lot will be imported from the United States to save time and insure more efficiency in this work.

To minimize the opposition of Senator Yellow Jack and his co-partner, Mr. Smallpox, Uncle Sam will again play

sanitary policeman, as he had to do in Cuba and as he is doing in Porto Rico and the Philippines. At the Pacific terminus of the canal lies the city of Panama which, in days one reads about in the Swashbuckler novel, that pleasant gentleman Sir Henry Morgan sacked and burned with his jovial good fellow buccaners. Experts say it will be necessary to almost repeat Sir Henry's performance.

He was after broad pieces of eight and rapine and murder which gave zest and excitement to his profession. Uncle Sam will be after dirt and germs. He will tear down and burn and distribute chloride of lime. He will straighten narrow, crooked streets where the pigs and infant prodigies of Panama now wallow and pave them—that is the streets. It will be the same process that was so rigorously carried out in Santiago de Cuba. Colon, situated on an island at the Atlantic end of the isthmus, is slated for similar heroic treatment.

It has been a hard task for the French engineers to get and keep sufficient labor at work on the canal for their needs—or it was before the failure of the company and the reduction

WRECK VICTIMS ARE IMPROVING

Official Investigation Fails to Show Cause of Sunday Accident.

NEW CAR SOON TO RUN

The injured in the street car wreck of Sunday night are reported improving today. Most of them are still suffering considerable pain, but with few exceptions they will be entirely recovered in a few days. It was found at a later examination that Miss Effie Nissen, injured about the mouth, had also sustained a broken jaw. Dr. J. Howard Davis, who cared for Miss Nissen on the night of the disaster, set the broken bones and states that it will not be necessary to place the jaw in a plaster cast, as the muscles will hold the bones in place.

Those of the injured who live on Pleasant Heights were reported better, without exception, and none of them will suffer permanent injury. Joseph Jackson, who lives in Sunny-side, one of the worst injured, is able to walk to the city from his home to receive medical attention. Joseph Martin, who had his right shoulder broken, is suffering greatly and it will be some time before he can get around again. He was probably the worst injured.

The official investigation by the car company was completed last evening but the blame for the disaster has not been made by those in the employ of the company, some of whom were on the scene a few minutes after the car left the track, but just what the cause was or who was at fault, if determined, will not be given out at this time. As stated yesterday the running gear was not damaged to any great extent and will be used in equipping another car. The brakes of the wrecked car were found to be in excellent working order and of sufficient force to control two cars when the trip was made down the hill to the power house.

Perhaps the exact cause of the disaster will never be known, as the passengers tell widely differing stories, oft contradictory to the one told by the motorman. A new car for the Pleasant Heights line is being equipped as rapidly as possible.

RENDERED HELPLESS BY PARALYSIS

Enoch Jones Taken to His Home on Pleasant Heights in an Ambulance.

Enoch Jones, who has been living on a small farm near Sallineville, was taken to his home on Pleasant Heights from the noon train today in McQuilkin's ambulance.

He has been suffering from paralysis and an additional stroke has rendered him helpless. His brother Isaac Jones, of Division street, accompanied him.

Fined for Assault.

Lisbon, March 24.—(Special).—Thomas Griffith, the young man who assaulted William Gellor, the bartender, Friday evening, was arrested last evening by Officer Ellis. He was at once arraigned before Mayor Farrell, pleaded guilty and was fined \$15 and costs, aggregating \$18.60, which he paid and was released.

FINE GOODS IN OLD BOX

Crate Supposed to Be Empty Contained Articles Worth Much Money.

IT HAD BEEN GIVEN AWAY

But the Recipient Made All Haste to Restore Property to Owner.

A MOTHER MUCH WORRIED

A little boy, aged about 10 years, of Jethro Hollow, giving as his name Berberg, made for himself a reputation for honesty that will ever follow him yesterday when he returned a box of dry goods to the Boston Store which had been given to him through mistake.

A. S. Young, proprietor of the store, was very busy during the early part of the afternoon when he had entered the store and in a gentlemanly manner asked if he could have one of the empty boxes lying on the pavement in front of the store on Market street. Mr. Young told him that he could, providing the box was empty, and nothing more was thought of the occurrence until an hour or so later the youth walked into the store and told that he had loaded one of the boxes onto a little wagon, and not having examined it thoroughly, did not discover that it contained anything of value until he had nearly reached home.

Why he made the examination then he does not know, but was horrified when he uncovered it and found a big lot of goods. The thought of stealing then never entered the mind of the little fellow and he immediately returned to the store. Mr. Young thanked the boy heartily and showered complimentary remarks upon him for his display of veracity.

A short time later the mother of the boy appeared at the store and wanted to know whether or not the lad had been suspected of stealing the goods, and when given assurance that he had not she departed in good spirits. The box contained nearly \$300 worth of merchandise and would have been a heavy loss had a different kind of person had the boy's opportunity.

Harry Koch, one of the proprietors of the Koch's company's store on Sixth street, when apprised of the above incident, immediately conjectured that the box of silks stolen from the rear of his store over a month ago, the particulars of which were published exclusively in the News Review, might have been taken in a similar manner, but by a person of different character. It is customary for boys to get boxes from dealers in the city, and though the box of silks was not given to any one, it is thought probable that whoever took the Koch's company's box did so without knowledge of its contents, and after discovering the true value was deterred through dishonesty in returning it.

Mr. Koch states that he will work on the case as long as there is the slightest hope of recovering the stolen property and that he has offered a reward of \$100 for any information that will lead to the arrest and recovery of the silks.

Dr. Marshall, when asked if he had come to any conclusion on the franchise, stated that nothing had been done, but that a copy of it had been submitted to each member of council and that the meeting only could decide the question.

Another question which is being looked upon with more than the usual interest is that of the council providing a public dumping ground for the disposal of filth, refuse and all cleanings which are a menace to the health of the public. The true conditions which exist in the city have been placed before the people by the News Review. The subject has caused considerable comment and every resident of the city is more than anxious that some steps be taken, and that immediately.

Several members of the councilmanic body have announced that they will argue the question strongly and do all possible for the provision. There has not been a day during the past two weeks that the health department has not been approached by some taxpayer who has had a long story to tell either of his inability to find a dumping ground or of the dirty and unhealthy condition of his neighbors' back yards. Invariably the objectors have been turned away. The board is not in a position to assist them. There is but one thing to be done to remedy the condition and that is by purchasing or leasing property for the garbage plant and it is thought that council will take the matter up with a will and give the people that for which they are earnestly in favor.

One of the members of the health board said last evening: "The sanitary conditions of the city are even worse than can be comprehended. Over the entire city people are suffering as a result and we are powerless to help them. If council does not give us a dumping ground we will suffer from a health standpoint to an alarming degree. It will be absolutely necessary for council to provide two dumps at least, one in the East End and one for the use of the people in the central districts and the West End. Residents of the East End would be much put out at having to haul their refuse to the lower end of the city and they must be looked after."

Among other matters that may come up for consideration is the railroad injunction question. The railroad committee of council may be ordered to hold a meeting to take some action regarding this question which is now perplexing the city. Mr. Pench, the chairman of the board, is out of the city, but it has been suggested that the president of council call the committee together.

GOVERNMENT
TAKES A HANDProposes to Stop Pollution of the
River Through Garbage
Dumping.

LAW CLEARLY VIOLATED

The sanitary condition of East Liverpool is known for a greater distance than the city limits. The outrageous state of affairs has even reached the heart of the country, Washington, D. C., and as a result a government employe arrived in the city this morning and made a thorough examination of the conditions, especially along the river bank.

After thoroughly sizing up the situation he called at the office of City Clerk Davidson this afternoon and informed that official that something will have to be done to prohibit the throwing of the filth and garbage over the river banks, and that persons convicted of violating the marine law in that manner will be prosecuted to the full extent of the law. He further stated that it was absolutely unlawful to throw any garbage on government property and that his mission here was to find the exact conditions and make a report at government headquarters. He discovered that the law had been violated at points all along the city river front. Whether or not steps will be taken to land the parties who have disposed of garbage on the bank, he did not say, but insisted that the practice must be stopped and that all necessary precautions would be made for that purpose.

Health Officer Ogden and Mayor Davidson were having their trouble this afternoon over the awful conditions existing. For two weeks they have been constantly besieged by residents, asking for a dumping ground, and they have now decided to tell all comers simply to await the action of council. Both of these officials will likely present the matter to council tonight and they have asked several others to exert their powers to influence the body.

PAINTERS' LOCAL DELIVERS
ULTIMATUM TO BOSSES

The boss painters some time ago appointed a committee, composed of Edgar Baxter, E. E. Snowden and E. Crites, to confer with the committee from the local for the adoption of the scale for the coming year. It is not definitely known what the disposition of this committee will be in treating with the demand. Several conferences may be held before the time set for the men to quit work. Several of the bosses stated today that they could not afford the increase.

UNCLE SAM
TO OWN ITWith the Panama Canal He Will
Acquire an Important
Railroad Property.

A PILE OF OLD SCRAP IRON

Is the Description Given by Ex-
ports of the French En-
gineers' Machinery.

MONEY WASTED ON DITCH

Washington, March 24.—With the ratification of the canal treaty by Colombia, government ownership of railroads will cease to be a theory and become a fact as far as the United States is concerned. The Panama railroad running across the isthmus is part and parcel of the canal property for which this country will pay the French company \$10,000,000. With the completion of the bargain and the exchange of the purchase price the already huge list of federal employees will be expanded to include section hands, brakemen, switchmen, freight and passenger conductors, station agents, telegraphers, all the people required to run a railroad; in short, right up the list to general manager and president. Moreover the government will find itself in possession of a fine line of three passenger and freight steamers operated in connection with the Panama line. Uncle Sam will be a bloated monopolist, too. His railway across the isthmus will be the sole transportation agency thereabouts until the ditch is dug and filled with the water that is to carry through the shipping of the world. People who object to his freight charges or to his passenger schedules can walk or send their goods through by mule—unless they can get passes or rebates through friendly congressmen. Under these circumstances it will hardly be necessary for our uncle to employ traveling freight or passenger agents to drum up trade. He will not need to either enter or fight any combination of competitors or to engineer any traffic agreements. He will be saved the danger of falling foul of his own interstate commerce commission. Incidentally the Panama railroad under present conditions is said to be one of the best paying railway properties in this hemisphere. The steamboat line is considered a good investment as well. Both are essential adjuncts to the work of excavating a passage way between the oceans.

But even a bonanza has its drawbacks. Outside of the railroad and the steamship line the property to be acquired by the payment of \$10,000,000 to the French company comprises a most unhealthy hole in the ground, or succession of them; the most comprehensive collection of junk in the way of rusted and impossible machinery that this French company could find as an excuse for sinking a large part of the \$300,000,000 of its stockholders' money already spent, and a choice assortment of fatal diseases, beginning with yellow fever and smallpox, and continuing in ascending scale to a climax, yet to be investigated by medical men, that is warranted to kill in 35 minutes or less.

The holes in the ground are valuable but they would be more so if they had been taken care of after being excavated. Silt and rubbish have accumulated wherever the French engineers have already dug. This will require dredging and then the whole canal will have to be broadened and deepened to the width of 150 feet at the bottom and the depth of 35 feet determined upon. A small sized mountain of 273 feet of indurated clay must be cut through. The French have barely scratched the surface here. This is the Culebra cut.

Although the French engineers have made much of the machinery they will turn over when the purchase is completed it is said by experts who have recently been over the canal route that most of this has been left exposed to climatic action until it is useless for anything except the scrap heap. What little machinery there is in good running order is considered antiquated by up-to-date American engineers. It is probable that almost everything down to the smallest steam shovel of the lot will be imported from the United States to save time and insure more efficiency in this work.

To minimize the opposition of Senator Yellow Jack and his co-partner, Mr. Smallpox, Uncle Sam will again play

sanitary policeman, as he had to do in Cuba and as he is doing in Porto Rico and the Philippines. At the Pacific terminus of the canal lies the city of Panama which, in days one reads about in the Swashbuckler novel, that pleasant gentleman Sir Henry Morgan sacked and burned with his jovial good fellow buccaneers. Experts say it will be necessary to almost repeat Sir Henry's performance.

He was after broad pieces of eight and rapine and murder which gave zest and excitement to his profession. Uncle Sam will be after dirt and germs. He will tear down and burn and distribute cholera of time. He will straighten narrow, crooked streets where the pigs and infant prodigies of Panama now wallow and pave them—that is the streets. It will be the same process that was so rigorously carried out in Santiago de Cuba. Colon, situated on an island at the Atlantic end of the isthmus, is slated for similar heroic treatment.

It has been a hard task for the French engineers to get and keep sufficient labor at work on the canal for their needs—or it was before the failure of the company and the reduction

WRECK VICTIMS
ARE IMPROVINGOfficial Investigation Fails to Show
Cause of Sunday
Accident.

NEW CAR SOON TO RUN

The injured in the street car wreck of Sunday night are reported improving today. Most of them are still suffering considerable pain, but with few exceptions they will be entirely recovered in a few days. It was found at a later examination that Miss Edie Nisson, injured about the mouth, had also sustained a broken jaw. Dr. J. Howard Davis, who cared for Miss Nisson on the night of the disaster, set the broken bones and states that it will not be necessary to place the jaw in a plaster cast, as the muscles will hold the bones in place.

Those of the injured who live on Pleasant Heights were reported better, without exception, and none of them will suffer permanent injury. Joseph Jackson, who lives in Sunnyside, one of the worst injured, is able to walk to the city from his home to receive medical attention. Joseph Martin, who had his right shoulder broken, is suffering greatly and it will be some time before he can get around again. He was probably the worst injured.

The official investigation by the car company was completed last evening but the blame for the disaster has not been made by those in the employ of the company, some of whom were on the scene a few minutes after the car left the track, but just what the cause was or who was at fault, if determined, will not be given out at this time. As stated yesterday the running gear was not damaged to any great extent and will be used in equipping another car. The brakes of the wrecked car were found to be in excellent working order and of sufficient force to control two cars when the trip was made down the hill to the power house.

Perhaps the exact cause of the disaster will never be known, as the passengers tell widely differing stories, all contradictory to the one told by the motorman. A new car for the Pleasant Heights line is being equipped as rapidly as possible.

Enoch Jones, who has been living on a small farm near Sallineville, was taken to his home on Pleasant Heights from the noon train today in McQuilkin's ambulance.

He has been suffering from paralysis and an additional stroke has rendered him helpless. His brother Isaac Jones, of Division street, accompanied him.

Fined for Assault.

Lisbon, March 24.—(Special).—Thomas Griffith, the young man who assaulted William Gellor, the bartender, Friday evening, was arrested last evening by Officer Bells. He was at once arraigned before Mayor Farrell, pleaded guilty and was fined \$15 and costs, aggregating \$18.60, which he paid and was released.

A MOTHER MUCH WORRIED

A little boy, aged about 10 years, of Jethro Hollow, giving as his name Berberg, made for himself a reputation for honesty that will ever follow him yesterday when he returned a box of dry goods to the Boston Store which had been given to him through mistake.

A. S. Young, proprietor of the store, was very busy during the early part of the afternoon when the lad entered the store and in a gentlemanly manner asked if he could have one of the empty boxes lying on the pavement in front of the store on Market street. Mr. Young told him that he could, providing the box was empty, and nothing more was thought of the occurrence until an hour or so later the youth walked into the store and told that he had loaded one of the boxes onto a little wagon, and not having examined it thoroughly, did not discover that it contained anything of value until he had nearly reached home.

Why he made the examination then he does not know, but was horrified when he uncovered it and found a big lot of goods. The thought of stealing them never entered the mind of the little fellow and he immediately returned to the store. Mr. Young thanked the boy heartily and showered complimentary remarks upon him for his display of veracity.

A short time later the mother of the boy appeared at the store and wanted to know whether or not the lad had been suspected of stealing the goods, and when given assurance that he had not she departed in good spirits. The box contained nearly \$300 worth of merchandise and would have been a heavy loss had a different kind of person had the boy's opportunity.

Harry Koch, one of the proprietors of the Koch's company's store on Sixth street, when apprised of the above incident, immediately conjectured that the box of silks stolen from the rear of his store over a month ago, the particulars of which were published exclusively in the News Review, might have been taken in a similar manner, but by a person of different character. It is customary for boys to get boxes from dealers in the city, and though the box of silks was not given to any one, it is thought probable that whoever took the Koch's company's box did so without knowledge of its contents, and after discovering the true value was deterred through dishonesty in returning it.

Mr. Koch states that he will work on the case as long as there is the slightest hope of recovering the stolen property and that he has offered a reward of \$100 for any information that will lead to the arrest and recovery of the silks.

FOR THE GOOD OF THE CITY

How Candidate Thompson Pro- poses to Administer Af- fairs If Elected.

THE MAYOR'S APPOINTMENTS

Will Be of First Importance and He Proposes to Have the Best Men.

LAWS WILL BE ENFORCED

"Good government and the strict en-
forcement of the laws will be my plat-
form if I am elected mayor, as I ex-
pect to be," said Chief of Police
T. V. Thompson this morning when
asked by a News Review reporter what
the public could expect from the new
administration. The chief continued:
"I announced my platform when I
entered the mayoralty race, and I have
seen no reason to change it. Nobody
has suggested a better one, or is like-
ly to, for the reason that it would be
impossible to do so. I realize that the
office of mayor of this city is going
to be more important under the
new code than ever before and when I
enter the office, if I do enter it, it will
be with a full sense of the responsi-
bilities and duties of the position."
"What about appointments?" was
asked.

"There is where you touch upon
something a good deal more important
than anything else that will come un-
der the mayor's power. The success
or failure of any mayor who holds of-
fice under the new code will, I take it,
depend more upon the appointments
the mayor shall make than upon the
mayor himself. Here are a few things
that are expected of the mayor under
the new code."

Heretofore attention was called to the
following paragraphs of the new code:
"Sec. 147. The mayor shall be chief
conservator of the peace within the
limits of the corporation."
"Sec. 148. The chief of police shall
be the executive head of the depart-
ment, under the direction of the may-
or."

"Sec. 150. The chief of the fire de-
partment shall be the executive head
of the department, under the direction
of the mayor."

"Sec. 152. Part 3. The mayor shall
have exclusive right to suspend the
chief of the police department or the
chief of the fire department for in-
competence, etc."

"These extracts," continued the chief,
"by no means exhaust the list of of-
ficers whom the mayor is to appoint
or over whom he is expected to ex-
ercise supervision. Besides the fire and
police chief, there are the board of
health, the board of public safety, the
sinking fund, the library board, etc."

"Now, in making appointments I
shall be bound by no bargains because
I have made none. I shall be guided
in making my selections by the senti-
ment of the best people of the com-
munity, as far as I can ascertain it;
by the public interest and by fitness
of the men to be chosen to fill the
offices."

"As far as possible I want business
men in the appointive positions—but
I want men who can and will spare time
from their own business to attend to
the business of the city. If an ap-
pointed official is found disregarding
or disobeying the law or neglecting his
duties, he will be removed and another
man given his place. I propose, if I
shall be mayor, to have competent and
faithful men in every place which I
am expected to fill, for I realize that
it will be impossible for the mayor to
enforce the laws, as he is required to
do, without the hearty and efficient co-
operation of the men in other depart-
ments of city office."

GENERAL JOE GEIGER HAS PASSED AWAY

A UNIQUE CHARACTER WHOSE HISTORY IS CLOSED.

An Orator of Distinguished Ability And a Noted Man in His Day.

Columbus, March 24.—(Special).—
In the death of General Joe Geiger,
which occurred in this city yesterday,
Ohio lost one of its most picturesque
characters. He was 85 years of age
and in his day was one of the most
prominent men in public life in Ohio.

As an orator, lecturer, lawyer, humor-
ist, wit and statesman he was almost
without a peer. Although of diminutive
size, being barely five feet tall, he was
possessed of a giant intellect and was
a formidable factor in his day.
He was an orator of the school of
General Gibson and Tom Corwin and
could sway multitudes at will. He
also enjoyed another distinction—he
was known as the homeliest man in
the state, a fact he took great pride
in referring to in his speeches and lec-
tures.

He was in great demand as a public
speaker, in Ohio and abroad. His
speeches were gems of oratory, his
diction being faultless. He was called
by the sobriquet of "Snapping Turtle
Joe," on account of a lecture by that
name, and in truth there was much
in the general physiognomy to suggest
the turtle. He excelled as a story tell-
er and could convulse his audiences
with laughter in a twinkling. He was
an ideal campaign orator. He was a
member of the legislature in 1850-51
and was state librarian in the 80's. In
1877 he was given a special invitation
by congress to visit Washington and
deliver his lectures. He was born at
Harrisburg, Pa., but most of his life
was spent in Ohio.

BRINGING VOTES BY THE HANDFUL

Coupon Collectors Active in Pre- paring Surprises For Their Friends.

EVERYBODY IS INTERESTED

And still they come! A boy with a
double handful of votes for one of the
many candidates for the News Re-
view's prize trips arrived at this office
just before noon today. The ballots
will be counted and tabulated and the
result announced in tomorrow's paper.
It will doubtless prove a welcome sur-
prise to some one.

Interest in the voting is growing.
More people are saving their coupons,
and voting for their friends. A free
trip to Europe is no small prize,
neither is a summer tour of the lakes
or a trip to Atlantic City. The cer-
tainty that these prizes are to be be-
stowed on News Review readers
makes the contest spirited. It is good
natured rivalry, though. One voter re-
marked yesterday: "I am casting my
vote for one man, a particular friend.
But there are five or six of my friends
on the list of candidates, and I would
be satisfied to see any one of them
win one of the prize trips, and I feel
pretty sure that some one of them
will. The News Review's offer is a
most liberal one, and the readers ap-
preciate the fact, that is certain."

Coupon collectors are busy, and
some of them are very systematic in
their work. The News Review gives all
an equal chance. Read the conditions
on page 4, if you have not already
done so and begin voting.

This is the way the voting stands:

LIVE ISSUES FOR COUNCIL

Questions of Moment to Come Up at Tonight's Meet- ing of the Solons.

THE GARBAGE DUMP MATTER

And the Proposed Franchise For a New Lighting Company to Be Considered.

THE RAILROAD INJUNCTION

The meeting of council to be held
this evening will be a most important
one. There are numerous matters of
general interest to be acted upon and
the members state that definite con-
clusions will be reached. Among the
questions that are scheduled to arise
is the granting of a franchise to C.
A. Smith, allowing him to place poles
and string wires throughout the city
for electric lighting purposes. Just
what action will be taken on it can
not be predicted.

Councilman Marshall, at the last
meeting of the body, refused to vote
on the franchise, stating that he wanted
time to consider it and it is thought
that some controversy will ensue when
the subject is broached. Dr. Marshall,
when asked if he had come to any
conclusion on the franchise, stated that
nothing had been done, but that a copy
of it had been submitted to each mem-
ber of council and that the meeting
only could decide the situation.

Another question which is being
looked upon with more than the usual
interest is that of the council pro-
viding a public dumping ground for
the disposal of filth, refuse and all
cleanings which are a menace to the
health of the public. The true condi-
tions which exist in the city have been
placed before the people by the News
Review. The subject has caused con-
siderable comment and every resident
of the city is more than anxious that
some steps be taken, and that im-
mediately.

Several members of the councilman-
ic body have announced that they will
argue the question strongly and do all
possible for the provision. There has
not been a day during the past two
weeks that the health department has
not been approached by some tax-
payer who has had a long story to
tell either of his inability to find a
dumping ground or of the dirty and
unhealthy condition of his neighbors'
back yards. Invariably the objectors
have been turned away. The board
is not in a position to assist them.
There is but one thing to be done to
remedy the condition and that is by
purchasing or leasing property for the
garbage plant and it is thought that
council will take the matter up with
a will and give the people that for
which they are earnestly in favor.

One of the members of the health
board said last evening: "The sani-
tary conditions of the city are even
worse than can be comprehended.
Over the entire city people are suffer-
ing as a result and we are powerless
to help them. If council does not
give us a dumping ground we will
suffer from a health standpoint to an
alarming degree. It will be absolutely
necessary for council to provide two
dumps at least, one in the East End
and one for the use of the people in
the central districts and the West
End. Residents of the East End
would be much put out at having to
haul their refuse to the lower end of
the city and they must be looked af-
ter."

Among other matters that may come
up for consideration is the railroad in-
junction question. The railroad com-
mittee of council may be ordered to
hold a meeting to take some action
regard to this question which is now
perplexing the city. Mr. Pesch, the
chairman of the board, is out of the
city.

GOVERNMENT TAKES A HAND

Proposes to Stop Pollution of the River Through Garbage Dumping.

LAW CLEARLY VIOLATED

The sanitary condition of East Liv-
erpool is known for a greater distance
than the city limits. The outrageous
state of affairs has even reached the
heart of the country, Washington, D.
C., and as a result a government em-
ployee arrived in the city this morning
and made a thorough examination of
the conditions, especially along the
river bank.

After thoroughly sizing up the sit-
uation he called at the office of City
Clerk Davidson this afternoon and in-
formed that official that something
will have to be done to prohibit the
throwing of the filth and garbage over
the river banks, and that persons con-
victed of violating the marine law in
that manner will be prosecuted to the
full extent of the law. He further stated
that it was absolutely unlawful to
throw any garbage on government
property and that his mission here was
to find the exact conditions and make
a report at government headquarters.
He discovered that the law had been
violated at points all along the city
river front. Whether or not steps will
be taken to land the parties who have
disposed of garbage on the bank he
did not say, but insisted that the prac-
tice must be stopped and that all nec-
essary precautions would be made for
that purpose.

Health Officer Ogden and Mayor Da-
vidson were having their trouble this
afternoon over the awful conditions ex-
isting. For two weeks they have been
constantly besieged by residents, ask-
ing for a dumping ground, and they
have now decided to tell all comers
simply to await the action of council.
Both of these officials will likely pre-
sent the matter to council tonight and
they have asked several others to ex-
ert their powers to influence the body.

Washington, March 24.—With the

roads will cease to be a theory and

States is concerned. The Panama
railroad running across the isthmus is

French company \$10,000,000. With the
completion of the bargain and the ex-
change of the purchase price the al-
ready huge list of federal employees
will be expanded to include section
hands, brakemen, switchmen, freight
and passenger conductors, station
agents, telegraphers, all the people re-
quired to run a railroad; in short,
right up the list to general manager
and president. Moreover the govern-
ment will find itself in possession of a
fine line of three passenger and
freight steamers operated in connec-
tion with the Panama line. Uncle
Sam will be a bloated monopolist, too.
His railway across the isthmus will
be the sole transportation agency
thereabouts until the ditch is dug and
filled with the water that is to carry
through the shipping of the world.
People who object to his freight
charges or to his passenger schedules
can walk or send their goods through
by rail—unless they can get passes
or rebates through friendly congress-
men. Under these circumstances it
will hardly be necessary for our uncle
to employ traveling freight or passen-
ger agents to drum up trade. He will
not need to either enter or fight any
combination of competitors or to en-
gineer any traffic agreements. He will
be saved the danger of falling foul of
his own interstate commerce commis-
sion. Incidentally the Panama rail-
road under present conditions is said
to be one of the best paying railway
properties in this hemisphere. The
steamboat line is considered a good
investment as well. Both are essen-
tial adjuncts to the work of excavating
a passage way between the oceans.

But even a bonanza has its draw-
backs. Outside of the railroad and
the steamship line the property to be
acquired by the payment of \$10,000,000
to the French company comprises a
most unhealthy hole in the ground, or
succession of them; the most compre-
hensive collection of junk in the way
of rusted and impossible machinery
that this French company could find
as an excuse for sinking a large part
of the \$300,000,000 of its stockholders'
money already spent, and a choice as-
sortment of fatal diseases, beginning
with yellow fever and smallpox, and
continuing in ascending scale to a ci-
max, yet to be investigated by medical
men, that is warranted to kill in 35
minutes or less.

The holes in the ground are valuable
but they would be more so if they had
been taken care of after being excava-
ted. Silt and rubbish have accumu-
lated wherever the French engineers
have already dug. This will require
re-dredging and then the whole canal
will have to be broadened and deep-
ened to the width of 150 feet at the
bottom and the depth of 35 feet deter-
mined upon. A small sized mountain
of 273 feet of indurated clay must be
cut through. The French have barely
scratched the surface here. This is the
Culebra cut.

Although the French engineers have
made much of the machinery they will
turn over when the purchase is com-
pleted it is said by experts who have
recently been over the canal route
that most of this has been left ex-
posed to climatic action until it is use-
less for anything except the scrap
heap. What little machinery there is
in good running order is considered
antiquated by up-to-date American
engineers. It is probable that almost
everything down to the smallest steam
shovel of the lot will be imported from
the United States to save time and
insure more efficiency in this work.

To minimize the opposition of Senor
Yellow Jack and his co-partner, Mr.
Smallpox, Uncle Sam will again pay

sanitary policeman, as he had to do in
Cuba and as he is doing in Porto Rico
and the Philippines. At the Pacific
terminus of the canal lies the city of
Panama which, in days one reads
about in the Swashbuckler novel, that
pleasant gentleman Sir Henry Morgan
sacked and burned with his jovial
good fellow buccaners. Experts say
it will be necessary to almost repeat
Sir Henry's performance.

He was after broad pieces of eight
and rapine and murder which gave
rest and excitement to his profession.
Uncle Sam will be after dirt and
germs. He will tear down and burn
and distribute chloride of lime. He will
straighten narrow, crooked streets
where the pies and infant prodigies of
Panama now wallow and pave them—
that is the streets. It will be the
same process that was so rigorously
carried out in Santiago de Cuba. Colon,
situated on an island at the Atlantic
end of the isthmus, is slated for simi-
lar heroic treatment.

It has been a hard task for the
French engineers to get and keep suf-
ficient labor at work on the canal for
their needs—or it was before the fail-
ure of the company and the reduction

WRECK VICTIMS ARE IMPROVING

Official Investigation Fails to Show Cause of Sunday Accident.

NEW CAR SOON TO RUN

The injured in the street car wreck
of Sunday night are reported improv-
ing today. Most of them are still suf-
fering considerable pain, but with
few exceptions they will be entirely
recovered in a few days. It was found
at a later examination that Miss Elsie
Nelson, injured about the mouth, had
also sustained a broken jaw. Dr. J.
Howard Davis, who cared for Miss
Nelson on the night of the disaster,
set the broken bones and states that it
will not be necessary to place the jaw
in a plaster cast, as the muscles will
hold the bones in place.

Those of the injured who live on
Pleasant Heights were reported bet-
ter, without exception, and none of
them will suffer permanent injury.
Joseph Jackson, who lives in Sunny-
side, one of the worst injured, is able
to walk to the city from his home to
receive medical attention. Joseph Mar-
tin, who had his right shoulder bro-
ken, is suffering greatly and it will
be some time before he can get around
again. He was probably the worst in-
jured.

The official investigation by the car
company was completed last evening,
but the blame for the disaster has not
been made by those in the employ of
the company, some of whom were on
the scene a few minutes after the car
left the track, but just what the cause
was or who was at fault, if determined,
will not be given out at this time. As
stated yesterday the running gear was
not damaged to any great extent and
will be used in equipping another car.
The brakes of the wrecked car were
found to be in excellent working order
and of sufficient force to control two
cars when the trip was made down the
hill to the power house.

Perhaps the exact cause of the disas-
ter will never be known, as the passen-
gers tell widely differing stories, all
contradictory to the one told by the
motorman. A new car for the Pleasant
Heights line is being equipped as rap-
idly as possible.

RENDERED HELPLESS BY PARALYSIS

Enoch Jones Taken to His Home on Pleasant Heights in an Ambulance.

Enoch Jones, who has been living on
a small farm near Salineville, was
taken to his home on Pleasant
Heights from the noon train today in
McQuilkin's ambulance.

He has been suffering from paral-
ysis and an additional stroke has ren-
dered him helpless. His brother
Isaac Jones, of Division street, accom-
panied him.

Fined for Assault.

Lisbon, March 24.—(Special).—
Thomas Griffith, the young man who
assaulted William Gellor, the bartend-
er, Friday evening, was arrested last
evening by Officer Bellis. He was at
once arraigned before Mayor Farrell,
pleaded guilty and was fined \$15 and
costs, aggregating \$18.60, which he
paid and was released.

FINE GOODS IN OLD BOX

Crate Supposed to Be Empty Contained Articles Worth Much Money.

IT HAD BEEN GIVEN AWAY

But the Recipient Made All Haste to Restore Property to Owner.

A MOTHER MUCH WORRIED

A little boy, aged about 10 years, of
Jethro Hollow, giving as his name
Berberg, made for himself a reputa-
tion for honesty that will ever follow
him yesterday when he returned a box
of dry goods to the Boston Store
which had been given to him through
mistake.

A. S. Young, proprietor of the store,
was very busy during the early part
of the afternoon when the lad entered
the store and in a gentlemanly manner
asked if he could have one of the
empty boxes lying on the pavement
in front of the store on Market street.
Mr. Young told him that he could, pro-
viding the box was empty, and noth-
ing more was thought of the occur-
rence until an hour or so later the
youth walked into the store and told
that he had loaded one of the boxes
onto a little wagon, and not having ex-
amined it thoroughly, did not discover
that it contained anything of value
until he had nearly reached home.

Why he made the examination then
he does not know, but was horrified
when he uncovered it and found a big
lot of goods. The thought of stealing
them never entered the mind of the
little fellow and he immediately returned
to the store. Mr. Young thanked the
boy heartily and showered complimen-
tary remarks upon him for his display
of veracity.

A short time later the mother of the
boy appeared at the store and wanted
to know whether or not the lad had
been suspected of stealing the goods,
and when given assurance that he had
not she departed in good spirits. The
box contained nearly \$300 worth of
merchandise and would have been a
heavy loss had a different kind of per-
son had the boy's opportunity.

Harry Koch, one of the proprietors
of the Koch's company's store on
Sixth street, when apprised of the
above incident, immediately conjectured
that the box of silks stolen
from the rear of his store over a
month ago, the particulars of which
were published exclusively in the News
Review, might have been taken in a
similar manner, but by a person of dif-
ferent character. It is customary for
boys to get boxes from dealers in the
city, and though the box of silks was
not given to any one, it is thought
probable that whoever took the Koch's
company's box did so without knowl-
edge of its contents, and after discover-
ing the true value was deterred
through disonesty in returning it.

Mr. Koch states that he will work
on the case as long as there is the
slightest hope of recovering the stolen
property and that he has offered a re-
ward of \$100 for any information that
will lead to the arrest and recovery
of the silks.

THE WEATHER.

Saturday night. A number of resolutions for the national convention have been prepared and they will be presented for the approval or disapproval of the local. The kilndrawers delegates to the convention are: E. L. Veith, U. E. Price, George Richards, John Gilson and L. A. Shipley.

FORD CITY TO START.

The plant at Ford City, which has been idle most of the time since the first of the year, will resume next week, it is stated. Will Horschey, the mouldmaker at the plant, who has been making an extended visit with relatives here during the layoff, has been ordered to report for duty next week. John Demmerling, the well known jiggerman, is thinking of taking a situation at the plant.

TROUBLE AT NATIONAL.

A great deal of trouble is reported with the kilns at the National since the recent high water, which inundated the kiln sheds. The trouble has been, it is stated, in the firing and cooling of the kilns, and as a result the men have been getting only about eight days in a pay. The firm is losing also by the trouble, as orders are plentiful and many require prompt shipment.

GOES TO MINERVA.

William Owen, cup jiggerman at the Union and one of the best known operatives in the city, will resign his position to become the manager of the clay department at the Minerva pottery. He will leave for that city as soon as the clay part is ready to start. Charles McGuffin, who has been operating a jigger at the Chelsea, New Cumberland, will take Mr. Owen's jigger.

BADLY INJURED.

Ralph Alcock, one of the 16 passengers injured in the wreck of the street car on the Pleasant Heights line Sunday night, will not be able for some time to resume his work as a printer at the Dresden. Besides the cuts about his hands he is badly bruised about the body and can walk only with the greatest difficulty.

SLACK AT TRENTON.

Robert Slack, art director at McNicol's, left Saturday for Trenton, where he will spend several days on business. Mr. Slack is one of the heirs of an estate left by a relative recently deceased, and it is the settlement of it that calls him to the eastern pottery center. He is expected home next Friday.

AMONG THE WORKMEN.

Joseph McKenna started at Harker's yesterday as a handle maker. The biscuit kilnmen at the Goodwin, off since last Thursday, resumed yesterday.

The ghost hands at the Union will be off until Wednesday owing to a shortage of saggars.

Thomas Cannon, the popular kiln fireman at the Dresden, was at Salineville over Sunday visiting relatives.

John Callahan, of the ghost end at the Dresden, has purchased a lot on Pleasant Heights and will build a home this spring.

John Hicks, ghost kilnman at the Dresden, has been suffering for the past week with a heeled jaw and is not able to work.

Will Maloney, of the ghost end at the Dresden, is the proud father of a fine girl baby that arrived at his home in the West End a few days ago. The boys in the crew had the cigars passed among them in honor of the event.

THE AMERICAN FALL NOW ALMOST DRY

Remarkable Condition of Affairs in the River at Niagara Falls.

Niagara Falls, N. Y., March 24.—The American fall is practically dry, and for the first time in 55 years people are able to walk about in the river bed. Thousands have clamored over the rocks hunting for relics and souvenirs. Great rocks never before seen are high and dry. So little water is flowing over the American fall that men in high boots almost could have crossed at the brink.

The extraordinary condition is due to an ice jam which formed in the shallow places up the river. The ice was driven from Lake Erie into the entrance to the river and lodged in the shoal water, shutting off the flow of water in the American channel. The Horseshoe fall is not affected as much as the American. The river bed in the vicinity of the Three Sisters Islands is quite dry, and the center fall between Goat and Luna islands is a skeleton of itself.

This condition is likely to exist several days.

SUIT ENTERED FOR \$103

Couple Who Hired a Livery Team Defendants in an Action For Damages.

John Rinehart has brought suit in Justice J. N. Rose's court against Daily Larkins and O. D. Haynes to recover damages claimed to the amount of \$103. The case has been set for hearing Friday morning at 8 o'clock. The plaintiff alleges that Larkins and Haynes came to his livery stable on the evening of March 19 and hired a team and surrey. They were told that the cost would be \$3 and promised to settle it when they returned the rig.

It is further claimed by Mr. Rinehart that the young men drove to the East End and while there left the team in front of a saloon for a few minutes without being hitched. While they were there the horses became frightened by a passing freight train and started to run, but were finally stopped. The party who stopped the team brought it back to Mr. Rinehart's livery barn. The surrey had been overturned and damaged considerably and the horses were cut and otherwise injured. Mr. Rinehart places the damage done to the rig at \$100. He sues to recover this amount, together with \$3, the amount they were to pay for the rig. Mr. Rinehart claims that the defendants have not been to his barn since hiring the rig. The defendants claim they have made several efforts to settle, but their overtures were not encouraged.

BATTLESHIP OHIO NEARLY FINISHED

The Monster Fighting Machine Ready For a Trial Trip in November.

A SPLENDID NEW BOAT

Which Will Be a Great Addition to Uncle Sam's Navy—Her Dimensions and Descriptions Recounted in Detail.

A force of 600 men is at work on the battleship Ohio at the Union iron works in San Francisco and the big fighting machine is nearing completion. Seventy-two per cent of the work has already been done and the officials of the Union iron works state that the war ship will be ready for her trial trip by the end of November.

The entire shell of the Ohio has been completed and it only remains for the mechanics to complete the work on deck and inside the hull. All the armor plates of the battleship are in place and the shell of the superstructure is erected. The turrets are yet to be placed in position and the guns mounted. The construction of ammunition hoists and magazines and the dividing of the vessel into compartments is as yet incomplete.

The Ohio's main battery will consist of four 12-inch guns and four 16-inch rifles. The secondary battery will be composed of 6 and 12-pounders. The armor of the hull varies in thickness from 5 to 10 inches. The guns for the main battery are already at the Union iron works, but the 6 and 12-pounders have not yet arrived from the east.

The Ohio was recently in dry dock and was cleaned and painted.

The ship is 388 feet in length, 72 feet extreme width, with a displacement of 12,500 tons, fitted with twin screws driven by triple expansion engines of 15,100 horse-power, designed to give a speed of 18 knots; 12 Thornycroft tubular boilers, three smokestacks. Her battery consists of four 12-inch guns mounted on Hinchey revolving turrets, 24 rapid firing guns and two submerged torpedo tubes. Her side armor is 11 inches in thickness, 3 feet 6 inches above and 4 feet below water line. The protective deck is constructed in two courses of plating, lower course 1 inch thick; the upper course is from nickel steel from 1 1/2 to 3 inches in thickness, according to location. She cost \$3,180,000.

The great battleship was launched at San Francisco, Saturday, May 18, 1901, in the presence of President McKinley, Governor Nash and many other men prominent in the public life of the nation. She was christened by Miss Helen Deshler, youngest daughter of William G. Deshler, of Columbus, and the launching was witnessed by a large number of Columbus people. In his address on this occasion, President McKinley said:

"What we want to build is more ships. We ought to have a good commercial line from here to the Philippines, built by American workmen, manned by American sailors and carrying the American flag."

"There is nothing in this world that brings people so close together as commerce. There is nothing in this world that so much promotes the universal brotherhood of man as commerce, and we want to encourage commerce."

The citizens of Ohio are now engaged in raising a fund of \$50,000 for the purchase of a magnificent silver service for the ship which bears the name of their state.

BLOOD WINE

CURES RHEUMATISM AND KIDNEY DISEASES

Undoubtedly no class of people are more severely subjected to the weather than officers of the law. Probably no class of people suffer as a result of such harsh treatment any more than they with rheumatism. There is hardly a policeman, sheriff or marshal that has not had it—and badly, too. In a great many cities "Blood Wine" is recommended by the heads of the police departments, and officers are told to use it when subjected to long spells of inclement weather. Every officer who has ever taken "Blood Wine" for rheumatism speaks of his experience about as Mr. Espich, the city marshal of New Philadelphia, Ohio, does. He says:

"I take this opportunity of writing you regarding my experience with 'Blood Wine.' As my business keeps me out in all kinds of weather, I have been subjected to attacks of rheumatism. I have tried various well known remedies, but the results have never been satisfactory. But when I found 'Blood Wine,' I found a remedy that completely cured me, and did it in a remarkably short time. I can sincerely recommend 'Blood Wine' for rheumatism sufferers."

His was a case of aggravated rheumatism. It was not a new case, but an old stubborn case of long standing, one that broke out in intense fury with every wet spell. Mr. Espich had suffered so severely that he had lost faith in all medicines, and only under protest did he consent to try "Blood Wine." Rheumatism forms crusts of lime like deposits about the joints. Instead of the

bones moving freely and painlessly in the smooth-tissue covered joints, they grate and bleed and gouge into one another because of their unnatural size and shape, and produce excruciating pain and suffering. This is the way Mr. Espich felt. He was in misery with every move. When he commenced taking "Blood Wine" it immediately worked on his blood. Slowly but surely it abstracted the acid and neutralized the blood; then it dissolved those crusts about his bones. When this was done it made new tissues to cover these bones; then through the blood it produced an oil to keep the joints freely lubricated and moistened. Consequently the pain soon left and Mr. Espich quickly became a well man. Now he has no sign of pain. He eats well, feels well, and is well. Is it any wonder that he wants to tell about it and say a good word for "Blood Wine," the medicine which cured him? No one suffering with rheumatism or kidney disease should hesitate to take "Blood Wine." It will drive the disease entirely out of the system.

FREE BLOOD TEST.

As rheumatism and kidney diseases are both diseases of the blood, the only accurate way to tell one's true condition is to examine the blood. You can have an expert bacteriologist analyze your blood free of charge, by sending your name to the Louis F. Leitch Co., Worcester, Mass., for full particulars.

"Blood Wine" costs fifty cents a bottle.

POTTERY MARKS.

Frederick Litchfield recently delivered an address before the Ceramic Art Collectors' society, Birmingham, England, which was illustrated by diagrams and specimens, of some of the systems of marking that were adopted by Chinese, continental and home manufacturers. Such marks and monograms number between 4,000 and 5,000, and may be roughly divided into two classes—factory marks and those which are artists' or potters' signatures.

The Worcester factory, Mr. Litchfield pointed out, altered its marks at different times as the direction and proprietorship were changed. Thus, from the starting of these works in 1751 and 1780, the crescent open and closed, the square mark, the initial W in varied forms, printed and cursive, the oriental characters, and the Dresden crossed swords were used. Then, after the purchase of the works by Flight, the ware bore successively his name, accompanied by the crescent, the words "Flight and Barr," and "Barr, Flight and Barr," with inscriptions "Royal Porcelain Works, Worcester," and the address of the London depot, and the initials "F. B. B.," printed and pressed, surmounted by a crown.

WELL KNOWN POTTER MISSING.

The friends and relatives of Maywood Davis, a well known potter, are greatly alarmed over his absence from the city, says the Toronto Tribune. He left his home on Tuesday evening and the last seen of him was in Steubenville on Wednesday. No reason is known for his strange absence and it is feared he may have wandered away while under mental aberration. No other reason can be assigned for his disappearance. He was always very kind and thoughtful to his family and his wife and three children are prostrated over his disappearance. The missing man is aged 31 years, 5 feet, 10 1/4 inches in height

He left his home on Tuesday evening and the last seen of him was in Steubenville on Wednesday. No reason is known for his strange absence and it is feared he may have wandered away while under mental aberration. No other reason can be assigned for his disappearance. He was always very kind and thoughtful to his family and his wife and three children are prostrated over his disappearance. The missing man is aged 31 years, 5 feet, 10 1/2 inches in height

and weighs 160 pounds. When last seen he wore a stiff hat, blue striped shirt, coat and vest, blue gray, very small check, trousers, blue gray with fine red stripe. He has dark brown hair with a small bald place on crown, thick brown moustache, trimmed short, brown eyes, upper front tooth is missing. He wears 7 1/2 size lace shoes and carries a ladies' hunting case gold watch and a gentleman's open face silver watch with a double chain. He is an expert pottery printer and also learned the plastering trade. The missing man is a member of the N. E. O. P. of Toronto.

FINE GIFT WARE.

France has once more emphasized her ancient friendship with Ireland by the gift of a magnificent Sevres vase to the Friendly Sons of St. Patrick. The presentation, which next to the parade, was the most interesting feature of the day was made by Ambassador Jussurand, on behalf of the French government, at the one hundred and nineteenth banquet of the Friendly Sons at Delmonico's on St. Patrick's day. The gift is a graceful acknowledgment of the entertainment provided by Count and Countess de Rochembeau on their visit to the United States as representatives of the French government at the unveiling of the Rochembeau statue in Washington. The vase is five feet high and is a beautiful work of art.

READY BY FALL.

The plant of the Columbus Pottery company, which will make ware like that made in Zanesville, is being pushed to completion and will be ready for operation by fall. Samuel J. Scott, who has been engaged in the pottery business in Zanesville nearly all his life, has charge of the construction and will manage the plant. The equipment will be modern throughout. Negotiations have been begun for natural gas for kiln firing. Two hundred men will be employed. The factory is north of Columbus and close to the Pennsylvania and Big Four railroads. An interurban will also run close to it.

TO CONSIDER RESOLUTIONS.

Kilndrawers local No. 17 have a great deal of important business to consider at the next regular meeting

THE WEATHER.

COLD AND CLEAR.

Saturday night. A number of resolutions for the national convention have been prepared and they will be presented for the approval or disapproval of the local. The kilndrawers delegates to the convention are: E. L. Veith, U. E. Price, George Richards, John Gilson and L. A. Shipley.

FORD CITY TO START.

The plant at Ford City, which has been idle most of the time since the first of the year, will resume next week, it is stated. Will Horshey, the mouldmaker at the plant, who has been making an extended visit with relatives here during the layoff, has been ordered to report for duty next week. John Demmerling, the well known jiggerman, is thinking of taking a situation at the plant.

TROUBLE AT NATIONAL.

A great deal of trouble is reported with the kilns at the National since the recent high water, which inundated the kiln sheds. The trouble has been, it is stated, in the firing and cooling of the kilns, and as a result the men have been getting only about eight days in a pay. The firm is losing also by the trouble, as orders are plentiful and many require prompt shipment.

GOES TO MINERVA.

William Owen, cup jiggerman at the Union and one of the best known operatives in the city, will resign his position to become the manager of the clay department at the Minerva pottery. He will leave for that city as soon as the clay part is ready to start. Charles McGuffin, who has been operating a jigger at the Chelsea, New Cumberland, will take Mr. Owen's jigger.

BADLY INJURED.

Ralph Alcock, one of the 16 passengers injured in the wreck of the street car on the Pleasant Heights line Sunday night, will not be able for some time to resume his work as a printer at the Dresden. Besides the cuts about his hands he is badly bruised about the body and can walk only with the greatest difficulty.

SLACK AT TRENTON.

Robert Slack, art director at McNicol's, left Saturday for Trenton, where he will spend several days on business. Mr. Slack is one of the heirs of an estate left by a relative recently deceased, and it is the settlement of it that calls him to the eastern pottery center. He is expected home next Friday.

AMONG THE WORKMEN.

Joseph McKenna started at Harker's yesterday as a handle maker. The biscuit kilnmen at the Goodwin, off since last Thursday, resumed yesterday.

The ghost hands at the Union will be off until Wednesday owing to a shortage of saggers.

Thomas Cannon, the popular kiln fireman at the Dresden, was at Salineville over Sunday visiting relatives.

John Callahan, of the ghost end at the Dresden, has purchased a lot on Pleasant Heights and will build a home this spring.

John Hicks, ghost kilnman at the Dresden, has been suffering for the past week with a healed jaw and is not able to work.

Will Maloney, of the ghost end at the Dresden, is the proud father of a fine girl baby that arrived at his home in the West End a few days ago. The boys in the crew had the cigars passed among them in honor of the event.

THE AMERICAN FALL NOW ALMOST DRY

Remarkable Condition of Affairs in the River at Niagara Falls.

Niagara Falls, N. Y., March 24.—The American fall is practically dry, and for the first time in 55 years people are able to walk about in the river bed. Thousands have clamored over the rocks hunting for relics and souvenirs. Great rocks never before seen are high and dry. So little water is flowing over the American fall that men in high boots almost could have crossed at the brink.

The extraordinary condition is due to an ice jam which formed in the shallow places up the river. The ice was driven from Lake Erie into the entrance to the river and lodged in the shoal water, shutting off the flow of water in the American channel. The Horseshoe fall is not affected as much as the American. The river bed in the vicinity of the Three Sisters Islands is quite dry, and the center fall between Goat and Luna Islands is a skeleton of itself.

This condition is likely to exist several days.

SUIT ENTERED FOR \$103

Couple Who Hired a Livery Team Defendants in An Action For Damages.

John Rinehart has brought suit in Justice J. N. Rose's court against Dally Larkins and O. D. Haynes to recover damages claimed to the amount of \$103. The case has been set for hearing Friday morning at 8 o'clock. The plaintiff alleges that Larkins and Haynes came to his livery stable on the evening of March 19 and hired a team and surrey. They were told that the cost would be \$3 and promised to settle it when they returned the rig.

It is further claimed by Mr. Rinehart that the young men drove to the East End and while there left the team in front of a saloon for a few minutes without being hitched. While they were there the horses became frightened by a passing freight train and started to run, but were finally stopped. The party who stopped the team brought it back to Mr. Rinehart's livery barn. The surrey had been overturned and damaged considerably and the horses were cut and otherwise injured. Mr. Rinehart places the damage done to the rig at \$100. He sues to recover this amount, together with \$3, the amount they were to pay for the rig. Mr. Rinehart claims that the defendants have not been to his barn since hiring the rig. The defendants claim they have made several efforts to settle, but their overtures were not encouraged.

BATTLESHIP OHIO NEARLY FINISHED

The Monster Fighting Machine Ready For a Trial Trip in November.

A SPLENDID NEW BOAT

Which Will Be a Great Addition to Uncle Sam's Navy—Her Dimensions And Descriptions Recounted in Detail.

A force of 600 men is at work on the battleship Ohio at the Union iron works in San Francisco and the big fighting machine is nearing completion. Seventy-two per cent of the work has already been done and the officials of the Union iron works state that the war ship will be ready for her trial trip by the end of November.

The entire shell of the Ohio has been completed and it only remains for the mechanics to complete the work on deck and inside the hull. All the armor plates of the battleship are in place and the shell of the superstructure is erected. The turrets are yet to be placed in position and the guns mounted. The construction of ammunition hoists and magazines and the dividing of the vessel into compartments is as yet incomplete.

The Ohio's main battery will consist of four 12-inch guns and four 6-inch rifles. The secondary battery will be composed of 6 and 12-pounders. The armor of the hull varies in thickness from 5 to 10 inches. The guns for the main battery are already at the Union iron works, but the 6 and 12-pounders have not yet arrived from the east.

The Ohio was recently in dry dock and was cleaned and painted.

The ship is 338 feet in length, 72 feet extreme width, with a displacement of 12,500 tons, fitted with twin screws driven by triple expansion engines of 15,100 horse-power, designed to give a speed of 18 knots; 12 Thornycroft tubular boilers, three smokestacks. Her battery consists of four 12-inch guns mounted on Hitchcock revolving turrets, 24 rapid firing guns and two submerged torpedo tubes. Her side armor is 11 inches in thickness, 3 feet 6 inches above and 4 feet below water line. The protective deck is constructed in two courses of plating, lower course 1/2 inch thick; the upper course is from nickel steel from 1 1/2 to 3 inches in thickness, according to location. She cost \$3,180,000.

The great battleship was launched at San Francisco, Saturday, May 18, 1901, in the presence of President McKinley, Governor Nash and many other men prominent in the public life of the nation. She was christened by Miss Helen Deshler, youngest daughter of William G. Deshler, of Columbus, and the launching was witnessed by a large number of Columbus people. In his address on this occasion, President McKinley said:

"What we want to build is more ships. We ought to have a good commercial line from here to the Philippines, built by American workmen, manned by American sailors and carrying the American flag."

"There is nothing in this world that brings people so close together as commerce. There is nothing in this world that so much promotes the universal brotherhood of man as commerce, and we want to encourage commerce."

The citizens of Ohio are now engaged in raising a fund of \$50,000 for the purchase of a magnificent silver service for the ship which bears the name of their state.

BLOOD WINE

CURES RHEUMATISM AND KIDNEY DISEASES

Undoubtedly no class of people are more severely subjected to the weather than officers of the law. Probably no class of people suffer as a result of such harsh treatment any more than they with rheumatism. There is hardly a policeman, sheriff or marshal that has not had it—and badly, too. In a great many cities "Blood Wine" is recommended by the heads of the police departments, and officers are told to use it when subjected to long spells of inclement weather. Every officer who has ever taken "Blood Wine" for rheumatism speaks of his experience about as Mr. Espich, the city marshal of New Philadelphia, Ohio, does. He says:

"I take this opportunity of writing you regarding my experience with 'Blood Wine.' As my business keeps me out in all kinds of weather, I have been subjected to attacks of rheumatism. I have tried various well-known rheumatic remedies, but the results have never been satisfactory. But when I found 'Blood Wine,' I found a remedy that completely cured me, and did it in a remarkably short time. I can sincerely recommend 'Blood Wine' for rheumatic sufferers."

It was a case of aggravated rheumatism. It was not a new case, but an old stubborn case of long standing, one that broke out in intense fury with every wet spell. Mr. Espich had suffered so severely that he had lost faith in all medicines, and only under protest did he consent to try "Blood Wine." Rheumatism forms crusts of lime like deposits about the joints. Instead of the

bones moving freely and painlessly in the smooth-tissue covered joints, they grate and grind and gouge into one another because of their unnatural size and shape, and produce excruciating pain and suffering. This is the way Mr. Espich felt. He was in misery with every move. When he commenced taking "Blood Wine" it immediately worked on his blood. Slowly but surely it abstracted the acid and neutralized the blood; then it dissolved those crusts about his bones. When this was done it made new tissues to cover these bones; then through the blood it produced an oil to keep the joints freely lubricated and moistened. Consequently the pain soon left and Mr. Espich quickly became a well man. Now he has no sign of pain. He eats well, feels well, and is well. Is it any wonder that he wants to tell about it and say a good word for "Blood Wine," the medicine which cured him? No one suffering with rheumatism or kidney disease should hesitate to take "Blood Wine." It will drive the disease entirely out of the system.

FREE BLOOD TEST. As rheumatism and kidney diseases are both diseases of the blood, the only accurate way to tell one's true condition is to examine the blood. You can have an expert bacteriologist analyze your blood free of charge, by sending your name to the Louis L. Leland Co., Worcester, Mass., for full particulars.

"Blood Wine" costs fifty cents a bottle.

WITH THE WORKMEN IN THE CLAY PLANTS

POTTERY MARKS.

Frederick Litchfield recently delivered an address before the Ceramic Art Collectors' society, Birmingham, England, which was illustrated by diagrams and specimens, of some of the systems of marking that were adopted by Chinese, continental and home manufacturers. Such marks and monograms number between 4,000 and 5,000, and may be roughly divided into two classes—factory marks and those which are artists' or potters' signatures.

The Worcester factory, Mr. Litchfield pointed out, altered its marks at different times as the direction and proprietorship were changed. Thus, from the starting of these works in 1751 and 1780, the crescent open and closed, the square mark, the initial W in varied forms, printed and cursive, the oriental characters, and the Dresden crossed swords were used. Then, after the purchase of the works by Flight, the ware bore successively his name, accompanied by the crescent, the words "Flight and Barr," and "Barr, Flight and Barr," with inscriptions "Royal Porcelain Works, Worcester," and the address of the London depot, and the initials "F. B. B.," printed and pressed, surmounted by a crown.

WELL KNOWN POTTER MISSING.

The friends and relatives of Maywood Davis, a well known potter, are greatly alarmed over his absence from the city, says the Toronto Tribune. He left his home on Tuesday evening and the last seen of him was in Steubenville on Wednesday. All the armor plates of the battleship are in place and the shell of the superstructure is erected. The turrets are yet to be placed in position and the guns mounted. The construction of ammunition hoists and magazines and the dividing of the vessel into compartments is as yet incomplete.

The Ohio's main battery will consist of four 12-inch guns and fourteen 6-inch rifles. The secondary battery will be composed of 6 and 12-pounders. The armor of the hull varies in thickness from 5 to 10 inches. The guns for the main battery are already at the Union iron works, but the 6 and 12-pounders have not yet arrived from the east.

The Ohio was recently in dry dock and was cleaned and painted.

The ship is 338 feet in length, 72 feet extreme width, with a displacement of 12,500 tons, fitted with twin screws driven by triple expansion engines of 15,100 horsepower, designed to give a speed of 18 knots; 12 Thornycroft tubular boilers, three smokestacks. Her battery consists of four 12-inch guns mounted on Hitcheborne revolving turrets, 24 rapid firing guns and two submerged torpedo tubes. Her side armor is 11 inches in thickness, 3 feet 6 inches above and 4 feet below water line. The protective deck is constructed in two courses of plating, lower course 1 inch thick; the upper course is from nickel steel from 1 1/2 to 3 inches in thickness, according to location. She cost \$3,180,000.

The great battleship was launched at San Francisco, Saturday, May 18, 1901, in the presence of President McKinley, Governor Nash and many other men prominent in the public life of the nation. She was christened by Miss Helen Deshler, youngest daughter of William G. Deshler, of Columbus, and the launching was witnessed by a large number of Columbus people. In his address on this occasion, President McKinley said:

"What we want to build is more ships. We ought to have a good commercial line from here to the Philippines, built by American workmen, manned by American sailors and carrying the American flag."

"There is nothing in this world that brings people so close together as commerce. There is nothing in this world that so much promotes the universal brotherhood of man as commerce, and we want to encourage commerce."

The citizens of Ohio are now engaged in raising a fund of \$50,000 for the purchase of a magnificent silver service for the ship which bears the name of their state.

BLOOD WINE

CURES RHEUMATISM AND KIDNEY DISEASES

Undoubtedly no class of people are more severely subjected to the weather than officers of the law. Probably no class of people suffer as a result of such harsh treatment any more than they with rheumatism. There is hardly a policeman, sheriff or marshal that has not had it—and badly, too. In a great many cities "Blood Wine" is recommended by the heads of the police departments, and officers are told to use it when subjected to long spells of inclement weather. Every officer who has ever taken "Blood Wine" for rheumatism speaks of his experience about as Mr. Espich, the city marshal of New Philadelphia, Ohio, does. He says:

"I take this opportunity of writing you regarding my experience with 'Blood Wine.' As my business keeps me out in all kinds of weather, I have been subjected to attacks of rheumatism. I have tried various well known rheumatic remedies, but the results have never been satisfactory. But when I found 'Blood Wine' I found a remedy that completely cured me, and did it in a remarkably short time. I can sincerely recommend 'Blood Wine' for rheumatic sufferers."

His was a case of aggravated rheumatism. It was not a new case, but an old stubborn case of long standing, one that broke out in intense fury with every wet spell. Mr. Espich had suffered so severely that he had lost faith in all medicines, and only under protest did he consent to try "Blood Wine." Rheumatism forms crusts of lime like deposits about the joints. Instead of the bones moving freely and painlessly in the smooth-tissue covered joints, they grate and bleed and gouge into one another because of their unnatural size and shape, and produce excruciating pain and suffering. This is the way Mr. Espich felt. He was in misery with every move. When he commenced taking "Blood Wine" it immediately worked on his blood. Slowly but surely it abstracted the acid and neutralized the blood; then it dissolved those crusts about his bones. When this was done it made new tissues to cover these bones, then through the blood it produced an oil to keep the joints freely lubricated and moistened. Consequently the pain soon left and Mr. Espich quickly became a well man. Now he has no sign of pain. He eats well, feels well, and is well. Is it any wonder that he wants to tell about it and say a good word for "Blood Wine," the medicine which cured him? No one suffering with rheumatism or kidney disease should hesitate to take "Blood Wine." It will drive the disease entirely out of the system.

FREE BLOOD TEST. As rheumatism and kidney diseases are both diseases of the blood, the only accurate way to tell one's true condition is to examine the blood. You can have an expert bacteriologist analyze your blood free of charge, by sending your name to the Louis L. Smith Co., Worcester, Mass., for full particulars.

"Blood Wine" costs fifty cents a bottle.

B. C. ANSLEY'S SUCCESS

Great Popularity of Plan to Sell Medicine at Half Price and Guarantee a Cure.

B. C. Ansley, the enterprising drug list, rather than wait the ordinary methods of introduction, urged the Dr. Howard company to secure a quick sale for the celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

The wonderful success of this plan was a great surprise even to B. C. Ansley, and today there are scores of people here in East Liverpool who are using and praising this remarkable remedy.

So much talk has been caused by this offer, and so many new friends have been made for the specific, that the Dr. Howard company have authorized Druggist Ansley to continue this special half-price sale for a limited time longer.

In addition to selling a 50c bottle of Dr. Howard's specific for 25c, B. C. Ansley has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

When your head aches, your stomach does not digest food easily and naturally, when there is constipation, specks before the eyes, tired feelings, giddiness, bad taste in the mouth, coated tongue, heartburn, sour stomach, roaring or ringing in the ears, melancholy, and liver troubles, Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

Dressmakers to Raise Prices.

Chicago, March 24.—Dressmakers throughout the country are to make at once an increase of from 15 to 20 per cent in the price of all gowns, in accordance with a decision reached here at the national convention of the dressmakers. This will affect the poor as well as the opulent. The higher scale is to go into effect at once. The dressmakers say they are justified in making the increase, since they have to pay more for material and help.

A GREAT TRUTH

How it Has Spread From Home to Home in East Liverpool.

In every part of East Liverpool, in the homes of the wealthy, in the humble abode of the man of toil, 'tis now a well-known fact—a great truth—that Doan's Kidney Pills have brought more comfort to backache sufferers and cured more sick kidneys than any medicine of modern times.

Mrs. Mary Hewitt, of St. George street, says: "I read in the Pittsburgh Press an account of some one who had been cured of kidney complaint in that city by using Doan's Kidney Pills. The fact of such an account being published of one living almost in the same place had a tendency to convince me that there must be some truth in it and I determined to try them myself. Some years before this I had a severe attack of rheumatism. For three months I lay helpless and after that I had trouble with my kidneys. For a year I suffered severely. My back was so bad that it felt as though I had a boil where the kidneys are. I could not bend, lean back against a chair or reach up. I could not lie on my back, and about every move I made caused pain. I had taken numerous remedies, but none brought the desired relief. Well, Doan's Kidney Pills, procured at the W. & W. pharmacy, did what no other remedy was able to do. I took them regularly for a short time and found them to be all the Pittsburgh paper stated them to be. I can heartily recommend them. After using them I was rid of backache and other symptoms of kidney trouble."

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no other.

EAST END

CREAT IMPROVEMENT

The Railroad Company Building a Retaining Wall Where it is Much Needed.

A large force of men is engaged on the C. & P. railroad in the vicinity of Mulberry street excavating for the retaining wall, which will be built by the railroad company. The residents of Railroad street are well pleased with the improvement that is made by the wall being built, which when completed will be topped off with a coping and a substantial iron railing. The wall will average six feet in height. An East End contractor, John Schmeltz, has received the contract for the building of the retaining walls for a distance of 18 miles, between the East End and Rochester, Pa.

The railway company is taking advantage of every foot of ground, excavating to private property lines in most cases. The work of building the wall will be carried on in haste and a large amount of stone is being delivered along the line.

Horse Fell in a Trench.

A team belonging to Rinehart's livery barn, which was attached to a buggy, was being driven along Pennsylvania avenue last night, when one of the horses fell into a trench in front of a new house being built on that street. The horse was badly bruised, and it was fully two hours before it could be extricated from its predicament. The trench had been dug in the street by plumbers who neglected to place lights there warning people of the danger. The animal was finally gotten out and taken to the livery barn. While badly bruised, luckily no bones were broken, and in a few days it will be in its usual condition.

Mercer-Trevor.

The wedding of Miss Alice Mercer, daughter of Mr. and Mrs. S. D. Mercer, of Pennsylvania avenue, and Harry Trevor, has just been announced. These young people were married quietly last Thursday evening and the announcement was received with surprise by their many friends. Both of the young people are quite popular and their friends join in wishing them a happy married career. They expect to take a short trip and after returning to the East End will make their home there.

Juniors' Social.

William J. Alexander has gone to Industry, Pa., to take a position at that place.

Fred Green, of Akron, has accepted a position as sticker-up at the East End pottery.

Miss Frances Phillips, of Muse's Bottom, Ky., is visiting at the home of A. G. Chafin, on Erie street.

The firm of Hauck & Hellman, milliners, of Pomeroy, have engaged in business on Mulberry street.

A social meeting of the Protected Home Circle will be held at the hall tonight and a large crowd is expected to be present.

BARTENDERS' SCALE

They Ask for \$15 a Week for 72 Hours' Work And Expect to Get It.

Local No. 431, Bartenders' International league, will soon present its scale, adopted some time ago, to the saloon keepers. The bartenders ask for \$15 for a week of 72 hours and no trouble is anticipated in this city in getting the proprietors to accede to the demand. The Wellsville bartenders are members of this local and some trouble may be experienced in that city. At the last meeting of the local, held last Sunday, Charles Ipes was elected business representative, or walking delegate, and he will now

NEW EQUIPMENT FOR NATIONAL GUARD

Will Soon Be Ready to Be Issued to the Soldier Boys of Ohio.

Columbus, March 24.—(Special)—Adjutant General Gyger received a telegram from Major James Parker, assistant adjutant general of the United States army, saying the new equipment provided under the Dick law for the National Guard was ready to be issued by the war department and that it would be issued to the Ohio Guard as soon as it shall be determined just what is needed. The department will send its own inspectors to ascertain this information.

Adjutant General Gyger wired that these inspections could be made at any time. In some states the National Guard in reality is only on paper, and where this is the case the equipment will not be issued. The purpose of the inspection is to prevent imposition of this kind.

FEWER SALOONS IN THIS COUNTY

Dow Tax Figures Show That the Number Decreased During the Past Year.

Columbus, March 24.—(Special)—Dow tax figures compiled by the auditor of state show saloons are decreasing in Columbiana county. On January 1, 1903, when the semi-annual settlement under this law was made, the county had 118 saloons, as compared with 144 for the same time the year before.

The tax collected at the recent settlement amounted to \$26,574.32, of sum the state received \$7,972.29 as its share, the balance being distributed among the various municipalities of the county. The year before the tax was \$25,885, the state's share being \$7,585.21.

B. C. ANSLEY'S SUCCESS

Great Popularity of Plan to Sell Medicine at Half Price And Guarantee a Cure.

B. C. Ansley, the enterprising drug list, rather than the ordinary methods of introduction, urged the Dr. Howard company to secure a quick sale for the celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

The wonderful success of this plan was a great surprise even to B. C. Ansley, and today there are scores of people here in East Liverpool who are using and praising this remarkable remedy.

So much talk has been caused by this offer, and so many new friends have been made for the specific, that the Dr. Howard company have authorized Druggist Ansley to continue this special half-price sale for a limited time longer.

In addition to selling a 50c bottle of Dr. Howard's specific for 25c, B. C. Ansley has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

When your head aches, your stomach does not digest food easily and naturally, when there is constipation, specks before the eyes, tired feelings, giddiness, bad taste in the mouth, coated tongue, heartburn, sour stomach, roaring or ringing in the ears, melancholy, and liver troubles, Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

Dressmakers to Raise Prices.

Chicago, March 24.—Dressmakers throughout the country are to make at once an increase of from 15 to 20 per cent in the price of all gowns, in accordance with a decision reached here at the national convention of the dressmakers. This will affect the poor as well as the opulent. The higher scale is to go into effect at once. The dressmakers say they are justified in making the increase, since they have to pay more for material and help.

A GREAT TRUTH

How it Has Spread From Home to Home in East Liverpool.

In every part of East Liverpool, in the homes of the wealthy, in the humble abode of the man of toil, 'tis now a well-known fact—a great truth—that Doan's Kidney Pills have brought more comfort to backache sufferers and cured more sick kidneys than any medicine of modern times.

Mrs. Mary Hewitt, of St. George street, says: "I read in the Pittsburgh Press an account of some one who had been cured of kidney complaint in that city by using Doan's Kidney Pills. The fact of such an account being published of one living almost in the same place had a tendency to convince me that there must be some truth in it and I determined to try them myself. Some years before this I had a severe attack of rheumatism. For three months I lay helpless and after that I had trouble with my kidneys. For a year I suffered severely. My back was so bad that it felt as though I had a ball where the kidneys are. I could not bend, lean back against a chair or reach up. I could not lie on my back, and about every move I made caused pain. I had taken numerous remedies, but none brought the desired relief. Well, Doan's Kidney Pills, procured at the W. & W. pharmacy, did what no other remedy was able to do. I took them regularly for a short time and found them to be all the Pittsburgh paper stated them to be. I can heartily recommend them. After using them I was rid of backache and other symptoms of kidney trouble."

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name Doan's and take no other.

EAST END**CREAT IMPROVEMENT**

The Railroad Company Building a Retaining Wall Where It is Much Needed.

A large force of men is engaged on the C. & P. railroad in the vicinity of Mulberry street excavating for the retaining wall, which will be built by the railroad company. The residents of Railroad street are well pleased with the improvement that is made by the wall being built, which when completed will be topped off with a coping and a substantial iron railing. The wall will average six feet in height. An East End contractor, John Schmeltz, has received the contract for the building of the retaining walls for a distance of 18 miles, between the East End and Rochester, Pa.

The railway company is taking advantage of every foot of ground, excavating to private property lines in most cases. The work of building the wall will be carried on in haste and a large amount of stone is being delivered along the line.

Horse Fell in a Trench.

A team belonging to Rinehart's livery barn, which was attached to a buggy, was being driven along Pennsylvania avenue last night, when one of the horses fell into a trench in front of a new house being built on that street. The horse was badly bruised, and it was fully two hours before it could be extricated from its predicament. The trench had been dug in the street by plumbers who neglected to place lights there warning people of the danger. The animal was finally gotten out and taken to the livery barn. While badly bruised, luckily no bones were broken, and in a few days it will be in its usual condition.

Mercer-Trevor.

The wedding of Miss Alice Mercer, daughter of Mr. and Mrs. S. D. Mercer, of Pennsylvania avenue, and Harry Trevor, has just been announced. These young people were married quietly last Thursday evening and the announcement was received with surprise by their many friends. Both of the young people are quite popular and their friends join in wishing them a happy married career. They expect to take a short trip and after returning to the East End will make their home there.

Juniors' Social.

The Juniors of the Second Presbyterian church will hold a social in Larikins & Ferguson's hall March 31. Preparations are being made by the committee to make the social a success. The musical program of the young people will prove a great attraction. Refreshments will also be served.

Miss Frances Phillips, of Muse's Bottom, Ky., is visiting at the home of A. G. Chaffin, on Erie street.

The firm of Hauck & Heilmann, milliners, of Pomeroy, have engaged in business on Mulberry street.

A social meeting of the Protected Home Circle will be held at the hall tonight and a large crowd is expected to be present.

BARTENDERS' SCALE

They Ask for \$15 a Week for 72 Hours' Work And Expect to Get It.

Local No. 431, Bartenders' International league, will soon present its scale, adopted some time ago, to the saloon keepers. The bartenders ask for \$15 for a week of 72 hours and no trouble is anticipated in this city in getting the proprietors to accede to the demand. The Wellsville bartenders are members of this local and some trouble may be experienced in that city. At the last meeting of the local, held last Sunday, Charles Ipes was elected business representative, or walking delegate, and he will now

"I wrote to Doctor Pierce, who sent me a very kind letter and advised me."

Thousands of weak and sick women can trace the beginning of a new life of perfect health to that letter written to Dr. Pierce.

Sick and ailing women are invited to consult Dr. Pierce, by letter, free. All correspondence held as strictly private and absolutely confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription cures weak and aching backs, headaches, nervousness and other womanly ailments by curing the womanly diseases which cause them.

"In the spring of 1900 I became very ill," writes Mrs. Alvina Scholtz, of Lake Washington, Lesser Co., Minn. "My back was very weak and ached so that I could do no work at all, so I was obliged to take to my bed. I felt a constant desire to urinate and the pains in my abdomen were almost unbearable. I wrote to Dr. Pierce, who sent me a very kind letter and advised me to take his Favorite Prescription. I took six bottles of each and am a well woman now. I cannot say enough in favor of Dr. Pierce's medicine."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

NEW EQUIPMENT FOR NATIONAL GUARD

Will Soon Be Ready to Be Issued to the Soldier Boys of Ohio.

Columbus, March 24.—(Special.)—Adjutant General Gyger received a telegram from Major James Parker, assistant adjutant general of the United States army, saying the new equipment provided under the Dick law for the National Guard was ready to be issued by the war department and that it would be issued to the Ohio Guard as soon as it shall be determined just what is needed. The department will send its own inspectors to ascertain this information.

Adjutant General Gyger wired that these inspections could be made at any time. In some states the National Guard in reality is only on paper, and where this is the case the equipment will not be issued. The purpose of the inspection is to prevent imposition of this kind.

Dow Tax Figures Show That the Number Decreased During the Past Year.

Columbus, March 24.—(Special.)—Dow tax figures compiled by the auditor of state show saloons are decreasing in Columbiana county. On January 1, 1903, when the semi-annual settlement under this law was made, the county had 118 saloons, as compared with 144 for the same time the year before.

The tax collected at the recent settlement amounted to \$26,574.32, of sum the state received \$7,972.29 as its share, the balance being distributed among the various municipalities of the county. The year before the tax was \$25,985, the state's share being \$7,585.21.

B. C. ANSLEY'S SUCCESS

Great Popularity of Plan to Sell Medicine at Half Price And Guarantee a Cure.

B. C. Ansley, the enterprising druggist, rather than wait the ordinary methods of introduction, urged the Dr. Howard company to secure a quick sale for the celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

The wonderful success of this plan was a great surprise even to B. C. Ansley, and today there are scores of people here in East Liverpool who are using and praising this remarkable remedy.

So much talk has been caused by this offer, and so many new friends have been made for the specific, that the Dr. Howard company have authorized Druggist Ansley to continue this special half-price sale for a limited time longer.

In addition to selling a 50c bottle of Dr. Howard's specific for 25c, B. C. Ansley has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

When your head aches, your stomach does not digest food easily and naturally, when there is constipation, specks before the eyes, tired feelings, giddiness, bad taste in the mouth, coated tongue, heartburn, sour stomach, roaring or ringing in the ears, melancholy, and liver troubles, Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

Dressmakers to Raise Prices.

Chicago, March 24.—Dressmakers throughout the country are to make at once an increase of from 15 to 20 per cent in the price of all gowns, in accordance with a decision reached here at the national convention of the dressmakers. This will affect the poor as well as the opulent. The higher scale is to go into effect at once. The dressmakers say they are justified in making the increase, since they have to pay more for material and help.

A GREAT TRUTH

How it Has Spread From Home to Home in East Liverpool.

In every part of East Liverpool, in the homes of the wealthy, in the humble abode of the man of toil, 'tis now a well-known fact—a great truth—that Doan's Kidney Pills have brought more comfort to backache sufferers and cured more sick kidneys than any medicine of modern times.

Mrs. Mary Hewitt, of St. George street, says: "I read in the Pittsburgh Press an account of some one who had been cured of kidney complaint in that city by using Doan's Kidney Pills. The fact of such an account being published of one living almost in the same place had a tendency to convince me that there must be some truth in it and I determined to try them myself. Some years before this I had a severe attack of rheumatism. For three months I lay helpless and after that I had trouble with my kidneys. For a year I suffered severely. My back was so bad that it felt as though I had a ball where the kidneys are. I could not bend, lean back against a chair or reach up. I could not lie on my back, and about every move I made caused pain. I had taken numerous remedies, but none brought the desired relief. Well, Doan's Kidney Pills, procured at the W. & W. pharmacy, did what no other remedy was able to do. I took them regularly for a short time and found them to be all the Pittsburgh paper stated them to be. I can heartily recommend them. After using them I was rid of backache and other symptoms of kidney trouble."

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name Doan's and take no other.

Sold by W. & W. Pharmacy.

EAST END**GREAT IMPROVEMENT**

The Railroad Company Building a Retaining Wall Where it is Much Needed.

A large force of men is engaged on the C. & P. railroad in the vicinity of Mulberry street excavating for the retaining wall, which will be built by the railroad company. The residents of Railroad street are well pleased with the improvement that is made by the wall being built, which when completed will be topped off with a coping and a substantial iron railing. The wall will average six feet in height. An East End contractor, John Schmeltzenbach, has received the contract for the building of the retaining walls for a distance of 18 miles, between the East End and Rochester, Pa.

The railway company is taking advantage of every foot of ground, excavating to private property lines in most cases. The work of building the wall will be carried on in haste and a large amount of stone is being delivered along the line.

Horse Fell in a Trench.

A team belonging to Rinehart's livery barn, which was attached to a buggy, was being driven along Pennsylvania avenue last night, when one of the horses fell into a trench in front of a new house being built on that street. The horse was badly bruised, and it was fully two hours before it could be extricated from its predicament. The trench had been dug in the street by plumbers who neglected to place lights there warning people of the danger. The animal was finally gotten out and taken to the livery barn. While badly bruised, luckily no bones were broken, and in a few days it will be in its usual condition.

Mercer-Trevor.

The wedding of Miss Alice Mercer, daughter of Mr. and Mrs. S. D. Mercer, of Pennsylvania avenue, and Harry Trevor, has just been announced. These young people were married quietly last Thursday evening and the announcement was received with surprise by their many friends. Both of the young people are quite popular and their friends join in wishing them a happy married career. They expect to take a short trip and after returning to the East End will make their home there.

Juniors' Social.

The Juniors of the Second Presbyterian church will hold a social in Larkins & Ferguson's hall March 31. Preparations are being made by the committee to make the social a success. The musical program of the young people will prove a great attraction. Refreshments will also be served.

Miss Frances Phillips, of Musc's Bottom, Ky., is visiting at the home of A. G. Chafin, on Erie street.

The firm of Hauck & Heilman, milliners, of Pomeroy, have engaged in business on Mulberry street.

A social meeting of the Protected Home Circle will be held at the hall tonight and a large crowd is expected to be present.

BARTENDERS' SCALE

They Ask for \$15 a Week for 72 Hours' Work And Expect to Get It.

Local No. 431, Bartenders' International league, will soon present its scale, adopted some time ago, to the saloon keepers. The bartenders ask for \$15 for a week of 72 hours and no trouble is anticipated in this city in getting the proprietors to accede to the demand. The Wellsville bartenders are members of this local and some trouble may be experienced in that city. At the last meeting of the local, held last Sunday, Charles Ipes was elected business representative, or walking delegate, and he will now

"I wrote to Doctor Pierce, who sent me a very kind letter and advised me."

Thousands of weak and sick women can trace the beginning of a new life of perfect health to that letter written to Dr. Pierce.

Sick and ailing women are invited to consult Dr. Pierce, by letter, free. All correspondence held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription cures weak and aching backs, headaches, nervousness and other womanly ailments by curing the womanly diseases which cause them.

"In the spring of 1901 I became very ill," writes Mrs. Alvina Scholtz, of Lake Washington, Lesueur Co., Minn. "My back was very weak and ached so that I could do no work at all, so I was obliged to take to my bed. I felt a constant desire to urinate and the pains in my abdomen were almost unbearable. I wrote to Dr. Pierce, who sent me a very kind letter, and advised me to take his 'Favorite Prescription' and 'Golden Medical Discovery.' I took six bottles of each and am a well woman now. I cannot say enough in favor of Dr. Pierce's medicines."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets are the most desirable laxative for delicate women.

devote his entire time to the welfare of the local.

Most of the bartenders are now drawing the wages demanded in the scale and some have shorter hours. The membership now is about 80.

NEW EQUIPMENT FOR NATIONAL GUARD

Will Soon Be Ready to Be Issued to the Soldier Boys of Ohio.

Columbus, March 24.—(Special.)—Adjutant General Gyger received a telegram from Major James Parker, assistant adjutant general of the United States army, saying the new equipment provided under the Dick law for the National Guard was ready to be issued by the war department and that it would be issued to the Ohio Guard as soon as it shall be determined just what is needed. The department will send its own inspectors to ascertain this information.

Adjutant General Gyger wired that these inspections could be made at any time. In some states the National Guard in reality is only on paper, and where this is the case the equipment will not be issued. The purpose of the inspection is to prevent imposition of this kind.

Dow Tax Figures Show That the Number Decreased During the Past Year.

Columbus, March 24.—(Special.)—Dow tax figures compiled by the auditor of state show saloons are decreasing in Columbiana county. On January 1, 1903, when the semi-annual settlement under this law was made, the county had 118 saloons, as compared with 144 for the same time the year before.

The tax collected at the recent settlement amounted to \$26,574.32, of sum the state received \$7,972.29 as its share, the balance being distributed among the various municipalities of the county. The year before the tax was \$25,985, the state's share being \$7,585.21.

A GOOD PLATFORM.

Chief of Police Thomas V. Thompson, Republican candidate for mayor, in an interview printed in another column, makes it plain that he has a clear conception of the duties and responsibilities of the office to which he aspires, and that he is determined, if elected, to give the people an honest and faithful business administration. Mr. Thompson has grown up in the city and is acquainted with its needs and its people. Those who know him—and there are few in the city who do not—know that he is a man of his word, and when he announces his determination to do a certain thing he goes ahead and does it. When he is mayor he will be mayor in every sense of the word. As he states, the success of the new administration will depend largely on the capability and efficiency of the men whom the mayor shall appoint to office. Mr. Thompson announces his intention of making such appointments as will insure the enforcement of the laws and place men of business capacity and known executive ability at the heads of the different departments which come under the mayor's supervision. He will

also see that the men placed in office attend to business and meet the requirements of the positions they hold. If they do not the penalty of summary removal, which the mayor is authorized by the new code to impose, will be promptly put into effect. Fairer promises no man could make, and a better platform has not been announced by any one since the subject of the mayoralty election first came before the public. Mr. Thompson is not the man to go back on his pledges. He is handicapped by no political bargains and has no political debts to pay. We believe he will be guided solely by the public interests and will seek to give East Liverpool the kind of an administration which its best citizens are asking and demanding at his hands. That he will be elected is a foregone conclusion, and his reiteration of the pledges made earlier in the campaign is an assurance which the public will hail with approval.

The essence of Republican strength is found in the fact that the men of the party stand by the party nominees. No good Republican ever bolts his ticket without an excellent reason. He considers the result of a primary election or a party convention as binding. The opposition to the local Republican ticket, which hopes to persuade enough Republicans to bolt so that it can elect an anti-Republican ticket is reckoning without its host. East Liverpool Republicans are not made up of that sort of material. No good reason can be advanced why they should bolt any of the nominations made at the recent primaries, while there are countless reasons why the entire ticket should be elected. The Republican party in this city has never been addicted to factionalism. It has achieved its triumphs by sticking together. It will pursue the same course this spring, and it matters not how strenuous the effort to down it, that effort cannot succeed.

The Democratic party of East Liverpool has neglected to fill the vacancy on its ticket and consequently has no candidate for mayor. It would have been no easy matter for the half dozen leaders of the party, pulling in different directions, to agree upon a candidate, even if the woods had been full of men courting certain defeat, and there has been a woeful scarcity of aspiring Democrats. Besides, it is a matter of very little consequence, anyway.

The local Democracy is a headless party and it is entirely appropriate that it should have a headless ticket.

OBITUARY

Miss Catherine Phillips.

Salineville, March 24.—(Special).—The funeral of Miss Catherine Phillips took place from her late home yesterday afternoon at 2 o'clock. The deceased was about 63 years of age and had lived all her life in the vicinity of Summitville and Salineville. She had been an invalid for the past 20 years, which had for the most part confined her to her home. Several weeks ago she contracted a severe cold that rapidly developed in an acute attack of the grip that could not be controlled. Her death resulted Saturday afternoon. She leaves one sister and two brothers. The funeral services were conducted by Rev. J. A. Grimm, pastor of the Presbyterian church of this town. Interment at Woodlawn cemetery.

Mrs. Margaret Scroggs.

Mrs. Margaret Scroggs, of West Point, died yesterday morning after a lingering illness. She was about 60 years of age and has a daughter, Mrs. Harry J. Wingram, living in this city. The latter was at the bedside of her mother at the time of her death. Her husband, the late J. J. Scroggs, was at one time a prominent resident of this county. Mrs. Scroggs had a large circle of friends throughout the county and her death will be deeply mourned by all.

DRINK HAD MADE HIM A MANIAC

A GARDENDALE MAN PUT IN JAIL FOR SAFE KEEPING.

His Ravings in His Cell Described As Something Most Frightful.

As a result of a prolonged drunken spree, Albert Brown, who lives with his family in Gardendale, was seized with an attack of delirium tremens last night, and as a safeguard to his family and also to himself, was arrested and handed by the patrol to the city hall, where he was given a cell in the women's department.

His case is one of the most serious that has come before the police in many months. A call was sent into the fire station at about midnight and Officers Morley and Woods upon arriving at the home found the deranged man carrying on in a fearful manner. He was attempting to climb the side of the house and his maneuvers were strange enough. After he was committed to a cell Dr. C. B. Ogden was summoned and administered a nerve tonic.

In a short time Brown was resting in a peaceful sleep. This morning he was some better, but he underwent a change for the worse shortly before noon and his rantings and ravings were awful to behold. He completely lost all control of his mental powers, and while the wild state of the maniac showed plainly in his eyes he attempted to break the iron bars surrounding him.

After surging at the bars for an hour he began laboring under the hallucination that he was on board a steamboat and tried all manner of ways to get the boat stopped. He talks constantly to himself and to brother deckhands. They are giving him the worst of the work and he complains to the captain, but receiving no help he has turned the master of the boat down.

Mayor Davidson does not know exactly what he will do with the unfortunate man. He is in no position to be released and though he is now in same it is thought that the attack is only temporary, and to send him to the asylum would probably be useless. Until he shows good signs of regaining composure he will likely remain a prisoner in the city jail.

MORROW IS CHOSEN TO MANAGE THE CLUB

The Reorganized Base Ball Team Meets and Transacts Important Business.

As predicted exclusively in the News Review yesterday, the members of the East Liverpool base ball team held a meeting last night and elected W. E. Morrow manager of the team for the coming season. They decided on uniforms of Yale grey with blue trimmings. The jackets will be blue with red cuffs. The suits will be ordered some time today.

Arrangements have been made to open the season at Rochester, where the grounds there are in condition to play on. The first games here will probably be played at Rock Springs park.

SUCCESSFUL APPLICANTS

For Teachers' Certificates Who Were Examined at Lisbon—Next Examination.

Lisbon, March 24.—(Special).—Sixty applicants for certificates took the last county teachers' examination which was held here and certificates were granted as follows:

Three years, primary—Estella Brown.

Two years—Mabel Morris, Rena Culter, Letha L. Carman, Frank O. Heston.

One year—T. E. Stackhouse, Ida E. Hoffman, J. R. Kelly, Emma A. Edwards, H. Gorry, R. E. Kelly, Mrs. Evelyn W. Borton, Florence McLennan, John McPherson, Paul C. Bunn, T. C. Charlton, Leora Lowry, Frank Laughlin, J. C. Gruber, Maude Pancake, Pearl Scott, Hallie Huston, Clyde J. Freeman, William Conser, Leora Lee, Grace Sutherland, Mattie King, Bessie McAllister, Cary Farmer, Lois Cope Solon Sanders, Leora Haviland.

The next examination will be held at Wellsville, Saturday, April 4, 1903.

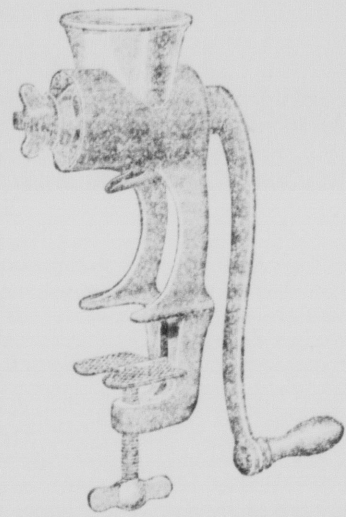

Quietly Wedded.

Salineville, March 24.—(Special).—J. W. Andrie, a prominent young business man of this place, surprised his friends by announcing that he had been married last Saturday evening to Miss Mary Toban, daughter of Tipton Toban, who resides west of Salineville. Rev. W. Hays, pastor of the Presbyterian congregation in Mechanistown, performed the ceremony at his residence. They will make Salineville their home.

of the working force to something like 1,000 men. The natives are more or less immune and can stand the life and the work, but between cock fighting and patriotic and ecclesiastical holidays they prefer not to work more than 165 days out of the 365 in each year. The larger per cent of imported laborers die. Those who don't strike for higher wages by virtue of being immune or else drift away from the place soon. At least this is the tale told of the experience of the French engineers.

These men who have "been there" are represented as standing with a hand to each ear straining the auditory nerves for the first sound of the signal that the bargain has been closed between their company and the United States, and that they are free to return at once to that dear Paris.

But the harrowing recital seems to have no terrors for the American engineer or the American mechanic or skilled workman. Everybody credited with a pull here is being flooded with applications for some kind of a job on the canal. There will be opportunity enough apparently. It is estimated that at least 20,000 laborers will at once be put in the ditch, when the United States is ready to begin work, with a corresponding number of skilled Americans to oversee and direct the business. The government railroad will supply not a few places. Engineers familiar with what has been done estimate that eight years will be required to finish the canal if work is conducted on the scale outlined. They say it will cost \$125,000,000 to do it. The French company has already expended \$200,000,000, but it is known that most of that was wasted.

At any rate all is ready. There is \$10,000,000 now waiting in the treasury for the French company, \$10,000,000 for Colombia and another \$10,000,000 with which to start the actual digging. The president is ready to appoint the commission of seven men to do the supervising. All that now delays is the ratification of the treaty by the Colombian senate.

INVITED TO SEND A DELEGATE

Local Base Ball Men Asked to Send Representative to Independent Meeting.

East Liverpool has been invited to become a member of the National Association of Independent Base Ball clubs and to send a representative to the meeting, which is to be held at the Bingham hotel, Philadelphia, next Friday. The association was formed to protect the independent clubs from unscrupulous players and contract jumpers, and to assist in the booking of games.

Owing to the chaotic condition of the base ball situation here it is not likely that a representative will be sent.

Everybody reads the News Review. Its 3,100 circulation shows that the East Liverpool public appreciates a good thing.

HOSPITAL FUND SWELLED BY \$1,200

RECEIPTS FROM THE LINCOLN LECTURE MOST GRATIFYING.

Ladies of the Association Highly Pleased Over the Success of the Affair.

A meeting of the Hospital association was held in the Y. M. C. A. parlors on Saturday. The object was to receive the report of the committee on the Abraham Lincoln lecture which was given by Rev. Dr. Pratt. It was noted by the ladies that by an oversight the names of three of the patrons to the hospital fund were omitted. They were Mr. and Mrs. John W. Hall, Mr. and Mrs. Monroe Patterson, and Mr. George Stevenson. According to the report of the committee the total receipts after all expenses were deducted, will amount to about \$1,200. The ladies are very much pleased with the success they have had in raising such a large sum and also feel gratified to Dr. Pratt for his able assistance.

NATURE'S OWN CURE

Hyomei Cures Catarrh Without Danger of Drugging the Stomach.

Not until Hyomei was discovered has it been possible to truthfully say that a remedy for catarrh was known. This remedy is breathed through the Hyomei inhaler for a few minutes four times a day, and during that time every particle of air taken into the air passages and lungs is impregnated with the germ killing and health giving Hyomei. It is the only treatment that cures catarrh.

Stomach drugging often causes disordered digestion or brings on some other disease and never makes a permanent cure of catarrh. Hyomei does not only kill the germ in the throat and nose, but penetrates to the minutest air cells in the lungs and enters the blood with the oxygen, killing the germs in the blood. It frees the mucous membrane from poisonous microbes and gives perfect health.

A complete outfit costs but \$1.00, and includes the inhaler, dropper and sufficient Hyomei for more than a month's treatment.

Will Reed has so much faith in the merit of Hyomei that he agrees to return the money to any purchaser who may be dissatisfied.

TEN PIECES OF SHEET MUSIC FOR \$1.00.

Is This Old Music? NO!

10 pieces of copyright music, latest popular pieces of the day, for \$1.00.

Why, you ask, do we make this offer, do we buy this music so cheap that we can afford to sell it 10 pieces for \$1.00.

NO!

The reason, in order to keep up to date we have standing orders with the leading publishers for from 1 to 10 copies of each new issue. These are sent us soon as they are off the press. In 10 years we have accumulated more music than our limited space will allow, our shelves are running over. We must make more room or reduce our stock. We decide to sell 10 pieces for \$1.00, or sent prepaid to any address for \$1.10.

This music we have in stock and will not include the last copy of any one piece. Our clerks will not be allowed to play over music in this offer. We will, however, allow you to select three pieces that we have in stock, we will give you seven more either instrumental or vocal of our own selection, copyright music. Ordinarily these 10 pieces would cost you at least \$2.50.

While this offer is not something for nothing it is very close to it. Offer for 30 days only.

DRINK HAD MADE HIM A MANIAC

A GARDENDALE MAN PUT IN JAIL FOR SAFE KEEPING.

His Ravings in His Cell Described As Something Most Frightful.

As a result of a prolonged drunken spree, Albert Brown, who lives with his family in Gardendale, was seized with an attack of delirium tremens last night, and as a safeguard to his family and also to himself, was arrested and hauled by the patrol to the city hall, where he was given a cell in the women's department.

His case is one of the most serious that has come before the police in many months. A call was sent into the fire station at about midnight and Officers Morley and Woods upon arriving at the home found the deranged man carrying on in a fearful manner. He was attempting to climb the side of the house and his maneuvers were strange enough. After he was committed to a cell Dr. C. B. Ogden was summoned and administered a nerve tonic.

In a short time Brown was resting in a peaceful sleep. This morning he was some better, but he underwent a change for the worse shortly before noon and his rantings and ravings were awful to behold. He completely lost all control of his mental powers, and while the wild stare of the maniac showed plainly in his eyes he attempted to break the iron bars surrounding him.

After surging at the bars for an hour he began laboring under the hallucination that he was on board a steamboat and tried all manner of ways to get the boat stopped. He talks constantly to himself and to brother deckhands. They are giving him the worst of the work and he complains to the captain, but receiving no help he has turned the master of the boat down.

Mayor Davidson does not know exactly what he will do with the unfortunate man. He is in no position to be released and though he is now in the same it is thought that the attack is only temporary, and to send him to the asylum would probably be useless. Until he shows good signs of regaining composure he will likely remain a prisoner in the city jail.

The Reorganized Base Ball Team Meets and Transacts Important Business.

As predicted exclusively in the News Review yesterday, the members of the East Liverpool base ball team held a meeting last night and elected W. E. Morrow manager of the team for the coming season. They decided on uniforms of Yale grey with blue trimmings. The jackets will be blue with red cuffs. The suits will be ordered some time today.

Arrangements have been made to open the season at Rochester, when the grounds there are in condition to play on. The first games here will probably be played at Rock Springs park.

of the working force to something like 1,000 men. The natives are more or less immune and can stand the life and the work, but between cock fighting and patriotic and ecclesiastical holidays they prefer not to work more than 165 days out of the 365 in each year. The larger per cent of imported laborers die. Those who don't strike for higher wages by virtue of being immune or else drift away from the place soon. At least this is the tale told of the experience of the French engineers.

These men who have "been there" are represented as standing with a hand to each ear straining the auditory nerves for the first sound of the signal that the bargain has been closed between their company and the United States, and that they are free to return at once, to that dear Paris.

But the harrowing recital seems to have no terrors for the American engineer or the American mechanic or skilled workman. Everybody credited with a pull here is being flooded with applications for some kind of a job on the canal. There will be opportunity enough apparently. It is estimated that at least 20,000 laborers will at once be put in the ditch, when the United States is ready to begin work, with a corresponding number of skilled Americans to oversee and direct the business. The government, railroad will supply not a few places. Engineers familiar with what has been done estimate that eight years will be required to finish the canal if work is conducted on the scale outlined. They say it will cost \$175,000,000 to do it. The French company has already expended \$200,000,000, but it is known that most of that was wasted.

At any rate all is ready. There is \$40,000,000 now waiting in the treasury for the French company, \$10,000,000 for Colombia and another \$10,000,000 with which to start the actual digging. The president is ready to appoint the commission of seven men to do the supervising. All that now delays is the ratification of the treaty by the Colombian senate.

Local Base Ball Men Asked to Send Representative to Independent's Meeting.

East Liverpool has been invited to become a member of the National Association of Independent Base Ball clubs and to send a representative to the meeting, which is to be held at the Bingham hotel, Philadelphia, next Friday. The association was formed to protect the independent clubs from unscrupulous players and contract jumpers, and to assist in the booking of games.

Owing to the chaotic condition of the base ball situation here it is not likely that a representative will be sent.

A meeting of the Hospital association was held in the Y. M. C. A. parlors on Saturday. The object was to receive the report of the committee on the Abraham Lincoln lecture which was given by Rev. Dr. Pratt. It was noted by the ladies that by an oversight the names of three of the patrons to the hospital fund were omitted. They were Mr. and Mrs. John W. The ladies are very much pleased with the success they have had in raising such a large sum and also feel gratified to Dr. Pratt for his able assistance.

NATURE'S OWN CURE

Hymenol Cures Catarrh Without Danger of Drugging the Stomach.

Not until Hymenol was discovered has it been possible to truthfully say that a remedy for catarrh was known. This remedy is breathed through the Hymenol inhaler for a few minutes four times a day, and during that time every particle of air taken into the air passages and lungs is impregnated with the germ killing and health giving Hymenol. It is the only treatment that cures catarrh.

Stomach drugging often causes ill-ordered digestion or brings on some other disease and never makes a permanent cure of catarrh. Hymenol does not only kill the germ in the throat and nose, but penetrates to the minutest air cells in the lungs and enters the blood with the oxygen, killing the germs in the blood. It frees the mucous membrane from poisonous microbes and gives perfect health.

A complete outfit costs but \$1.00, and includes the inhaler, dropper and sufficient Hymenol for more than a month's treatment.

Will Reed has so much faith in the merit of Hymenol that he agrees to return the money to any purchaser who may be dissatisfied.

TEN PIECES OF SHEET MUSIC FOR \$1.00.

Is This Old Music?

NO!

10 pieces of copyright music, latest popular pieces of the day, for \$1.00.

Why, you ask, do we make this offer, do we buy this music so cheap that we can afford to sell it 10 pieces for \$1.00.

NO!

The reason, in order to keep up to date we have standing orders with the leading publishers for from 1 to 10 copies of each new issue. These are sent us soon as they are off the press. In 10 years we have accumulated more music than our limited space will allow, our shelves are running over. We must make more room or reduce our stock. We decide to sell 10 pieces for \$1.00, or sent prepaid to any address for \$1.10.

This music we have in stock and will not include the last copy of any one piece. Our clerks will not be allowed to play over music in this offer. We will, however, allow you to select three pieces that we have in stock, we will give you seven more either instrumental or vocal of our own selection, copyright music. Ordinarily these 10 pieces would cost you at least \$2.50.

While this offer is not something for nothing it is very close to it. Offer for 30 days only.

A GOOD PLATFORM.

Chief of Police Thomas V. Thompson, Republican candidate for mayor, in an interview printed in another column, makes it plain that he has a clear conception of the duties and responsibilities of the office to which he aspires, and that he is determined, if elected, to give the people an honest and faithful business administration. Mr. Thompson has grown up in the city and is acquainted with its needs and its people. Those who know him—and there are few in the city who do not—know that he is a man of his word, and when he announces his determination to do a certain thing he goes ahead and does it. When he is mayor he will be mayor in every sense of the word. As he states, the success of the new administration will depend largely on the capability and efficiency of the men whom the mayor shall appoint to office. Mr. Thompson announces his intention of making such appointments as will insure the enforcement of the laws and place men of business capacity and known executive ability at the heads of the different departments which come under the mayor's supervision. He will

also see that the men placed in office attend to business and meet the requirements of the positions they hold. If they do not the penalty of summary removal, which the mayor is authorized by the new code to impose, will be promptly put into effect. Fairer promises no man could make, and a better platform has not been announced by any one since the subject of the mayoralty election first came before the public. Mr. Thompson is not the man to go back on his pledges. He is handicapped by no political bargains and has no political debts to pay. We believe he will be guided solely by the public interests and will seek to give East Liverpool the kind of an administration which its best citizens are asking and demanding at his hands. That he will be elected is a foregone conclusion, and his reiteration of the pledges made earlier in the campaign is an assurance which the public will hail with approval.

The essence of Republican strength is found in the fact that the men of the party stand by the party nominees. No good Republican ever bolts his ticket without an excellent reason. He considers the result of a primary election or a party convention as binding. The opposition to the local Republican ticket, which hopes to persuade enough Republicans to bolt so that it can elect an anti-Republican ticket is reckoning without its host. East Liverpool Republicans are not made up of that sort of material. No good reason can be advanced why they should bolt any of the nominations made at the recent primaries, while there are countless reasons why the entire ticket should be elected. The Republican party in this city has never been addicted to factionalism. It has achieved its triumphs by sticking together. It will pursue the same course this spring, and it matters not how strenuous the effort to down it, that effort cannot succeed.

The Democratic party of East Liverpool has neglected to fill the vacancy on its ticket and consequently has no candidate for mayor. It would have been no easy matter for the half dozen leaders of the party, pulling in different directions, to agree upon a candidate, even if the woods had been full of men courting certain defeat, and there has been a woeful scarcity of aspiring Democrats. Besides, it is a matter of very little consequence, anyway.

The local Democracy is a headless party and it is entirely appropriate that it should have a headless ticket.

OBITUARY

Miss Catherine Phillips.
Salineville, March 24.—(Special).—The funeral of Miss Catherine Phillips took place from her late home yesterday afternoon at 2 o'clock. The deceased was about 63 years of age and had lived all her life in the vicinity of Summitville and Salineville. She had been an invalid for the past 20 years, which had for the most part confined her to her home. Several weeks ago she contracted a severe cold that rapidly developed in an acute attack of the grip that could not be controlled. Her death resulted Saturday afternoon. She leaves one sister and two brothers. The funeral services were conducted by Rev. J. A. Grimm, pastor of the Presbyterian church of this town. Interment at Woodlawn cemetery.

Mrs. Margaret Scroggs.
Mrs. Margaret Scroggs, of West Point, died yesterday morning after a lingering illness. She was about 60 years of age and has a daughter, Mrs. Harry J. Whitman, living in this city. The latter was at the bedside of her mother at the time of her death. Her husband, the late J. J. Scroggs, was at one time a prominent resident of this county. Mrs. Scroggs had a large circle of friends throughout the county and her death will be deeply mourned by all.

TEN PIECES OF SHEET MUSIC FOR \$1.00.

Is This Old Music?
NO!

10 pieces of copyright music, latest popular pieces of the day, for \$1.00.

Why, you ask, do we make this offer, do we buy this music so cheap that you can afford to sell it 10 pieces for \$1.00.
NO!

The reason, in order to keep up to date we have standing orders with the leading publishers for from 1 to 10 copies of each new issue. These are sent us soon as they are off the press. In 10 years we have accumulated more music than our limited space will allow, our shelves are running over. We must make more room or reduce our stock. We decide to sell 10 pieces for \$1.00, or sent prepaid to any address for \$1.10.

This music we have in stock and will not include the last copy of any one piece. Our clerks will not be allowed to play over music in this offer. We will, however, allow you to select three pieces that we have in stock, we will give you seven more either instrumental or vocal of our own selection, copyright music. Ordinarily these 10 pieces would cost you at least \$2.50.

While this offer is not something for nothing it is very close to it. Offer for 30 days only.

WELLSVILLE STREET REPAIRS AND CLEANING

Two Important Matters Attacked
by the Wellsville City
Fathers.

FERRY FRANCHISE GIVEN

Ordinance Granting the Smith & Mc-Nicol the Right to Lay a Switch
Granted—Other Topics of Interest
Discussed.

The city council held a special meeting last evening and discussed important matters. President Whitacre and Messrs. Henderson, Shoub, McLean, Weaver, McCormick and Aughinbaugh were present.

Before any business was proceeded with Mayor Fogo came forward and made a short but very emphatic speech relative to his object of calling the meeting. He stated that the principal thing to which he wished to call the attention of council was the horrible condition a number of the city streets were in and he asked that some action be taken at once to have these streets repaired. He also stated that he thought as the present council was about to retire, it would be a good plan for it to settle all matters now on hand and not leave them over for the new council, as it would be some time before they could get rightly settled.

The first thing to be settled was the ordinance granting Watson Johnston a license to operate a ferry across the Ohio river from the wharf at Third street to the landing on the opposite side, with the privilege of operating a cable ferry after the ordinance is passed, until a steam or gasoline ferry can be constructed, the ferry to be built by May 31, 1903. This ordinance received its third and final reading and was passed.

The ordinance granting the Smith & McNicol Pottery company the right to lay a railroad track on Canal street also passed its third and final reading.

The next matter demanding attention was the keeping of the streets clean and having them sprinkled the coming summer. A letter was read from J. H. Blood, of North Baltimore, O., in which he stated that he would purchase the sprinkler and sweeper, now the property of the city, furnish all other necessary equipments and clean and sprinkle all the paved streets, which are about 7 miles, in the city, for \$19 a mile. The matter was left in the hands of the improvident committee with power to act and action to be taken at once.

Councilman Henderson was very much opposed to having this matter left in the hands of this committee, of which he is a member, as he stated that some other members will not interest themselves in anything left in their hands until everyone is disgusted.

Street Commissioner Herbert was asked to enlighten council as to the nature of the work required to repair the east side of Liverpool street. He stated that several days' work would be required, that to put the street in first class condition crushed stone should be used so as to make a good road bed. The matter was left in Mr. Herbert's hands with power to act at once.

KNOWS MI-O-NA WILL CURE

Will Read Has Such Faith in This
Great Dyspepsia Remedy That
He Guarantees It.

It is an unusual thing for a druggist to sell a medicine under a guarantee to refund the money if it does not cure. Yet this is the way Will Read, the popular druggist, is selling Mi-na, the remarkable cure for dyspepsia.

Never before has he had so large a number of customers tell him that a medicine has cured as with Mi-na. People who a few months ago looked like walking skeletons have put on flesh and today are ruddy and vigorous with perfect digestion and good health, solely due to the use of this remedy.

There is no longer need of anyone suffering or making their friends suffer on account of dyspepsia, for Mi-na can be relied upon to cure. The percentage of cures is so nearly one hundred per cent that there is little risk to Will Read in guaranteeing to return the money if the medicine does not cure. And he stands ready to do it without any questions.

Headaches, all forms of indigestion, specks before the eyes, dizzy feelings, poor sleep, ringing in the ears and all forms of liver trouble are cured by Mi-na. A few days' treatment shows considerable gain in health and a cure speedily follows.

Remember that Mi-na is the only medicine for the cure of dyspepsia that is sold under an absolute guarantee to refund the money if it does not give satisfaction. If you are not perfectly satisfied with the results from Mi-na, Will Read will return your money without any questions.

meeting, the repairing of all streets which needed repairs, was next to be settled. The condition of several of the streets was discussed when it was moved that an investigation be made of all the streets and those needing any repairing be repaired. The motion passed and the matter left in Engineer Leith's hands with power to act at once.

The ordinance making a change in May alley in George M. Aten's first addition passed its third and final reading.

Several residents of Highland avenue asked that grades be given them so as to permit them to build. Engineer Leith was instructed to attend to this when called upon.

For the purpose of widening Lisbon street between Fourth and Fifth streets the city has appropriated a portion of land belonging to Kelsay Bright, who asked for a settlement of \$300. An accurate measure of the land has been taken and was found to be just seventy-eight one-thousandths of an acre. Before paying such a price for the land the city will condemn it way through. The matter was not settled.

Citizens from the following localities have asked that sanitary sewers be built: Maple alley, Short street, Highland avenue, Clarke avenue, Twelfth street and West alley. Plans have already been drawn and without much debate on the matter, Engineer Leith was instructed to advertise for bids and have work begun without much delay.

The removal of the water works of fice to some other part of the city building in order to enlarge the post-office room was, without discussion, left in the hands of the building committee to meet with Mayor Fogo and Superintendent Ewing and determine a place suitable for the office.

Only seven members being present, it was necessary to send out for Mr. Brennan before the ordinance for the city to vacate land in Mill alley could be passed. The American Iron and Steel Plate company wish to build but cannot until this alley is vacated. After the passage of the third and final reading of this ordinance, the meeting was adjourned, with the next regular meeting to be held Tuesday evening, April 7.

BASEBALL CLUB

Wellsville People Lease Grounds for
Three Years And Will Have
Good Team.

The promoters of the scheme to organize a base ball club in Wellsville met last evening in the office of S. W. Connor, and the matter was discussed in every detail. A three years' lease has been signed and one year's rental paid for the Harrison field, back of Commerce street, between Fourteenth and Fifteenth streets, and as soon as the weather will permit work will commence.

FOR MAYOR

W. A. WEAVER

ELECTION,
Monday, April 6, 1903.

mence to convert this field into an up-to-date base ball park. A committee was appointed to look over the ground and get a rough estimate of what work was needed and then ask for bids. The contract of building a high fence and a grand stand will be let at once, and the work on the same will be rushed with all possible speed.

Several outside players have expressed their willingness to sign with the team, and with the local players Wellsville expects to have one of the fastest teams in the Ohio valley when the season opens. When asked if he thought this enterprise would prove a success one of the stockholders said:

"I am positive we will be successful, for when the people see that we mean business and are willing to speculate our money to have good ball played here once more the crowds will turn out."

Another meeting will be held Friday evening, at which time officers will be elected and plans for the completion of the park put into working order.

Unclaimed Letters.

The following list of letters remain unclaimed in the Wellsville post office: Frank Barnes, Mollie Beck, Lawrence Dillon, Mrs. C. W. Davis, Robt. Eddie, Carroll Fulton, Mrs. Jane Gilbert, Martin Lent, J. W. McPherson, J. E. McIntosh, James McNamee, Chas. Muller, Myrtle McLean, Charlie Murphy, Mrs. Mary Roles, Matt. P. Stevenson, William Steel, Abe Sayre, Jasper East, Dan Perrell, Aaron Tansall, Annie Weller, Annie Wilson and Mrs. C. E. Williams.

Water Trustees to Meet.

The water works trustees will hold a regular monthly meeting this evening. The principal subject to be brought up is the establishing of the new water works plant. Council was asked to appropriate \$20,000 to be added to the money the trustees already have on hand, but the petition was turned down. The trustees have decided to establish and equip a plant as best they can with the money they now have. The matter of the removal of the water works office will also receive attention.

Arranging for Campaign.

The Republican central committee met last evening for the purpose of completing arrangements for the coming campaign. This committee is hard at work and present indications point to complete success in the coming spring election.

Spring Vacation of Schools.

The board of education met last evening. A few bills of minor importance were passed upon and the salaries of the teachers and Trust Officer Pease were ordered paid. It was decided to close the schools of the city all next week for the spring vacation.

LOOKING INTO CAUSES OF FIRE

Insurance Adjusters Looking Into Al-
leged Incendiary Blaze in
Chester.

A quiet investigation has been carried on ever since the burning of the building occupied by the Chester club and owned by John Shrader. It was suspected and still is that the fire was of incendiary origin. The insurance on the building was only \$1,500, which was carried in the North American Insurance company of Philadelphia. Adjuster J. C. Johnston, of Columbus, was in the city yesterday and investigated the fire and its origin as far as possible. The building was worth perhaps \$1,800 and but little difficulty will be experienced in the settlement of this claim.

Today F. L. Parsons, of Columbus, adjuster for the Equitable Insurance company, is in town and is making a thorough investigation. At the time of the fire it was given out that there was no insurance on the stock. It has since been learned that E. S. Good carried a policy of \$1,000 on the stock of the club. The principal business of Mr. Parsons in this city is to investigate the condition of the stock at the time of the fire. A careful inventory of the stock on hand will be made. Nothing as yet has been given out officially that would throw any light on the object of the insurance company, but it is whispered that some startling disclosures may soon be made public.

VISITED AT HOME

William McBee, Wanted for Shooting.
Paid Quiet Call on His
Relatives.

William McBee, who figured in the desperate shooting affair during the holidays, in which Archie Bruce came near losing his life, paid an informal visit to his home Saturday night and stopped over until Monday morning. The officials of Hancock county were not aware of his visit until after he had left. Between Christmas and New Years, McBee with little cause, fired a bullet from an old Colts revolver into the right side of the chest of Archie Bruce, the bullet penetrating the lung on that side. Mr. Bruce had a close call to death, and after the shooting McBee made the expression that he would return later on and complete the job. McBee told some of his friends that he had been working at Corapolis since the shooting occurred.

The charge against McBee still holds good and every effort has been made by the authorities of Hancock county to apprehend the man.

McBee did not pass over the bridge on his visit to his home or he would have undoubtedly have been captured.

Election Proclamation.

The proclamation, calling for a special election in Chester, for the purpose of voting on the bond issue of \$22,000 for the paving of the streets has been posted. The money to be obtained from the sale of the bonds will also be used for the paying off of the present indebtedness of the town.

Good Team.

The promoters of the scheme to organize a base ball club in Wellsville met last evening in the office of S. W. Connor, and the matter was discussed in every detail. A three years' lease has been signed and one year's rental paid for the Harrison field, back of Commerce street, between Fourteenth and Fifteenth streets, and as soon as the weather will permit work will commence.

Water Trustees to Meet.

The water works trustees will hold a regular monthly meeting this evening. The principal subject to be brought up is the establishing of the new water works plant. Council was asked to appropriate \$20,000 to be added to the money the trustees already have on hand, but the petition was turned down. The trustees have decided to establish and equip a plant as best they can with the money they now have. The matter of the removal of the water works office will also receive attention.

WELLSVILLE

STREET REPAIRS
AND CLEANING

Two Important Matters Attacked
by the Wellsville City
Fathers.

FERRY FRANCHISE GIVEN

Ordinance Granting the Smith & Mc-
Nicol the Right to Lay a Switch
Granted—Other Topics of Interest
Discussed.

The city council held a special meet-
ing last evening and discussed import-
ant matters. President Whitacre and
Messrs. Henderson, Shoub, McLean,
Weaver, McCormick and Aughinbaugh
were present.

Before any business was proceeded
with Mayor Fogo came forward and
made a short but very emphatic speech
relative to his object of calling the
meeting. He stated that the principal
thing to which he wished to call the
attention of council was the horrible
condition a number of the city streets
were in and he asked that some action
be taken at once to have these streets
repaired. He also stated that he
thought as the present council was
about to retire, it would be a good plan
for it to settle all matters now on
hand and not leave them over for the
new council, as it would be some time
before they could get rightly settled.

The first thing to be settled was the
ordinance granting Watson Johnston a
license to operate a ferry across the
Ohio river from the wharf at Third
street to the landing on the opposite
side, with the privilege of operating a
cable ferry after the ordinance is
passed, until a steam or gasoline fer-
ry can be constructed, the ferry to be
built by May 31, 1903. This ordinance
received its third and final reading and
was passed.

The ordinance granting the Smith &
McNicol Pottery company the right to
lay a railroad track on Coal street
also passed its third and final read-
ing.

The next matter demanding atten-
tion was the keeping of the streets
clean and having them sprinkled the
coming summer. A letter was read
from J. H. Blood, of North Baltimore,
O., in which he stated that he would
purchase the sprinkler and sweeper,
now the property of the city, furnish
all other necessary equipments and
clean and sprinkle all the paved
streets, which are about 7 miles, in
the city, for \$19 a mile. The mat-
ter was left in the hands of the im-
provement committee with power to
act and action to be taken at once.

Councilman Henderson was very
much opposed to having this matter
left in the hands of this committee,
of which he is a member, as he stated
that some other members will not in-
terest themselves in anything left in
their hands until everyone is disgust-
ed.

Street Commissioner Herbert was
asked to enlighten council as to the
nature of the work required to repair
the east side of Liverpool street. He
stated that several days' work would
be required, that to put the street in
first class condition crushed stone
should be used so as to make a good
road bed. The matter was left in Mr.
Herbert's hands with power to act at
once.

KNOWS MI-O-NA WILL CURE

Will Reed Has Such Faith in This
Great Dyspepsia Remedy That
He Guarantees It.

It is an unusual thing for a druggist
to sell a medicine under a guarantee
to refund the money if it does not
cure. Yet this is the way Will Reed,
the popular druggist, is selling Mi-na,
the remarkable cure for dyspepsia.

Never before has he had so large a
number of customers tell him that a
medicine has cured as with Mi-na.
People who a few months ago looked
like walking skeletons have put on
flesh and today are ruddy and vigor-
ous with perfect digestion and good
health, solely due to the use of this
remedy.

There is no longer need of anyone
suffering or making their friends suf-
fer on account of dyspepsia, for Mi-na
can be relied upon to cure. The
percentage of cures is so nearly one
hundred per cent that there is little
risk to Will Reed in guaranteeing
to return the money if the medicine
does not cure. And he stands ready
to do it without any questions.

Headaches, all forms of indigestion,
spells before the eyes, dizzy feelings,
poor sleep, ringing in the ears and all
forms of liver trouble are cured by
Mi-na. A few days' treatment shows
considerable gain in health and a cure
speedily follows.

Remember that Mi-na is the only
medicine for the cure of dyspepsia
that is sold under an absolute guaran-
tee to refund the money if it does not
give satisfaction. If you are not per-
fectly satisfied with the results from
Mi-na, Will Reed will return your
money without any questions.

meeting, the repairing of all streets
which needed repairs, was next to be
settled. The condition of several of
the streets was discussed when it was
moved that an investigation be made
of all the streets and those needing
any repairing be repaired. The motion
passed and the matter left in
Engineer Leith's hands with power to
act at once.

The ordinance making a change in
May alley in George M. Allen's first
addition passed its third and final
reading.

Several residents of Highland avenue
asked that grades be given them so as
to permit them to build. Engineer
Leith was instructed to attend to this
when called upon.

For the purpose of widening Lisbon
street between Fourth and Fifth
streets the city has appropriated a
portion of land belonging to Kelsey
Bright, who asked for a settlement of
\$200. An accurate measure of the
land has been taken and was found to
be just seven-eighths one-thousandths
of an acre. Before paying such a
price for the land the city will con-
demn its way through. The matter
was not settled.

Citizens from the following localities
have asked that sanitary sewers be
built: Maple alley, Short street, High-
land avenue, Clarke avenue, Twelfth
street and West alley. Plans have al-
ready been drawn and without much
debate on the matter, Engineer Leith
was instructed to advertise for bids
and have work begun without much
delay.

The removal of the water works of-
fice to some other part of the city
building in order to enlarge the post-
office room was, without discussion,
left in the hands of the building com-
mittee to meet with Mayor Fogo and
Superintendent Ewing and determine
a place suitable for the office.

Only seven members being present,
it was necessary to send out for Mr.
Brennan before the ordinance for the
city to vacate land in Mill alley could
be passed. The American Iron and
Steel Plate company wish to build but
cannot until this alley is vacated. Af-
ter the passage of the third and final
reading of this ordinance, the meet-
ing was adjourned, with the next regu-
lar meeting to be held Tuesday even-
ing, April 7.

Water Trustees to Meet.

The water works trustees will hold
a regular monthly meeting this even-
ing. The principal subject to be
brought up is the establishing of the
new water works plant. Council was
asked to appropriate \$20,000 to be ad-
ded to the money the trustees already

visit to his home Saturday night and
stopped over until Monday morning.
The officials of Hancock county were
not aware of his visit until after he

REALM OF SPORTS

BUD DOBLE BACK IN THE RACING GAME

The Distinguished Turfman to Be Seen Again in the Sulky This Year.

Lexington, Ky., March 24.—Bud Doble, once the star of all famous trotting horse trainers and drivers, is to be seen actively in the sulky again this year. The noted reinsman of bygone days is coming here this week to help his sensational green horse, Kinney Lou, to Memphis, Tenn., where he will personally give him his early training. The son of McKinney, 2:11 1/4, has been wintering at Walnut Hall stock farm in care of Ed. Benyon and looks the perfect picture of health and condition. Doble not only has designs on the M. and M., Detroit's rich fixture, but he has also set his heart on winning the famous Transylvania of 1933. The noted trainer won the inaugural event of this great race in 1889 with the great gray gelding Jack, 2:12, and the following year captured it with McDoel, 2:15 1/2, defeating in that race the great Allerton, 2:09 1/4, and now, after a decade, he is going to make another bid for this rich trophy before the days the silk colors finally pass away.

Kinney Lou went a trial last fall in 2:09 3/4. In the M. and M. he will meet a lot of green horses, including Jay McGregor, trial 2:09 1/4; Neddie Connors, trial 2:09 1/4; Patchen Maid, trial 2:10; Tregentle, trial 2:10; Lou Dillon, trial 2:08; and Bessie Brown, trial 2:12. In the Transylvania the game may be even harder, but Doble believes Kinney Lou will be capable by the first of October of going three heats in 2:08 or better and carrying that clip even up to four or five heats. Ed. Benyon, who has logged this great prospect all winter, is much pleased with him and it may be that Mr. Harkness may annex him to his great stable before the trotting campaign opens, but from all account Doble does not seem anxious to sell the son of McKinney even at a very fancy figure. The old veteran wants to get back into the trotting game and this horse looks like an entering wedge to future fame and fortune on the turf for his famous owner, so long one of the most talked of characters in the sporting world.

LUTZ AND CARIS WILL WRESTLE AT ALLIANCE

Local Pugilist Will Have a Go With the Stark County Champion.

Larry Lutz, the local pugilist, has been matched with Mont Caris, of Alliance, for a wrestling match on the night of March 28 in that city. Caris is well known in local sporting circles and claims the title of champion of Stark county. At any rate he is considered one of the best in this section and has many friends who are willing to back his claim with the coin. Not long ago he was matched for a go with a Sebring wrestler. While it is not generally known

Pain

In My Heart I Could Not Lie Down.

Was On The Verge Of Insanity.

Choking Sensations I Was Afraid To Sleep.

"For years I was troubled with pain around the heart, fluttering and choking sensations—part of the time could not lie down. In short I was a nervous wreck; such violent jerking of the arms and limbs; nervous prostration—in fact was on the verge of insanity—was afraid to sleep for fear I would never awaken. I saw a testimonial in our paper from a man similarly afflicted, and an account of the help he derived from the use of Dr. Miles' remedies. By the persistent use of the Heart Cure, Nerve and Pain Pills I soon felt like a new man. I am never without these remedies now. In writing the above I feel that 'on the verge of insanity' means. Your remedies were surely a god-send to me. There is scarcely a week but what I recommend them and in nearly every case induce someone to try your remedies, and the results are so satisfactory that they continue to take them. One recent instance I recall. I was in Launce and called to see a friend who was very sick with muscular rheumatism. She was nearly crazed with pain and had given the money to my mother to get her some morphine to quiet the pain. I told her what your Pain Pills had done for me and finally persuaded her to send for them. She had only to take two of the Dr. Miles' Anti-Pain Pills and she was free from pain."—Mrs. Arthur Osborn, Decatur, Mich.

All druggists sell and guarantee first bottle Dr. Miles' Remedies. Send for free book on Nervous and Heart Diseases. Address Dr. Miles Medical Co., Elkhart, Ind.

Lutz has recognized ability as a wrestler and engaged in it as a profession before taking up pugilism. The bout next Thursday with Caris will be his first appearance and will make the Stark champion look to his laurels. Several from this city and a number from Sebring will witness the match.

Was a Popular Player.

James Johnston, a Toronto young man, who died a few days ago from typhoid fever, was well known in this city particularly among the members of the football teams. Johnston was a member of the Toronto high school team and has played here a number of times. He was known among the local players as one of the best players of his age and size in this section and he was well liked and extremely popular. His death was learned with the deepest regret.

Many New Features.

The committee having charge of the dance to be given by the East Liverpool Athletic club on next Thursday night at Rock Springs park, has arranged for several entertaining features, among them a vocal contest, which is to be participated in by three of the leading quartets of the city. A prize will be given to the one scoring the greatest number of points. There will be several other musical numbers which will be rendered between dances.

Basket Ball Match.

An effort is being made to bring the East Liverpool and Manchester basketball teams together at Beaver Falls before the season ends. These teams are about evenly matched in size and weight and both rely upon their team work to win games. The people of Freedom, Conway and vicinity are anxious for this meeting.

SPORTING MISCELLANEY.

Jack O'Brien and Joe Choyinski meet in Philadelphia March 30.

Boxing is flourishing in Michigan, Indiana, West Virginia and Pennsylvania, all bordering states, but is prohibited in Ohio.

The stockholders of the Wheeling base ball club have decided to increase the club's capital stock and will erect a \$5,000 grand stand.

Harry Forbes, the bantamweight champion, and Frankie Neil, the Pacific coast champion, have practically been matched to box before the Metropolitan club of Detroit, April 22.

McPadden and Yanger will meet at Detroit next Friday night. The bout will be 10 rounds. McPadden has promised that if he whips Yanger he will fight him again within 30 days.

McChesney is made favorite in the future book on the Harlem National handicap, worth \$10,000. The quotations show McChesney at 12 to 1. Lucien Appleby is second choice at 20 to 1.

Terry McGovern and "Young" Corbett will this week practically finish training for their championship fight, which is scheduled for March 31. Terry is already under weight and Corbett is not far from the required notch.

College Destroyed by Fire. Canton, Mo., March 24.—Christian college, belonging to the Disciple church, was destroyed by fire. The loss is \$50,000. The college was founded 55 years ago, and had 200 students.

METALLIC VAULTS TO HOLD COFFINS

A Company Proposes to Make Steel Boxes to Prevent Grave Robberies.

Cleveland, March 24.—A new corporation, known as the National Steel Grave Vault company and incorporated for \$200,000 under the laws of Delaware, has located in Cleveland. The purpose of the company is to manufacture a steel box which will enclose a coffin, and when sealed make the robbery of graves or the spread of disease impossible. The cover of the vault is hermetically sealed with an iron and steel cement composition that is placed in the grooved lining of the box, and adheres to the double flange on the cover.

The vault is made of sheet steel and is covered with graphite and enamel. The water and germ proof locking device, which cannot be opened when once locked, insures the remains from molestation by ghouls, as was practiced in Indianapolis recently. By means of the vault, the makers claim, bodies can be sent from place to place with no danger of them being molested, or of the spreading of disease.

The company is composed of Cleveland inventors. The works will be located at the corner of St. Clair street and the C. & P. railroad. J. C. Hennis, L. A. Smart and George H. Bowler are among the stockholders.

TAGS PLACED UPON A THOUSAND BIRDS

Novel Scheme of Scientists to Ascertain the Longevity of Certain Fowls.

Washington, March 24.—The Smithsonian experts have tagged with aluminum bands around the lower part of the leg, 1,000 night herons, the long, white-plumed birds which are hunted for millinery purposes.

The experts have recently discovered near Washington some breeding places of these shy birds, and made a raid, in which, after a fight with the parents of the brood, they captured a thousand young, tagged them and let them loose. The object is to find out the average life of a heron and to discover his habits.

Notices will be sent out over the country from time to time during the next five years, calling the attention of lighthouse keepers and country postmasters to the enterprise, and asking them to report any case of herons bearing the Smithsonian tag being seen, killed, captured or dying.

ATTACKED A WATCHMAN

Men Tried to Rob the Office of a Traction Company in Steubenville.

Steubenville, March 24.—Three men tried to rob John Mulroney, night watchman at the Steubenville-Mingo and Ohio Valley Traction company's office at 2 o'clock yesterday morning. One burst into the office and ordered "Hands up!" A revolver was pointed to Mulroney's head, but still he did not obey the command. Quickly seizing his revolver which he had convenient, he fired at the men in the door. The man who commanded him to hold up his hands answered with one shot, and with his companions fell back.

The men went to the front window, near the door, and fired three shots more at the watchman, who was behind the counter, the bullets breaking the glass, and lodging about in the office. None of them struck Mulroney as he stooped behind the counter, and the shots passed over his head. They were undoubtedly after the Sunday receipts of the Traction company which were in the safe.

There's nothing so bad for a cough as coughing!

There's nothing so good for a cough as Ayer's Cherry Pectoral!

A cough means a great deal to a young person, when there is a family history of weak lungs, with perhaps a case of consumption itself. Coughs weaken the tissues, congest the membranes, and prevent healing. Ayer's Cherry Pectoral controls the congestion and inflammation, and the cough disappears. Your doctor will explain, for we give all doctors the formula.

J. C. Ayer & Co., Lowell, Mass.

"We have used Ayer's Cherry Pectoral in our family for over 30 years. For all lung troubles I am sure there is no medicine so equal."—Mrs. A. FORTNEY, Appleton, Wis.

Cold Grub

You may get plenty of exercise and at the same time your stomach and bowels will get out of fix. You wonder why?—It's easy. You eat a cold meal in the middle of the day, wash it down with hot coffee or cold beer, finishing off with a lot of indigestible pastry and go back to work. If you will take a dose of

Dr. Caldwell's Syrup Pepsin

every night, it will unload your stomach and bowels and you will soon be able to eat anything without suffering.

W. E. Oswalt, of Ottumwa, Ia., writes under date of April 1, 1931: "I will take this means to inform you of the benefits I have received from using your Syrup Pepsin. I have been troubled for three years with my stomach. In fact could hardly keep down anything I could eat, and had spent between \$100 and \$200 with doctors, without getting relief. One day I saw Syrup Pepsin advertised and as I had tried everything else, I gave Syrup Pepsin a trial, and after the first dose I could eat without nauseous feeling. I have recommended Syrup Pepsin to a number of persons who used it with entire satisfaction. I will add that a friend stated he would have been willing six months ago to part with a 400 acre farm for the relief he has obtained."

BUD DOBLE BACK IN THE RACING GAME

The Distinguished Turfman to Be Seen Again in the Sulky This Year.

Lexington, Ky., March 24.—Bud Doble, once the star of all famous trotting horse trainers and drivers, is to be seen actively in the sulky again this year. The noted reinsman of bygone days is coming here this week to help his sensational green horse, Kinney Lou, to Memphis, Tenn., where he will personally give him his early training. The son of McKinney, 2:11½, has been wintering at Walnut Hall stock farm in care of Ed. Benyon and looks the perfect picture of health and condition. Doble not only has designs on the M. and M. Detroit's rich prize, but he has also set his heart on winning the famous Transylvania of 1903. The noted trainer won the inaugural event of this great race in 1889 with the great gray gelding Jack, 2:12, and the following year captured it with McDoel, 2:15½, defeating in that race the great Allerton, 2:09½, and now, after a decade, he is going to make another bid for this rich trophy before the days the silk colors finally pass away.

Kinney Lou went a trial last fall in 2:09½. In the M. and M. he will meet a lot of green horses, including Jay McGregor, trial 2:09½; Noddie Connors, trial 2:09½; Patchen Maid, trial 2:10; Tregentle, trial 2:10; Lou Dillon, trial 2:08; and Bessie Brown, trial 2:12. In the Transylvania the game may be even harder, but Doble believes Kinney Lou will be capable by the first of October of going three heats in 2:08 or better and carrying that clip even up to four or five heats. Ed. Benyon, who has jogged this great prospect all winter, is much pleased with him and it may be that Mr. Harkness may annex him to his great stable before the trotting campaign opens, but from all account Doble does not seem anxious to sell the son of McKinney even at a very fancy figure. The old veteran wants to get back into the trotting game and this horse looks like an entering wedge to future fame and fortune on the turf for his famous owner, so long one of the most talked of characters in the sporting world.

LUTZ AND CARIS WILL WRESTLE AT ALLIANCE

Local Pugilist Will Have a Go With the Stark County Champion.

Larry Lutz, the local pugilist, has been matched with Mont Caris, of Alliance, for a wrestling match on the night of March 28 in that city. Caris is well known in local sporting circles and claims the title of champion of Stark county. At any rate he is considered one of the best in this section and has many friends who are willing to back his claim with the coin. Not long ago he was matched for a go with a Sebring wrestler.

Pain

In My Heart I Could Not Lie Down.

Was On The Verge Of Insanity.

Choking Sensations I Was Afraid To Sleep.

"For years I was troubled with pain around the heart, fluttering and choking sensations—part of the time could not lie down. In short I was a nervous wreck; such violent jerking of the arms and limbs; nervous prostration—in fact was on the verge of insanity—was afraid to sleep for fear I would never awaken. I saw a testimonial in our paper from a man similarly afflicted, and an account of the help he derived from the use of Dr. Miles' remedies. By the persistent use of the Heart Cure, Nerve and Pain Pills I soon felt like a new woman. I am never without these remedies now. In writing the above I feel that the half has not been told. No one who has not been through it knows or can know what 'on the verge of insanity' means. Your remedies were surely a god-send to me. There is scarcely a week but what I recommend them and in nearly every case induce me to try your remedies and the results are so satisfactory that they continue to take them. One recent instance I recall. I was in Laurence and called to see a friend who was very sick with muscular rheumatism and had nearly craved with pain and had given the money to my mother to get her some morphine to quiet the pain. I told her what your Pain Pills had done for me and finally persuaded her to send for them. She had only to take two of the Dr. Miles' Anti-Pain Pills and she was free from pain."—Mrs. Arthur Osborn, Decatur, Mich.

Lutz has recognized ability as a wrestler and engaged in it as a profession before taking up pugilism. The bout next Thursday with Caris will be his first appearance and will make the Starke champion look to his laurels. Several from this city and a number from Sebring will witness the match.

Was a Popular Player.

James Johnston, a Toronto young man, who died a few days ago from typhoid fever, was well known in this city particularly among the members of the football teams. Johnston was a member of the Toronto high school team and has played here a number of times. He was known among the local players as one of the best players of his age and size in this section and he was well liked and extremely popular. His death was learned with the deepest regret.

Many New Features.

The committee having charge of the dance to be given by the East Liverpool Athletic club on next Thursday night at Rock Springs park, has arranged for several entertaining features, among them a vocal concert, which is to be participated in by three of the leading quartets of the city. A prize will be given to the one scoring the greatest number of points. There will be several other musical numbers which will be rendered between dances.

Basket Ball Match.

An effort is being made to bring the East Liverpool and Manchester basketball teams together at Beaver Falls before the season ends. These teams are about evenly matched in size and weight and both rely upon their team work to win games. The people of Freedom, Conway and vicinity are anxious for this meeting.

SPORTING MISCELLANEY.

Jack O'Brien and Joe Chynski meet in Philadelphia March 30.

Boxing is flourishing in Michigan, Indiana, West Virginia and Pennsylvania, all bordering states, but is prohibited in Ohio.

The stockholders of the Wheeling base ball club have decided to increase the club's capital stock and will erect a \$5,000 grand stand.

Harry Forbes, the bantamweight champion, and Frankie Neil, the Pacific coast champion, have practically been matched to box before the Metropolitan club of Detroit, April 22.

McPadden and Yanger will meet at Detroit next Friday night. The bout will be 10 rounds. McPadden has promised that if he whips Yanger he will fight him again within 30 days.

McChesney is made favorite in the future book on the Harlem National handicap, worth \$10,000. The quotations show McChesney at 12 to 1, Lucien Appleby is second choice at 20 to 1.

Terry McGovern and "Young" Corbett will this week practically finish training for their championship fight, which is scheduled for March 31. Terry is already under weight and Corbett is not far from the required notch.

College Destroyed by Fire. Canton, Mo., March 24.—Christian college, belonging to the Disciple church, was destroyed by fire. The loss is \$50,000. The college was founded 55 years ago, and had 300 students.

METALLIC VAULTS TO HOLD COFFINS

A Company Proposes to Make Steel Boxes to Prevent Grave Robberies.

Cleveland, March 24.—A new corporation, known as the National Steel Grave Vault company, and incorporated for \$200,000 under the laws of Delaware, has located in Cleveland. The purpose of the company is to manufacture a steel box which will enclose a coffin, and when sealed make the robbery of graves or the spread of disease impossible. The cover of the vault is hermetically sealed with an iron and steel cement composition that is placed in the grooved lining of the box, and adheres to the double flange on the cover.

The vault is made of sheet steel and is covered with graphite and enamel. The water and germ proof locking device, which cannot be opened when once locked, insures the remains from molestation by ghouls, as was practiced in Indianapolis recently. By means of the vault, the makers claim, bodies can be sent from place to place with no danger of them being molested, or of the spreading of disease.

The company is composed of Cleveland inventors. The works will be located at the corner of St. Clair street and the C. & P. railroad. J. C. Hennis, L. A. Smart and George H. Bowler are among the stockholders.

TAGS PLACED UPON A THOUSAND BIRDS

Novel Scheme of Scientists to Ascertain the Longevity of Certain Fowls.

Washington, March 24.—The Smithsonian experts have tagged with aluminum bands around the lower part of the leg, 1,000 night herons, the long, white-plumed birds which are hunted for millinery purposes.

The experts have recently discovered near Washington some breeding places of these shy birds, and made a raid, in which, after a fight with the parents of the brood, they captured a thousand young, tagged them and let them loose. The object is to find out the average life of a heron and to discover his habits.

Notices will be sent out over the country from time to time during the next five years, calling the attention of lighthouse keepers and country postmasters to the enterprise, and asking them to report any case of herons bearing the Smithsonian tag being seen, killed, captured or dying.

ATTACKED A WATCHMAN

Men Tried to Rob the Office of a Traction Company in Steubenville.

Steubenville, March 24.—Three men tried to rob John Mulroney, night watchman at the Steubenville-Mingo and Ohio Valley Traction company's office at 2 o'clock yesterday morning. One burst into the office and ordered "Hands up!" A revolver was pointed to Mulroney's head, but still he did not obey the command. Quickly seizing his revolver which he had conveniently, he fired at the men in the door. The man who commanded him to hold up his hands answered with one shot, and with his companions fell back.

The men went to the front window, near the door, and fired three shots more at the watchman, who was behind the counter, the bullets breaking the glass, and lodging about in the office. None of them struck Mulroney as he stooped behind the counter, and the shots passed over his head. They were undoubtedly after the Sunday receipts of the Traction company which were in the safe.

There's nothing so bad for a cough as Ayer's Cherry Pectoral!

A cough means a great deal to a young person, when there is a family history of weak lungs, with perhaps a case of consumption itself. Coughs weaken the tissues, congest the membranes, and prevent healing. Ayer's Cherry Pectoral controls the congestion and inflammation, and the cough disappears. Your doctor will explain, for we give all doctors the formula.

"We have used Ayer's Cherry Pectoral in our family for over 25 years. For all lung troubles I am sure there is no medicine its equal."—Mrs. A. FOSBROOK, Appleton, Wis.

Cold Grub

You may get plenty of exercise and at the same time your stomach and bowels will get out of fix. You wonder why —It's easy. You eat a cold meal in the middle of the day, wash it down with hot coffee or cold beer, finishing off with a lot of indigestible pastry and go back to work. If you will take a dose of

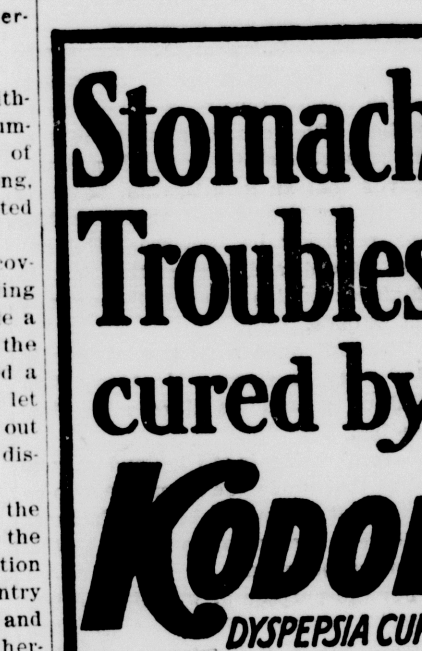

Dr. Caldwell's Syrup Pepsin

every night, it will unload your stomach and bowels and you will soon be able to eat anything without suffering.

W. E. Oswalt, of Ottumwa, Ia., writes under date of April 1, 1901: "I will take this means to inform you of the benefits I have received from using your Syrup Pepsin. I have been troubled for three years with my stomach. In fact could hardly keep down anything I could eat, and had spent between \$100 and \$800 with doctors, without getting relief. One day I saw Syrup Pepsin advertised and as I had tried everything else, I gave Syrup Pepsin a trial, and after the first dose, I could eat without nauseous feeling. I have recommended Syrup Pepsin to a number of persons who used it with entire satisfaction. I will add that a friend stated he would have been willing six months ago to part with a \$400 acre farm for the relief he has obtained."

METALLIC VAULTS TO HOLD COFFINS

A Company Proposes to Make Steel Boxes to Prevent Grave Robberies.

Cleveland, March 24.—A new corporation, known as the National Steel Grave Vault company, and incorporated for \$200,000 under the laws of Delaware, has located in Cleveland. The purpose of the company is to manufacture a steel box which will enclose a coffin, and when sealed make the robbery of graves or the spread of disease impossible. The cover of the vault is hermetically sealed with an iron and steel cement composition that is placed in the grooved lining of the box, and adheres to the double flange on the cover.

The vault is made of sheet steel and is covered with graphite and enamel. The water and germ proof locking device, which cannot be opened when once locked, insures the remains from molestation by ghouls, as was practiced in Indianapolis recently. By means of the vault, the makers claim, bodies can be sent from place to place with no danger of them being molested, or of the spreading of disease.

The company is composed of Cleveland inventors. The works will be located at the corner of St. Clair street and the C. & P. railroad. J. C. Hennis, L. A. Smart and George H. Bowler are among the stockholders.

TAGS PLACED UPON A THOUSAND BIRDS

Novel Scheme of Scientists to Ascertain the Longevity of Certain Fowls.

Washington, March 24.—The Smithsonian experts have tagged with aluminum bands around the lower part of the leg, 1,000 night herons, the long, white-plumed birds which are hunted for millinery purposes.

The experts have recently discovered near Washington some breeding places of these shy birds, and made a raid, in which, after a fight with the parents of the brood, they captured a thousand young, tagged them and let them loose. The object is to find out the average life of a heron and to discover his habits.

Notices will be sent out over the country from time to time during the next five years, calling the attention of lighthouse keepers and country postmasters to the enterprise, and asking them to report any case of herons bearing the Smithsonian tag being seen, killed, captured or dying.

ATTACKED A WATCHMAN

Men Tried to Rob the Office of a Traction Company in Steubenville.

Steubenville, March 24.—Three men tried to rob John Mulroney, night watchman at the Steubenville-Mingo and Ohio Valley Traction company's office at 2 o'clock yesterday morning. One burst into the office and ordered "Hands up!" A revolver was pointed to Mulroney's head, but still he did not obey the command. Quickly seizing his revolver which he had convenient, he fired at the men in the door. The man who commanded him to hold up his hands answered with one shot, and with his companions fell back.

The men went to the front window, near the door, and fired three shots more at the watchman, who was behind the counter, the bullets breaking the glass, and lodging about in the office. None of them struck Mulroney as he stooped behind the counter, and the shots passed over his head. They were undoubtedly after the Sunday receipts of the Traction company which were in the safe.

Cold Grub

You may get plenty of exercise and at the same time your stomach and bowels will get out of fix. You wonder why—It's easy. You eat a cold meal in the middle of the day, wash it down with hot coffee or cold beer, finishing off with a lot of indigestible pastry and go back to work. If you will take a dose of

Dr. Caldwell's Syrup Pepsin

every night, it will unload your stomach and bowels and you will soon be able to eat anything without suffering.

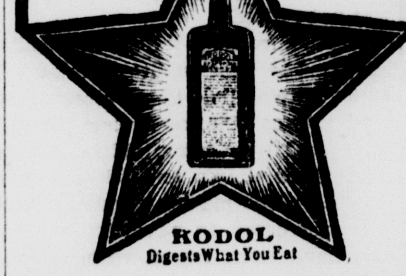

W. E. Oswalt, of Ottumwa, Ia., writes under date of April 1, 1901: "I will take this means to inform you of the benefit I have received from using your Syrup Pepsin. I have been troubled for three years with my stomach. In fact could hardly keep down anything I could eat, and had spent between \$100 and \$200 with doctors, without getting relief. One day I saw Syrup Pepsin advertised and as I had tried everything else, I gave Syrup Pepsin a trial, and after the first dose, I could eat without nauseous feeling. I have recommended Syrup Pepsin to a number of persons who used it with entire satisfaction. I will add that a friend said he would have been willing six months ago to part with a 400 acre farm for the relief he has obtained."

PACKAGE OF LETTERS

Confronts Mrs. Burdick at Inquest Into the Death of Her Husband.

ADMITTED LOVE FOR PENNELL.

First Met Him at a Card Party in Company With Her Husband—Letters Read in Court—Trying Ordeal for Witness.

Buffalo, March 24.—Mrs. Alice Hull Burdick, widow of Edwin L. Burdick, underwent a merciless examination by District Attorney Coatsworth at the resumption of the inquest into the death of her husband, who was murdered on Feb. 26.

With a package of letters in his hands, some of which were written to Mrs. Burdick by Arthur R. Pennell, co-respondent in the divorce proceedings instituted by Mr. Burdick, and other communications between Mr. Burdick and his wife, Mr. Coatsworth forced Mrs. Burdick to tell the story of her relations with Pennell from the time he first made love to her in New Haven in 1898 until 1901, when these relations were renewed after Burdick had forgiven his wife and had taken her back to his home for the sake of their children.

Mrs. Burdick was deathly pale while on the witness stand. She answered questions in a low, faltering tone, evading a direct answer when ever possible and reluctantly admitting facts when the district attorney pitilessly read extracts of the love letters written to her by Arthur R. Pennell.

Not since the inquest into the murder began has there been such intense interest in the proceedings. When the inquest was resumed at 2 o'clock most of the spectators in the crowded courtroom were women. There was a hum of excitement when Mrs. Burdick took the witness stand. Mrs. Burdick testified that she would be 42 years of age on April 30. She was married to Burdick in 1886. They had three children. She met Pennell at a card party five or six years ago at which Mr. Burdick was present. She went to New Haven and New York with the Pennells in 1898. Mr. Burdick did not go, being detained by business. No unusual friendship sprang up between her and Pennell. Witness did not recall a letter from Pennell written in New Haven in 1900, in which he said, "Yesterday I was at the gateway on the campus grounds where more than two years ago I drew you in in the darkness. This place is enshrined to me."

The district attorney produced the letter and handed it to the witness who trembled violently.

"Do you recognize it as Pennell's handwriting?"

"Yes," whispered Mrs. Burdick. "And you recall the incident now?"

"Yes, sir."

Thought She Remonstrated.

Mrs. Burdick in recalling the incident confessed that Pennell went into a doorway, drew her in, took her in his arms and kissed her. She thought she remonstrated.

She did not remember that Pennell was at Shelter Island in September 1900, nor a letter from him in which he wrote that he had found her gloves in the pocket of his tuxedo. The letter was handed her. She read it hastily and did not appear to enjoy its contents. It was written by Pennell, she said, but she did not remember having seen it.

Mrs. Burdick was then questioned at some length relative to the meaning of "1, 2, 3," referred to in a letter from Pennell, in which he said: "I will meet you at 1, 2, 3, Wednesday morning," but Mrs. Burdick answered that she did not know. There were two or three houses, she said at which she used to meet him.

Mr. Coatsworth produced another letter, postmarked New Haven, Sept. 19, 1900. Mrs. Burdick said she recalled receiving it. Pennell wrote: "I shall try and comfort myself by telephoning from New York and on Thursday shall know the exquisite happiness of seeing you." He referred to her "dear picture in the lock" and declared her "my love my life, my dearest one." Mr. Coatsworth produced another letter written from New York, Sept. 18, 1900, addressed to Mrs. Burdick. In this letter he wrote "I just came from telephoning you and hearing your dear

sweet voice. Am I foolish to telephone you from way down here? It was worth all it cost me. I realize more and more that you are the only woman in the world for me."

"Do you remember getting that letter?" asked the district attorney.

"No, sir."

"In this same letter he says: 'Only a day more and I shall once more see the lovelight in your eyes and experience paradise within your arms,' what does he mean by that, Mrs. Burdick?"

"I don't know."

"Pretty strong language, isn't it?"

Mr. Coatsworth showed the witness another letter written from New York by Pennell and addressed to Mrs. Burdick. She said it was his handwriting, but she did not remember having received it.

Witness Has Poor Memory.

"I will read it and see if it will refresh your recollection. 'As I looked into your beautiful eyes last night I feared there was some trouble hidden there. I did not know, but I feared it was because of some other reason than because I was going away. If there was, dearest, I wish you would tell me. There is that in the manner of your husband toward you that makes me fear some times that I might kill him.' Do you remember receiving that letter?"

"No, sir."

Mrs. Burdick said she did not know whether her husband was aware of the fact that she was receiving letters from Pennell. Her habit had been to keep her letters locked in a box. Her husband first knew of her intimacy with Pennell, she thought, on Jan. 1, 1901, when she told him in reply to a question that she had been walking with Pennell. He told her she was very imprudent. She agreed with him then and did now.

"Did you give these letters to Bur-

dick?"

"I don't know."

"Did you take some letters from that box and give them to him?"

"I unlocked it."

"How did you happen to unlock it?"

"He forced me to."

"How did he force you?"

"He took me by the throat."

She did not remember whether at that time Pennell was the subject of a discussion with her husband. She did not know whether some of the letters read were in the box at that time. It was in January, 1901, when she choked her. She could not remember when she rented a box in a safe deposit company's vaults. It was not about the time her husband had choked her, but recently, when she received papers from detectives about Burdick.

Her husband had not started the divorce proceedings. It was she that wanted a divorce from him. She had no love for him, but did love Pennell whom she expected to marry. He had a wife, but he expected they would be divorced. In reply to a question as to whether Mrs. Pennell had consented to a divorce she said: "Sometimes she did and sometimes she did not."

Witness admitted, however, that she had never talked with Mrs. Pennell on the subject. Pennell had hired the detectives who shadowed her husband. Her husband sent her away in May, 1901, on account of Pennell.

Mr. Coatsworth showed her a letter written by her from Atlantic City, May 27, 1901, in which she begged to be taken back, promising never to see "Arthur" and that she would be a loving and true wife. In the letter she said she could not promise that.

Mr. Coatsworth showed her a letter written by her from Atlantic City, May 27, 1901, in which she begged to be taken back, promising never to see "Arthur" and that she would be a loving and true wife. In the letter she said she could not promise that.

Witness admitted, however, that she had never talked with Mrs. Pennell on the subject. Pennell had hired the detectives who shadowed her husband. Her husband sent her away in May, 1901, on account of Pennell.

Confronts Mrs. Burdick at Inquest Into the Death of Her Husband.

ADMITTED LOVE FOR PENNELL.

First Met Him at a Card Party in Company With Her Husband—Letters Read in Court—Trying Ordeal for Witness.

Buffalo, March 24.—Mrs. Alice Hull Burdick, widow of Edwin L. Burdick, underwent a merciless examination by District Attorney Coatsworth at the resumption of the inquest into the death of her husband, who was murdered on Feb. 26.

With a package of letters in his hands, some of which were written to Mrs. Burdick by Arthur R. Pennell, co-respondent in the divorce proceedings instituted by Mr. Burdick, and other communications between Mr. Burdick and his wife, Mr. Coatsworth forced Mrs. Burdick to tell the story of her relations with Pennell from the time he first made love to her in New Haven in 1898 until 1901, when these relations were renewed after Burdick had forgiven his wife and had taken her back to his home for the sake of their children.

Mrs. Burdick was deathly pale while on the witness stand. She answered questions in a low, faltering tone, evading a direct answer when ever possible and reluctantly admitting facts when the district attorney pitilessly read extracts of the love letters written to her by Arthur R. Pennell.

AT BED TIME I TAKE A PLEASANT HERB DRINK

THE NEXT MORNING I FEEL BRIGHT AND NEW AND MY COMPLEXION IS BETTER.

Not since the inquest into the murder began has there been such intense interest in the proceedings. When the inquest was resumed at 2 o'clock most of the spectators in the crowded courtroom were women.

There was a hum of excitement when Mrs. Burdick took the witness stand. Mrs. Burdick testified that she would be 42 years of age on April 30. She was married to Burdick in 1886. They had three children. She met Pennell at a card party five or six years ago at which Mr. Burdick was present. She went to New Haven and New York with the Pennells in 1898. Mr. Burdick did not go, being detained by business. No unusual friendship sprang up between her and Pennell. Witness did not recall a letter from Pennell written in New Haven in 1900, in which he said, "Yesterday I was at the gateway on the campus grounds where more than two years ago I drew you in in the darkness. This place is enshrined to me."

The district attorney produced the letter and handed it to the witness who trembled violently.

"Do you recognize it as Pennell's handwriting?"

"Yes," whispered Mrs. Burdick.

"And you recall the incident now?"

"Yes, sir."

Thought She Remonstrated.

Mrs. Burdick in recalling the incident confessed that Pennell went into a doorway, drew her in, took her in his arms and kissed her. She thought she remonstrated.

She did not remember that Pennell was at Shelter Island in September 1900, nor a letter from him in which he wrote that he had found her gloves in the pocket of his tuxedo. The letter was handed her. She read it hastily and did not appear to enjoy its contents. It was written by Pennell, she said, but she did not remember having seen it.

Mrs. Burdick was then questioned at some length relative to the meaning of "1, 2, 3," referred to in a letter from Pennell, in which he said: "I will meet you at 1, 2, 3, Wednesday morning," but Mrs. Burdick answered that she did not know. There were two or three houses, she said at which she used to meet him.

Mr. Coatsworth produced another letter, postmarked New Haven, Sept. 19, 1900. Mrs. Burdick said she recalled receiving it. Pennell wrote: "I shall try and comfort myself by telephoning from New York and on Thursday shall know the exquisite happiness of seeing you." He referred to her "dear picture in the locket" and declared her "my love my life, my dearest one." Mr. Coatsworth produced another letter written from New York, Sept. 18, 1900, addressed to Mrs. Burdick. In this letter he wrote: "I just came from telephoning you and hearing your dear

sweet voice. Am I foolish to telephone you from way down here? It was worth all it cost me. I realize more and more that you are the only woman in the world for me."

"Do you remember getting that letter?" asked the district attorney.

"No, sir."

"In this same letter he says: 'Only a day more and I shall once more see the lovelight in your eyes and experience paradise within your arms,' what does he mean by that, Mrs. Burdick?"

"I don't know."

"Pretty strong language, isn't it?" Mr. Coatsworth showed the witness another letter written from New York by Pennell and addressed to Mrs. Burdick. She said it was his handwriting, but she did not remember having received it.

Witness Has Poor Memory.

"I will read it and see if it will refresh your recollection. 'As I looked into your beautiful eyes last night I feared there was some trouble hidden there. I did not know, but I feared it was because of some other reason than because I was going away. If there was, dearest, I wish you would tell me. There is that in the manner of your husband toward you that makes me fear some times that I might kill him.' Do you remember receiving that letter?"

"No, sir."

Mrs. Burdick said she did not know whether her husband was aware of the fact that she was receiving letters from Pennell. Her habit had been to keep her letters locked in a box. Her husband first knew of her intimacy with Pennell, she thought, on Jan. 1, 1901, when she told him in reply to a question that she had been walking with Pennell. He told her she was very imprudent. She agreed with him then and did not.

"Did you give these letters to Bur-

dick?"

"I don't know."

"Did you take some letters from that box and give them to him?"

"I unlocked it."

"How did you happen to unlock it?"

"He forced me to."

"How did he force you?"

"He took me by the throat."

She did not remember whether at that time Pennell was the subject of a discussion with her husband. She did not know whether some of the letters read were in the box at that time. It was in January, 1901, when he choked her. She could not remember when she rented a box in a safe deposit company's vaults. It was not about the time her husband had choked her, but recently, when she received papers from detectives about Burdick.

Her husband had not started the divorce proceedings. It was she that wanted a divorce from him. She had no love for him, but did love Pennell, whom she expected to marry. He had a wife, but he expected they would be divorced. In reply to a question as to whether Mrs. Pennell had consented to a divorce she said: "Sometimes she did and sometimes she did not."

Witness admitted, however, that she had never talked with Mrs. Pennell on the subject. Pennell had hired the detectives who shadowed her husband. Her husband sent her away in May, 1901, on account of Pennell.

Mr. Coatsworth showed her a letter written by her from Atlantic City, May 27, 1901, in which she begged to be taken back, promising never to see "Arthur" and that she would be a loving and true wife. In the letter she said she could not promise that

he would leave town, but declared he would do what she said. She admitted writing the letter and said at that time she had hired no detectives.

Met Pennell Frequently.

After returning from Atlantic City and after promising her husband to be a good wife she met Pennell. It was not her habit to meet him, she said, but he was constantly begging her to do so, and she did meet him in a house on Seventh street. She was there one time when Burdick came, but he did not see her, as she stepped out of a window and went to church. She did not hear that Mr. Burdick and his friends on that occasion caught Pennell as he was jumping out of the window and that they took him back to the room.

Mrs. Burdick admitted having met Pennell in another house on Seventh street after that incident. She at first denied meeting Pennell elsewhere, but on Mr. Coatsworth's telling her that Pennell had told him differently she admitted that she had met Pennell at a house on Whitney Place two or three times.

George C. Miller, attorney for Edwin L. Burdick in the divorce proceedings against Mrs. Burdick, was the first witness of the day.

He told in detail the steps that had been taken at the request of Mr. Burdick to secure a divorce. He last saw Mr. Burdick on the afternoon of the day he was murdered. Mr. Burdick spent half an hour with him discussing the divorce matter. He did not state that he had an appointment with anyone at his home that night.

The testimony given by Henry J. Orrett, the furnaceman at the Pennell house, was unimportant.

Lizzie Romance, maid at the Pennell house at the time of the murder, gave testimony favorable to Pennell. She said Mr. Pennell was with his wife in their room reading at 7:45 on the night of the murder. She saw them again at 10 o'clock when she passed their door. She did not see them again until the next morning. Miss Romance did not notice anything unusual in Pennell's manner on the evening he and Mrs. Pennell started for the automobile ride which ended in their deaths.

Gas for fuel and light in every room; electric wiring throughout; large front porch; rear stoop; all woodwork inside grained in golden oak; cupboard in kitchen; china closet in dining room; sliding doors between dining room and parlor, also between front hall and parlor. Built to suit people; never yet occupied. Situated on Sophia street about five minutes walk from the Diamond. Terms, \$400 down, balance \$17.75 per month.

\$2500 Will buy a dwelling just the same as above except that it has a larger lot and is situated on Minerva street within five minutes walk of the Diamond. No hill to climb or street car fare to pay to reach either of these houses. This one we sell for \$500 down, balance \$20 per month.

\$3100 Is our price for a seven room modern house with a good sized lot which we will complete for you within ninety days on your order. This house contains a nice large hall, large parlor and convenient dining room and a well arranged kitchen downstairs; the second floor contains four nice bed rooms with plenty of light and ventilation and good sized bath room, which we fit up completely with w. c., bath tub, wash stand and hot and cold water. The house is grained throughout in golden oak; has electric wiring and gas in every room, presses and closets, china closet and cupboard. Cellar under whole house; large front porch with Tuscan column posts; finished attic; roofed with slate and painted with three coats of lead and oil in color ordered. A very complete, modern house which suits everybody; all work guaranteed; the site is on Minerva street, 1/2 square east of Walnut, only a few minutes walk from the Diamond. We will make minor changes without extra cost. Why not let us show you the plans and locations. Terms \$700 down and balance \$24 per month.

\$1450 Will buy a four room slate roof house on Pennsylvania avenue, East End, with a lot over six minutes. It is fitted with water and gas; the sidewalk is paved and curbed. This property is well worth the money. Terms \$450 down, balance \$10 per month.

\$1750 Will buy a nicely located four room house, with city water and natural gas connections, situated on Ohio avenue, East End, on the street car line and having a fine river view and front. This property is located above the power house about five hundred yards, in the south part of that level bench that lies on the opposite side of the river. The appreciation of the beauty and pleasantness of this location is attested by the very fine residences built and now being built there. Terms \$500 down, \$250 by June 1st, balance \$10 per month.

Fifty Dollars, One Hundred Dollars or Two Hundred Dollars down has started many people toward owning their homes and making good their escape from buying rent receipts; their \$10, \$15 and \$18 per month now buy the home instead. Practical advice and guidance in selecting the property is necessary to full and complete satisfaction. We spend our time devising ways for you to buy a home and getting together a list for you to choose from at prices lower than you can get for yourself. We want you to consult with us and learn how near we have accomplished our purpose. We have upwards of 300 properties for you to select from. We are open every day and evening.

Brief Notes of a Personal Nature and of Matters About Town.

A Great Improvement—Stein & Shown have installed in their store the new system of basket package carriers, the only one of the kind in the city. It greatly facilitates business.

Free Lectures—Miss Frances Ensign delivered a lecture this afternoon at 2:30 at the First M. E. church and tonight will deliver a second lecture. The lecture tonight is intended particularly for young men, but every one will be made welcome.

Seized With a Fit—Ross Hecker, aged 20 years, was seized with an epileptic fit yesterday morning at the corner of East Sixth and Walnut streets and was taken to the home of a relative on Oak street by the patrol. The young man only arrived in the city Monday night.

Badly Hurt on a Boat—Samuel Hannigan, a watchman on the towboat Pacific No. 2, was painfully injured a few days ago at Parkersburg by falling from the gunwale to the bottom of a barge. His injuries were of such a serious nature that he was sent to the marine hospital at Wheeling for treatment. Mr. Hannigan makes this city his home when not on the river.

Called Away on Business—Rev. J. G. Reinartz, pastor of St. John's Evangelical Lutheran church, was called away this morning on synodical business, and in consequence there will be no meeting of instruction at the church this evening. However, the regular Lenten services will be held tomorrow evening, and on Sunday special services of great interest will be held.

No Quorum—There was no meeting of the board of education last night on account of a lack of a quorum. A representative of Bartlett Bros., of Cleveland, was present to interest the board, if possible, in a system of gauging the temperature of the different rooms of a school building, but because of the lack of a quorum was unable to present his plan to the board.

The Sale Progresses Finely—The rummage sale being conducted by the ladies of the W. R. C. in the third building on Sixth street is meeting with great success. The sale was opened Saturday evening and a great amount of wearing apparel has been donated. The patronage so far has been very liberal and a large amount of money will doubtless be raised, the proceeds going toward the hospital fund.

BOWLING MATCH TONIGHT

The Wellsburg Elephants Will Contest With the Imperials Here Tonight.

The Wellsburg Elephants, one of the best bowling teams in West Virginia, will contest with the Imperials here tonight on the alleys of the latter team. One of the best contests of the season is expected.

The Imperials have won the majority of the games played during the season with out of town teams and have been practicing hard for a victory tonight.

AN OPEN LETTER

To the Republicans of Columbiana County.

The Republican central committee, in behalf of the Republicans of Unity township, present to you our candidate for prosecuting attorney, Mr. C. P. Rothwell, of East Palestine, and earnestly solicit your support at the coming primaries.

Our candidate is a self-made man; has had a long and successful experience at the bar, and for years has been recognized as one of the leading trial lawyers of the county. A man of excellent business ability and for more than twenty years has been one of the most active workers and best supporters of his party in the county.

Our township (Unity) with near a thousand Republicans, has not been honored with an office at the county seat for 30 years. Liverpool township should not, in our judgment, get all the four places on the ticket, at the coming primaries. That township has the present prosecutor, and for that reason especially, should not again get that place.

Let the offices be distributed fairly. When we present to you such a candidate as Mr. Rothwell, with more than twenty years' experience as a lawyer, from a good Republican township that has not had an office at the county seat for thirty years, have we not a right to ask and receive the support of all fair-minded, loyal Republicans of the county?

Respectfully submitted,

A PRONOUNCED SUCCESS

The Hospital Benefit Rummage Sale Surpasses the Most Sanguine Expectations.

The Woman's Relief Corps, which has opened a rummage sale for the hospital fund benefit, is much gratified at the success met with. Every conceivable article was placed on the counters yesterday and the patrons thronged in and out, with the desired articles. A large number of contributions were made and it is hoped that many others will bring or send contributions. If the rummage continues to be as well patronized as it was yesterday, the ladies will continue the sale for 5 or 6 more days. The rooms will be closed about 9 o'clock each evening.

Johnes-Saltsman.

Salineville, March 24.—(Special.)—The wedding of Noble Saltsman and Miss Burdell Johnes occurred last evening at the home of Mr. and Mrs. W. W. Johnson. Only a few intimate friends of the contracting parties were present. Rev. J. E. Grimm performed the ceremony. The groom is well known here, having spent all his life in this vicinity, where he has been employed in the mines about Salineville, and enjoys a wide circle of friends. The bride is the accomplished daughter of Mr. and Mrs. Frank Johnes, of School House hill. The wedding was a surprise to many, as the young couple had not advised their friends of their intentions. They will make Salineville their home.

Missionary Society Election.

The Young Women's Missionary society of the First Presbyterian church held their annual election of officers yesterday evening at the church parlors. The society has a large membership and has done some excellent work for the cause of missions. The election resulted as follows: President, Mrs. Roiney; first vice president, Miss Edna Simms; second vice president, Mrs. Hill; recording secretary, Mrs. W. K. Gaston; corresponding secretary, Mrs. Wilson; treasurer, Mrs. Frank; assistant, Miss Mary Maernum; secretary of literature, Miss White.

Sirius Club Dance.

Invitations will be issued within a few days by the Sirius club for a dance at Rock Springs park on the night of Tuesday, April 21. The Encore orchestra, of Steubenville, has been engaged to make the music and arrangements have been made for a special car service. The Sirius club has been the host of several of the pleasantest functions of the season and this one promises to add to their laurels. The club committee is composed of Messrs. William Hardie, Russell Brannon, Harry Hancock, Harry Fouts and Valrie Waggle.

The Play Oliver Cromwell.

Mrs. Reniger is expected to reach this city today and will immediately begin the work of training the cast for the drama "Oliver Cromwell." It will be remembered that Mrs. Reniger trained the cast for the play "Scottish Reformation," which was given under the auspices of the ladies' auxiliary of the Y. M. C. A. The receipts from the opera will be used for the benefit of the association. The date for the presentation of the play has been fixed for April 23 and 24.

To Entertain Willing Workers.

Mrs. August Freymark, of Fourth street, will entertain the Willing Workers of St. John's Evangelical Lutheran church on Thursday afternoon. These meetings are always enjoyable to the members of this society, and on Thursday afternoon the ladies will probably sew.

The River Rising.

A substantial rise in the river has been noted today, the rate being six inches an hour. The stage at noon was 15 feet. The Queen City passed up at 1 o'clock this afternoon from Cincinnati, with a good trip. The Kanawha is due down at 8 o'clock tonight for Charleston. A good coal boat stage has been reached, and the Tom Ross, with 17 pieces, and Fred Wilson, with 12 pieces, have left Pittsburgh.

THE BOSTON STORE.

UNION MADE SHOES

Do the shoes you wear bear the stamp. Union men are not careful enough about this matter. While we sell lots of Union Stamped Shoes we have comparatively few calls for them. There is no man who will object to having the stamp on his shoes, because he is insured by it that his fellow workman has a comfortable place to work in and is paid living wages for his work. Douglas the most successful shoe man of this age, uses the stamp, and without a doubt makes the best \$3 and \$3.50 shoes in our land. We are proud of this line of goods.

The Play Oliver Cromwell.

Mrs. Reniger is expected to reach this city today and will immediately begin the work of training the cast for the drama, "Oliver Cromwell." It will be remembered that Mrs. Reniger trained the cast for the play "Scottish Reformation," which was given under the auspices of the ladies' auxiliary of the Y. M. C. A. The receipts from the opera will be used for the benefit of the association. The date for the presentation of the play has been fixed for April 23 and 24.

To Entertain Willing Workers.

Mrs. August Freymark, of Fourth street, will entertain the Willing Workers of St. John's Evangelical Lutheran church on Thursday afternoon. These meetings are always enjoyable to the members of this society, and on Thursday afternoon the ladies will probably sew.

The River Rising.

A substantial rise in the river has been noted today, the rate being six inches an hour. The stage at noon was 15 feet. The Queen City passed up at 1 o'clock this afternoon from Cincinnati, with a good trip. The Kanawha is due down at 8 o'clock tonight for Charleston. A good coal boat stage has been reached, and the Tom Roe, with 17 pieces, and Fred Wilson, with 12 pieces, have left Pittsburgh.

MANY GUESTS COMING TO THE JUBILEE DINNER

All Indications Are That the Y. M. C. A. Banquet Tonight Will Be a Great Affair.

The Y. M. C. A. building was the scene of bustle and activity today with the preparation for the jubilee dinner tonight. The tables are being arranged so that covers can be laid for 150 guests. Secretary Wright confidently expects that number to respond to the invitations. About 100 have notified the secretary that they will be present, and there will be quite a number who will decide at the last moment.

LOW PRICES.
EASY TERMS.

\$1600 Will buy a house of four large rooms, two up and two down, having a good cellar and front porch. City water in kitchen sink; gas for fuel and light in every room; roofed with slate and built of good material; and fronted to the south and east. The lot is 30 feet wide and 100 feet deep. It fronts on Minerva street and rear on Illinois street. The neighborhood is good and location pleasant. Seven minutes walk from the Diamond. Paving streets all the way but for 15 square. Terms \$200 down and balance \$14 per month until paid.

\$1400 Will buy a new five room house just completed, and as yet not occupied. Pleasant front porch, good cellar; city water in kitchen; gas in each room for fuel and light. It is located on Eugene Place near the new McKinley school house. Terms \$200 down, balance \$12 monthly.

\$2175 Will buy a new six room modern house; kitchen, dining room, parlor and bath on the first floor, three bedrooms and bath on the second floor. Bath room is fitted with bath tub, wash stand, w. c. of good grade; hot and cold water in sink and bath room; sanitary sewer connection; cellar under whole house. Gas for fuel and light in every room; electric wiring throughout; large front porch; rear stoop; all woodwork inside grained in golden oak; cupboard in kitchen; china closet in dining room; sliding doors between dining room and parlor, also between front hall and parlor. Built to suit people; never yet occupied. Situated on Sophia street about five minutes walk from the Diamond. Terms, \$400 down, balance \$17.75 per month.

\$2500 Will buy a dwelling just the same as above except that it has a larger lot and is situated on Minerva street within five minutes walk of the Diamond. No hill to climb or street car fare to pay to reach either of these houses. This one we sell for \$500 down, balance \$20 per month.

\$3100 Is our price for a seven room modern house with a good sized lot which we will complete for you within ninety days on your order. This house contains a nice large hall, large parlor and convenient dining room and a well arranged kitchen downstairs; the second floor contains four nice bedrooms with plenty of light and ventilation and good sized bath room; we fit up completely with w. c., bath tub, wash stand and hot and cold water. The house is grained throughout in golden oak; has electric wiring and gas in every room, presses and closets, china closet and cupboard. Cellar under whole house; large front porch with Tuscan column posts; finished attic; roofed with slate and painted with three coats of lead and oil in color. A very complete, modern house which suits everybody; all work guaranteed; the site is on Minerva street, 1/2 square east of Walnut, only a few minutes walk from the Diamond. We will make minor changes without extra cost. Why not let us show you the plans and locations. Terms \$700 down and balance \$24 per month.

\$1450 Will buy a four room slate roof house on Pennsylvania avenue, East End, with a lot 20x100; the street cars pass its front every six minutes. It is fitted with water and gas; the sidewalk is paved and curbed. This property is well worth the money. Terms \$150 down, balance \$10 per month.

\$1750 Will buy a nicely located four room house, with city water and natural gas connections, situated on Ohio avenue, East End, on the street car line and having a fine river view and front porch. The property is located above the power house about five hundred yards, in the south part of that level bench that lies opposite Babb's island. The appreciation of this location is attested by the very fine residences built and now being built there. Terms: \$500 down, \$250 by June 1st, balance \$10 per month.

Fifty Dollars, One Hundred Dollars or Two Hundred Dollars down has started many people toward owning their homes and making good their escape from buying rent receipts; their \$10, \$15 and \$18 per month now buy the home instead. Practical advice and guidance in selecting the property is necessary to full and complete satisfaction. We spend our time devising ways for you to buy a home and getting together a list for you to choose from at prices lower than you can do for yourself. We want you to consult with us and learn how near we have accomplished our purpose. We have upwards of 300 properties for you to select from. We are open every day and evening.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

A Great Improvement—Stein & Sloan have installed in their store the new system of basket package carriers, the only one of the kind in the city. It greatly facilitates business.

Free Lectures—Miss Frances Ensign delivered a lecture this afternoon at 2:30 at the First M. E. church and tonight will deliver a second lecture. The lecture tonight is intended particularly for young men, but every one will be made welcome.

Seized With a Fit—Ross Hecker, then, aged 20 years, was seized with an epileptic fit yesterday morning at the corner of East Sixth and Walnut streets and was taken to the home of a relative on Oak street by the patrol. The young man only arrived in the city Monday night.

Badly Hurt on a Boat—Samuel Hannigan, a watchman on the Liverpool Pacific No. 2, was painfully injured a few days ago at Parkersburg by falling from the gunwale to the bottom of a barge. His injuries were of such a serious nature that he was sent to the marine hospital at Wheeling for treatment. Mr. Hannigan makes this city his home when not on the river.

Called Away on Business—Rev. J. C. Reinartz, pastor of St. John's Evangelical Lutheran church, was called away this morning on synodical business, and in consequence there will be no meeting of instruction at the church this evening. However, the regular Lenten services will be held tomorrow evening, and on Sunday special services of great interest will be held.

No Quorum—There was no meeting of the board of education last night on account of a lack of a quorum. A representative of Bartlett Bros., of Cleveland, was present to interest the board, if possible, in a system of gauging the temperature of the different rooms of a school building, but because of the lack of a quorum was unable to present his plan to the board.

The Sale Progresses Finely—The rummage sale being conducted by the ladies of the W. R. C. in the Kirk building on Sixth street is meeting with great success. The sale was opened Saturday evening and a great amount of wearing apparel has been donated. The patronage so far has been very liberal and a large amount of money will doubtless be raised, the proceeds going toward the hospital fund.

BOWLING MATCH TONIGHT

The Wellsburg Elephants Will Contest With the Imperials Here Tonight.

The Wellsburg Elephants, one of the best bowling teams in West Virginia, will contest with the Imperials here tonight on the alleys of the latter team. One of the best contests of the season is expected.

The Imperials have won the majority of the games played during the season with out of town teams and have been practicing hard for a victory tonight.

UNION MADE SHOES

Do the shoes you wear bear the stamp. Union men are not careful enough about this matter. While we sell lots of Union Stamp Shoes we have comparatively few calls for them. There is no man who will object to having the stamp on his shoes, because he is insured by it that his fellow workman has a comfortable place to work in and is paid living wages for his work. Douglas the most successful shoe man of this age, uses the stamp, and without a doubt makes the best \$3 and \$3.50 shoes in our land. We are proud of this line of goods.

AN OPEN LETTER

To the Republicans of Columbiana County.

The Republican central committee, in behalf of the Republicans of Unity township, present to you our candidate for prosecuting attorney, Mr. C. P. Rothwell, of East Palestine, and earnestly solicit your support at the coming primaries.

Our candidate is a self-made man; has had a long and successful experience at the bar, and for years has been recognized as one of the leading trial lawyers of the county. A man of excellent business ability and for more than twenty years has been one of the most active workers and best supporters of his party in the county.

Our township (Unity) with near a thousand Republicans, has not been honored with an office at the county seat for 30 years. Liverpool township should not, in our judgment, get all the four places on the ticket, at the coming primaries. That township has the present prosecutor, and for that reason especially, should not again get that place.

Let the offices be distributed fairly. When we present to you such a candidate as Mr. Rothwell, with more than twenty-one years' experience as a lawyer, from a good Republican township that has not had an office at the county seat for thirty years, have we not a right to ask and receive the support of all fair-minded, loyal Republicans of the county?

Respectfully submitted,
R. N. CHAMBERLIN,
Chairman.
JOHN H. LOGAN,
Secretary.

SOCIAL EVENTS

A PRONOUNCED SUCCESS

The Hospital Benefit Rummage Sale Surpasses the Most Sanguine Expectations.

The Woman's Relief Corps, which has opened a rummage sale for the hospital fund benefit, is much gratified at the success met with. Every conceivable article was placed on the counters yesterday and the patrons thronged in and out, with the desired articles. A large number of contributions were made and it is hoped that many others will bring or send contributions. If the rummage continues to be as well patronized as it was yesterday, the ladies will continue the sale for 8 or 9 more days. The rooms will be closed about 9 o'clock each evening.

Johns-Saltsman.

Salineville, March 24.—(Special).—The wedding of Noble Saltsman, and Miss Burdell Johns occurred last evening at the home of Mr. and Mrs. W. W. Johnson. Only a few intimate friends of the contracting parties were present. Rev. J. E. Grimm performed the ceremony. The groom is well known here, having spent all his life in this vicinity, where he has been employed in the mines about Salineville, and enjoys a wide circle of friends. The bride is the accomplished daughter of Mr. and Mrs. Frank Johns, of School House hill. The wedding was a surprise to many, as the young couple had not advised their friends of their intentions. They will make Salineville their home.

Missionary Society Election.

The Young Women's Missionary society of the First Presbyterian church held their annual election of officers yesterday evening at the church parlors. The society has a large membership and has done some excellent work for the cause of missions. The election resulted as follows: President, Mrs. Roney; first vice president, Miss Edna Simms; second vice president, Mrs. Hill; recording secretary, Mrs. W. K. Gaston; corresponding secretary, Mrs. Wilson; treasurer, Mrs. Fank; assistant, Miss Mary Macnam; secretary of literature, Miss White.

Sirius Club Dance.

Invitations will be issued within a few days by the Sirius club for a dance at Rock Springs park on the night of Tuesday, April 21. The Encore orchestra, of Steubenville, has been engaged to make the music and arrangements have been made for a special car service. The Sirius club has been the host of several of the pleasantest functions of the season and this one promises to add to their laurels. The club committee is composed of Messrs. William Hardie, Russell Brannen, Harry Hancock, Harry Foutts and Val He Waggle.

The Play Oliver Cromwell.

Mrs. Reniger is expected to reach this city today and will immediately begin the work of training the cast for the drama, "Oliver Cromwell." FOR THE GOOD OF THE CITY

**How Candidate Thompson Pro-
poses to Administer Af-
fairs If Elected.**

THE MAYOR'S APPOINTMENTS

**Will Be of First Importance and
He Proposes to Have
the Best Men.**

LAWS WILL BE ENFORCED

"Good government and the strict en-
forcement of the laws will be my plat-
form if I am elected mayor, as I ex-
pect to be," said Chief of Police
T. V. Thompson this morning when
asked by a News Review reporter what
the public could expect from the new
administration. The chief continued:
"I announced my platform when I
entered the mayoralty race, and I have
seen no reason to change it. Nobody
has suggested a better one, or is like-
ly to, for the reason that it would
be impossible to do so. I realize that
the office of mayor of this city is go-
ing to be more important under the
new code than ever before and when I
enter the office, if I do enter it, it will
be with a full sense of the responsi-
bilities and duties of the position."

"What about appointments?" was
asked.
"There is where you touch upon
something a good deal more important
than anything else that will come un-
der the mayor's power. The success
or failure of any mayor who holds of-
fice under the new code will, I take it,
depend more upon the appointments
the mayor shall make than upon the
mayor himself. Here are a few things
that are expected of the mayor under
the new code."

Hereupon attention was called to the
following paragraphs of the new code:
"Sec. 147. The mayor shall be chief
conservator of the peace within the
limits of the corporation."
"Sec. 148. The chief of police shall
be the executive head of the depart-
ment, under the direction of the may-
or."

"Sec. 150. The chief of the fire de-
partment shall be the executive head
of the department, under the direction
of the mayor."
"Sec. 152. Par. 3. The mayor shall
have exclusive right to suspend the
chief of the police department or the
chief of the fire department for in-
competence, etc."

"These extracts," continued the chief,
"by no means exhaust the list of of-
ficers whom the mayor is to appoint
or over whom he is expected to ex-
ercise supervision. Besides the fire and
police chief, there are the board of
health, the board of public safety, the
sinking fund, the library board, etc."

"Now, in making appointments I
shall be bound by no bargains because
I have made none. I shall be guided
in making my selections by the senti-
ment of the best people of the com-
munity, as far as I can ascertain it;
by the public interest and by fitness
of the men to be chosen to fill the
offices."

"As far as possible I want business
men in the appointive positions—but
I want men who can and will spare time
from their own business to attend to
the business of the city. If an ap-
pointed official is found disregarding
or disobeying the law or neglecting his
duties, he will be removed and another
man given his place. I propose, if I
shall be mayor, to have competent and
faithful men in every place which I
am expected to fill, for I realize that
it will be impossible for the mayor to
enforce the laws, as he is required to
do, without the hearty and efficient co-
operation of the men in other depart-
ments of city office."

GENERAL JOE GEIGER HAS PASSED AWAY

**A UNIQUE CHARACTER WHOSE
HISTORY IS CLOSED.**

**An Orator of Distinguished Ability
And a Noted Man in
His Day.**

Columbus, March 24.—(Special).—
In the death of General Joe Geiger,
which occurred in this city yesterday,
Ohio lost one of its most picturesque
characters. He was 85 years of age
and in his day was one of the most
prominent men in public life in Ohio.

As an orator, lecturer, lawyer, humor-
ist, wit and statesman he was almost
without a peer. Although of diminutive
size, being barely five feet tall, he
was possessed of a giant intellect and
was a formidable factor in his day.
He was an orator of the school of
General Gibson and Tom Corwin and
could sway multitudes at will. He
also enjoyed another distinction—he
was known as the homeliest man in
the state, a fact he took great pride
in referring to in his speeches and lec-
tures.

He was in great demand as a public
speaker, in Ohio and abroad. His
speeches were gems of oratory, his
diction being faultless. He was called
by the sobriquet of "Snapping Turtle
Joe," on account of a lecture by that
name, and in truth there was much
in the general physiognomy to suggest
the turtle. He excelled as a story tell-
er and could convulse his audiences
with laughter in a twinkling. He was
an ideal campaign orator. He was a
member of the legislature in 1850-51
and was state librarian in the 80's. In
1877 he was given a special invitation
by congress to visit Washington and
deliver his lectures. He was born at
Harrisburg, Pa., but most of his life
was spent in Ohio.

BRINGING VOTES BY THE HANDFUL

**Coupon Collectors Active in Pro-
paring Surprises For
Their Friends.**

EVERYBODY IS INTERESTED

And still they come! A boy with a
double handful of votes for one of the
many candidates for the News Re-
view's prize trips arrived at this office
just before noon today. The ballots
will be counted and tabulated and the
result announced in tomorrow's paper.
It will doubtless prove a welcome sur-
prise to some one.

Interest in the voting is growing.
More people are saving their coupons,
and voting for their friends. A free
trip to Europe is no small prize,
neither is a summer tour of the lakes
or a trip to Atlantic City. The cer-
tainty that these prizes are to be be-
stowed on News Review readers
makes the contest spirited. It is good
natured rivalry, though. One voter re-
marked yesterday: "I am casting my
vote for one man, a particular friend.
But there are five or six of my friends
on the list of candidates, and I would
be satisfied to see any one of them
win one of the prize trips, and I feel
pretty sure that some one of them
will. The News Review's offer is a
most liberal one, and the readers ap-
preciate the fact, that is certain."

Coupon collectors are busy, and
some of them are very systematic in
their work. The News Review gives all
an equal chance. Read the conditions
on page 4, if you have not already
done so and begin voting.

This is the way the voting stands:

the mayor to decrease the fine and
says he will be a good John all sum-
mer.

LIVE ISSUES FOR COUNCIL

**Questions of Moment to Come
Up at Tonight's Meet-
ing of the Solons.**

THE GARBAGE DUMP MATTER

**And the Proposed Franchise For a
New Lighting Company
to Be Considered.**

THE RAILROAD INJUNCTION

The meeting of council to be held
this evening will be a most important
one. There are numerous matters of
general interest to be acted upon and
the members state that definite con-
clusions will be reached. Among the
questions that are scheduled to arise
is the granting of a franchise to C.
A. Smith, allowing him to place poles
and string wires throughout the city
for electric lighting purposes. Just
what action will be taken on it can
not be predicted.

Councilman Marshall, at the last
meeting of the body, refused to vote
on the franchise, stating that he thought
time to consider it and it is thought
that some controversy will ensue when
the subject is broached. Dr. Marshall,
when asked if he had come to any
conclusion on the franchise, stated that
nothing had been done, but that a copy
of it had been submitted to each mem-
ber of council and that the meeting
only could decide the situation.

Another question which is being
looked upon with more than the usual
interest is that of the council provid-
ing a public dumping ground for the
disposal of filth, refuse and all
cleanings which are a menace to the
health of the public. The true condi-
tions which exist in the city have been
placed before the people by the News
Review. The subject has caused con-
siderable comment and every resident
of the city is more than anxious that
some steps be taken, and that im-
mediately.

Several members of the councilman-
ic body have announced that they will
argue the question strongly and do all
possible for the provision. There has
not been a day during the past two
weeks that the health department has
not been approached by some tax-
payer who has had a long story to
tell either of his inability to find a
dumping ground or of the dirty and
unhealthy condition of his neighbors'
back yards. Invariably the objectors
have been turned away. The board
is not in a position to assist them.
There is but one thing to be done to
remedy the condition and that is by
purchasing or leasing property for the
garbage plant and it is thought that
council will take the matter up with
a will and give the people that for
which they are earnestly in favor.

One of the members of the health
board said last evening: "The sani-
tary conditions of the city are even
worse than can be comprehended.
Over the entire city people are suffer-
ing as a result and we are powerless
to help them. If council does not
give us a dumping ground we will
suffer from a health standpoint to an
alarming degree. It will be absolutely
necessary for council to provide two
dumps at least, one in the East End
and one for the use of the people in
the central districts and the West
End. Residents of the East End
would be much put out at having to
haul their refuse to the lower end of
the city and they must be looked af-
ter."

Among other matters that may come
up for consideration is the railroad in-
junction question. The railroad com-
mittee of council may be ordered to
hold a meeting to take some action
regard to this question which is now
perplexing the city. Mr. Peach, the
chairman of the board, is out of the
city.

PAINTERS' LOCAL DELIVERS ULTIMATUM TO BOSSES

Painters', Decorators' and Paper-
hangers' local, No. 165, voted last
night to strike if their demand for a
new wage scale was not acceded to by
the bosses on Saturday, March 28.
The present agreement with the
bosses expires on the last day of this
month and the new scale was pre-
pared some time ago. An increase of
20 cents per day and an eight-hour day
is asked. The old scale is \$2.80 for a
day of nine hours.

city, but it has been suggested that
the president of council call the com-
mittee together.

BEAL LAW UPHELD BY SUPREME COURT

A Decision in the Cambridge Case
Declares the Act Consti-
tutional.

Columbus, March 24.—(Special).—
The supreme court today handed down
a decision sustaining the constitution-
ality of the Beal law. The decision
was given in the Cambridge case of
the state ex rel vs. Dollison, sheriff.

Interested in Gold Mines.
W. H. Hepburn, city treasurer of
Lisbon, and U. V. Gaskill, of Council
City, Alaska, directors of the Ophir
Creek Gold company, were in the city
today. Mr. Gaskill spent several
months in the Nome gold fields last
year and secured options on placer
territory that the Ophir Creek Gold
company will develop. He will return
to Council City this summer accom-
panied by Mr. Hepburn and perhaps
others of prominence in the company.

GOVERNMENT TAKES A HAND

**Proposes to Stop Pollution of the
River Through Garbage
Dumping.**

LAW CLEARLY VIOLATED

The sanitary condition of East Liv-
erpool is known for a greater distance
than the city limits. The outrageous
state of affairs has even reached the
heart of the country, Washington, D.
C., and as a result a government em-
ployee arrived in the city this morning
and made a thorough examination of
the conditions, especially along the
river bank.

After thoroughly sizing up the sit-
uation he called at the office of City
Clerk Davidson this afternoon and in-
formed that official that something
will have to be done to prohibit the
throwing of the filth and garbage over
the river banks, and that persons con-
vinced of violating the marine law in
that manner will be prosecuted to the
full extent of the law. He further stated
that it was absolutely unlawful to
throw any garbage on government
property and that his mission here was
to find the exact conditions and make
a report at government headquarters.
He discovered that the law had been
violated at points all along the city
river front. Whether or not steps will
be taken to land the parties who have
disposed of garbage on the bank he
did not say, but insisted that the prac-
tice must be stopped and that all nec-
essary precautions would be made for
that purpose.

Health Officer Ogden and Mayor Da-
vidson were having their trouble this
afternoon over the awful conditions ex-
isting. For two weeks they have been
constantly besieged by residents, ask-
ing for a dumping ground, and they
have now decided to tell all comers
simply to await the action of council.
Both of these officials will likely pre-
sent the matter to council tonight and
they have asked several others to ex-
ert their powers to influence the body.

NO CANDIDATE

**The Democratic City Ticket Still
Headless And Likely to
Remain So.**

The Democrats caucused for some
hours yesterday on the question of fill-
ing the vacancy on the Democratic
ticket, caused by the withdrawal of
John W. Hall, candidate for mayor. No
action was taken toward filling the va-
cancy, and matters are expected to re-
main as they are.

UNCLE SAM TO OWN IT

**With the Panama Canal He Will
Acquire an Important
Railroad Property.**

A PILE OF OLD SCRAP IRON

**Is the Description Given by Ex-
perts of the French En-
gineers' Machinery.**

MONEY WASTED ON DITCH

Washington, March 24.—With the
ratification of the canal treaty by Co-
lombia, government ownership of rail-
roads will cease to be a theory and
become a fact as far as the United
States is concerned. The Panama
railroad running across the isthmus is
part and parcel of the canal property
for which this country will pay the
French company \$40,000,000. With the
completion of the bargain and the ex-
change of the purchase price the al-
ready huge list of federal employees
will be expanded to include section
hands, brakemen, switchmen, freight
and passenger conductors, station
agents, telegraphers, all the people re-
quired to run a railroad; in short,
right up the list to general manager
and president. Moreover the govern-
ment will find itself in possession of a
fine line of three passenger and
freight steamers operated in connec-
tion with the Panama line. Uncle
Sam will be a bloated monopolist, too.
His railway across the isthmus will
be the sole transportation agency
thereabouts until the ditch is dug and
filled with the water that is to carry
through the shipping of the world.
People who object to his freight
charges or to his passenger schedules
can walk or send their goods through
by mule—unless they can get passes
or rebates through friendly congress-
men. Under these circumstances it
will hardly be necessary for our uncle
to employ traveling freight or passen-
ger agents to drum up trade. He will
not need to either enter or fight any
combination of competitors or to en-
gineer any traffic agreements. He will
be saved the danger of falling foul of
his own interstate commerce commis-
sion. Incidentally the Panama rail-
road under present conditions is said
to be one of the best paying railway
properties in this hemisphere. The
steamboat line is considered a good
investment as well. Both are essen-
tial adjuncts to the work of excavating
a passage way between the oceans.

But even a bonanza has its draw-
backs. Outside of the railroad and
the steamship line the property to be
acquired by the payment of \$40,000,000
to the French company comprises a
most unhealthy hole in the ground, or
succession of them; the most compre-
hensive collection of junk in the way
of rusted and impossible machinery
that this French company could find
as an excuse for sinking a large part
of the \$300,000,000 of its stockholders'
money already spent, and a choice as-
sortment of fatal diseases, beginning
with yellow fever and smallpox and
continuing in ascending scale to a cli-
max, yet to be investigated by medical
men, that is warranted to kill in 35
minutes or less.

The holes in the ground are valuable
but they would be more so if they had
been taken care of after being excava-
ted. Silt and rubbish have accumu-
lated wherever the French engineers
have already dug. This will require
re-dredging and then the whole canal
will have to be broadened and deep-
ened to the width of 150 feet at the
bottom and the depth of 35 feet deter-
mined upon. A small sized mountain
of 273 feet of indurated clay must be
cut through. The French have barely
scratched the surface here. This is the
Culebra cut.

Although the French engineers have
made much of the machinery they will
turn over when the purchase is com-
pleted it is said by experts who have
recently been over the canal route
that most of this has been left ex-
posed to climatic action until it is use-
less for anything except the scrap
heap. What little machinery there is
in good running order is considered
antiquated by up-to-date American
engineers. It is probable that almost
everything down to the smallest steam
shovel of the lot will be imported from
the United States to save time and
insure more efficiency in this work.

To minimize the opposition of Senor
Yellow Jack and his co-partner, Mr.
Smallpox, Uncle Sam will again play

sanitary policeman, as he had to do in
Cuba and as he is doing in Porto Rico
and the Philippines. At the Pacific
terminus of the canal lies the city of
Panama which, in days one reads
about in the Swashbuckler novel, that
pleasant gentleman Sir Henry Morgan
sacked and burned with his jovial
good fellow buccaneers. Experts say
it will be necessary to almost repeat
Sir Henry's performance.

He was after broad pieces of eight
and rapine and murder which gave
zeal and excitement to his profession.
Uncle Sam will be after dirt and
germs. He will tear down and burn
and distribute chloride of lime. He will
straighten narrow, crooked streets
where the pigs and infant prodigies of
Panama now wallow and pave them—
that is the streets. It will be the
same process that was so rigorously
carried out in Santiago de Cuba. Colon,
situated on an island at the Atlantic
end of the isthmus, is slated for simi-
lar heroic treatment.

It has been a hard task for the
French engineers to get and keep suf-
ficient labor at work on the canal for
their needs—or it was before the failure
of the company and the reduction

WRECK VICTIMS ARE IMPROVING

**Official Investigation Fails to Show
Cause of Sunday
Accident.**

NEW CAR SOON TO RUN

The injured in the street car wreck
of Sunday night are reported improv-
ing today. Most of them are still suf-
fering considerable pain, but with
few exceptions they will be entirely
recovered in a few days. It was found
at a later examination that Miss Edie
Nelson, injured about the mouth, had
also sustained a broken jaw. Dr. J.
Howard Davis, who cared for Miss
Nelson on the night of the disaster,
set the broken bones and states that it
will not be necessary to place the jaw
in a plaster cast, as the muscles will
hold the bones in place.

Those of the injured who live on
Pleasant Heights were reported bet-
ter, without exception, and none of
them will suffer permanent injury.
Joseph Jackson, who lives in Sunnyside,
one of the worst injured, is able
to walk to the city from his home to
receive medical attention. Joseph Mar-
tin, who had his right shoulder broken,
is suffering greatly and it will
be some time before he can get around
again. He was probably the worst in-
jured.

The official investigation by the car
company was completed late last evening
but the blame for the disaster has not
been made by those in the employ of
the company, some of whom were on
the scene a few minutes after the car
left the track, but just what the cause
was or who was at fault, if determined,
will not be given out at this time. As
stated yesterday the running gear was
not damaged to any great extent and
will be used in equipping another car.
The brakes of the wrecked car were
found to be in excellent working order
and of sufficient force to control two
cars when the trip was made down the
hill to the power house.

Perhaps the exact cause of the disas-
ter will never be known, as the passen-
gers tell widely differing stories, af-
f contradictory to the one told by the
motorman. A new car for the Pleasant
Heights line is being equipped as rap-
idly as possible.

RENDERED HELPLESS BY PARALYSIS

**Enoch Jones Taken to His Home on
Pleasant Heights in an
Ambulance.**

Enoch Jones, who has been living on
a small farm near Sallenville, was
taken to his home on Pleasant
Heights from the noon train today in
McQuilkin's ambulance.

He has been suffering from paral-
ysis and an additional stroke has re-
ndered him helpless. His brother
Isaac Jones, of Division street, accom-
panied him.

Fined for Assault.
Lisbon, March 24.—(Special).—
Thomas Griffith, the young man who
assaulted William Gellor, the bartend-
er, Friday evening, was arrested last
evening by Officer Kells. He was at
once arraigned before Mayor Farrell,
pleaded guilty and was fined \$15 and
costs, aggregating \$18.60, which he
paid and was released.

FINE GOODS IN OLD BOX

**Crate Supposed to Be Empty
Contained Articles Worth
Much Money.**

IT HAD BEEN GIVEN AWAY

**But the Recipient Made All Haste
to Restore Property
to Owner.**

A MOTHER MUCH WORRIED

A little boy, aged about 10 years, of
Jethro Hollow, giving as his name
Berberg, made for himself a reputa-
tion for honesty that will ever follow
him yesterday when he returned a box
of dry goods to the Boston Store
which had been given to him through
mistake.

A. S. Young, proprietor of the store,
was very busy during the early part
of the afternoon when the lad entered
the store and in a gentlemanly manner
asked if he could have one of the
empty boxes lying on the pavement
in front of the store on Market street.
Mr. Young told him that he could, pro-
viding the box was empty, and nothing
more was thought of the occur-
rence until an hour or so later the
youth walked into the store and told
that he had loaded one of the boxes
onto a little wagon, and not having ex-
amined it thoroughly, did not discover
that it contained anything of value
until he had nearly reached home.

Why he made the examination then
he does not know, but was horrified
when he uncovered it and found a big
lot of goods. The thought of stealing
them never entered the mind of the lit-
tle fellow and he immediately returned
to the store. Mr. Young thanked the
boy heartily and showered complimen-
tary remarks upon him for his display
of veracity.

A short time later the mother of the
boy appeared at the store and wanted
to know whether or not the lad had
been suspected of stealing the goods,
and when given assurance that he had
not she departed in good spirits. The
box contained nearly \$300 worth of
merchandise and would have been a
heavy loss had a different kind of per-
son had the boy's opportunity.

Harry Koch, one of the proprietors
of the Koch's company's store on
Sixth street, when apprised of the
above incident, immediately conjectured
that the box of silks stolen
from the rear of his store over a
month ago, the particulars of which
were published exclusively in the News
Review, might have been taken in a
similar manner, but by a person of dif-
ferent character. It is customary for
boys to get boxes from dealers in the
city, and though the box of silks was
not given to any one, it is thought
probable that whoever took the Koch's
company's box did so without knowl-
edge of its contents, and after discover-
ing the true value was deterred
through dishonesty in returning it.

Mr. Koch states that he will work
on the case as long as there is the
slightest hope of recovering the stolen
property and that he has offered a re-
ward of \$100 for any information that
will lead to the arrest and recovery
of the silks.

WITH THE WORKMEN IN THE CLAY PLANTS

POTTERY MARKS.

Frederick Litchfield recently delivered an address before the Ceramic Art Collectors' society, Birmingham, England, which was illustrated by diagrams and specimens, of some of the systems of marking that were adopted by Chinese, continental and home manufacturers. Such marks and monograms number between 4,000 and 5,000, and may be roughly divided into two classes—factory marks and those which are artists' or potters' signatures.

The Worcester factory, Mr. Litchfield pointed out, altered its marks at different times as the direction and proprietorship were changed. Thus, from the starting of these works in 1751 and 1780, the crescent open and closed, the square mark, the initial W in varied forms, printed and cursive, the oriental characters, and the Dresden crossed swords were used. Then, after the purchase of the works by Flight, the ware bore successively his name, accompanied by the crescent, the words "Flight and Barr," with inscriptions "Royal Porcelain Works, Worcester," and the address of the London depot, and the initials "F. B. B.," printed and pressed, surmounted by a crown.

WELL KNOWN POTTER MISSING.

The friends and relatives of Maywood Davis, a well known potter, are greatly alarmed over his absence from the city, says the Toronto Tribune. He left his home on Tuesday evening and the last seen of him was in Steubenville on Wednesday. No reason is known for his strange absence and it is feared he may have wandered away while under mental aberration. No other reason can be assigned for his disappearance. He was always very kind and thoughtful to his family and his wife and three children are prostrated over his disappearance. The missing man is aged 31 years, 5 feet, 10 1/2 inches in height

and weighs 160 pounds. When last seen he wore a stiff hat, blue striped shirt, coat and vest, blue gray, very small check, trousers, blue gray with fine red stripe. He has dark brown hair with a small bald place on crown, thick brown moustache, trimmed short, brown eyes, upper front tooth is missing. He wears 7 1/2 size lace shoes and carries a ladies' hunting case gold watch and a gentleman's open face silver watch with a double chain. He is an expert pottery printer and also learned the plastering trade. The missing man is a member of the N. B. O. P. of Toronto.

FINE GIFT WARE.

France has once more emphasized her ancient friendship with Ireland by the gift of a magnificent Sevres vase to the Friendly Sons of St. Patrick. The presentation, which next to the parade, was the most interesting feature of the day was made by Ambassador Jussurand, on behalf of the French government, at the one hundred and nineteenth banquet of the Friendly Sons at Delmonico's on St. Patrick's day. The gift is a graceful acknowledgement of the entertainment provided by Count and Countess de Rochambeau on their visit to the United States as representatives of the French government at the unveiling of the Rochambeau statue in Washington. The vase is five feet high and is a beautiful work of art.

READY BY FALL.

The plant of the Columbus Pottery company, which will make ware like that made in Zanesville, is being pushed to completion and will be ready for operation by fall. Samuel J. Scott, who has been engaged in the pottery business in Zanesville nearly all his life, has charge of the construction and will manage the plant. The equipment will be modern throughout. Negotiations have been begun for natural gas for kiln firing. Two hundred men will be employed. The factory is north of Columbus and close to the Pennsylvania and Big Four railroads. An interurban will also run close to it.

TO CONSIDER RESOLUTIONS.

Kilndrawers local No. 17 have a great deal of important business to consider at the next regular meeting

THE WEATHER.

Saturday night. A number of resolutions for the national convention have been prepared and they will be presented for the approval or disapproval of the local. The kilndrawers delegates to the convention are: E. L. Veith, U. E. Price, George Richards, John Gilson and L. A. Shipley.

FORD CITY TO START.

The plant at Ford City, which has been idle most of the time since the first of the year, will resume next week, it is stated. Will Horshey, the mouldmaker at the plant, who has been making an extended visit with relatives here during the layoff, has been ordered to report for duty next week. John Demmerling, the well known jiggerman, is thinking of taking a situation at the plant.

TROUBLE AT NATIONAL.

A great deal of trouble is reported with the kilns at the National since the recent high water, which inundated the kiln sheds. The trouble has been, it is stated, in the firing and cooling of the kilns, and as a result the men have been getting only about eight days in a pay. The firm is losing also by the trouble, as orders are plentiful and many require prompt shipment.

GOES TO MINERVA.

William Owen, cup jiggerman at the Union and one of the best known operatives in the city, will resign his position to become the manager of the clay department at the Minerva pottery. He will leave for that city as soon as the clay part is ready to start. Charles McGuffin, who has been operating a jigger at the Chelsea, New Cumberland, will take Mr. Owen's jigger.

BADLY INJURED.

Ralph Alcock, one of the 16 passengers injured in the wreck of the street car on the Pleasant Heights line Sunday night, will not be able for some time to resume his work as a printer at the Dresden. Besides the cuts about his hands he is badly bruised about the body and can walk only with the greatest difficulty.

SLACK AT TRENTON.

Robert Slack, art director at McNicol's, left Saturday for Trenton, where he will spend several days on business. Mr. Slack is one of the heirs of an estate left by a relative recently deceased, and it is the settlement of it that calls him to the eastern pottery center. He is expected home next Friday.

AMONG THE WORKMEN.

Joseph McKenna started at Harker's yesterday as a handle maker. The biscuit kilnmen at the Goodwin, off since last Thursday, resumed yesterday.

The ghost hands at the Union will be off until Wednesday owing to a shortage of saggars.

Thomas Cannon, the popular kiln fireman at the Dresden, was at Salineville over Sunday visiting relatives.

John Callahan, of the ghost end at the Dresden, has purchased a lot on Pleasant Heights and will build a home this spring.

John Hicks, ghost kilnman at the Dresden, has been suffering for the past week with a healed jaw and is not able to work.

Will Maloney, of the ghost end at the Dresden, is the proud father of a fine girl baby that arrived at his home in the West End a few days ago. The boys in the crew had the cigars passed among them in honor of the event.

THE AMERICAN FALL NOW ALMOST DRY

Remarkable Condition of Affairs in the River at Niagara Falls.

Niagara Falls, N. Y., March 24.—The American fall is practically dry, and for the first time in 55 years people are able to walk about in the river bed. Thousands have clamored over the rocks hunting for relics and souvenirs. Great rocks never before seen are high and dry. So little water is flowing over the American fall that men in high boots almost could have crossed at the brink.

The extraordinary condition is due to an ice jam which formed in the shallow places up the river. The ice was driven from Lake Erie into the entrance to the river and lodged in the shoal water, shutting off the flow of water in the American channel. The Horseshoe fall is not affected as much as the American. The river bed in the vicinity of the Three Sisters Islands is quite dry, and the center fall between Goat and Luna islands is a skeleton of itself.

This condition is likely to exist several days.

SUIT ENTERED FOR \$103

Couple Who Hired a Livery Team Defendants in An Action For Damages.

John Rinehart has brought suit in Justice J. N. Rose's court against Daily Larkins and O. D. Haynes to recover damages claimed to the amount of \$103. The case has been set for hearing Friday morning at 8 o'clock. The plaintiff alleges that Larkins and Haynes came to his livery stable on the evening of March 19 and hired a team and surrey. They were told that the cost would be \$3 and promised to settle it when they returned the rig.

It is further claimed by Mr. Rinehart that the young men drove to the East End and while there left the team in front of a saloon for a few minutes without being hitched. While they were there the horses became frightened by a passing freight train and started to run, but were finally stopped. The party who stopped the team brought it back to Mr. Rinehart's livery barn. The surrey had been overturned and damaged considerably and the horses were cut and otherwise injured. Mr. Rinehart places the damage done to the rig at \$100. He sues to recover this amount, together with \$3, the amount they were to pay for the rig. Mr. Rinehart claims that the defendants have not been to his barn since hiring the rig. The defendants claim they have made several efforts to settle, but their overtures were not encouraged.

BATTLESHIP OHIO NEARLY FINISHED

The Monster Fighting Machine Ready For a Trial Trip in November.

A SPLENDID NEW BOAT

Which Will Be a Great Addition to Uncle Sam's Navy—Her Dimensions And Descriptions Recounted in Detail.

A force of 600 men is at work on the battleship Ohio at the Union iron works in San Francisco and the big fighting machine is nearing completion. Seventy-two per cent of the work has already been done and the officials of the Union iron works state that the war ship will be ready for her trial trip by the end of November.

The entire shell of the Ohio has been completed and it only remains for the mechanics to complete the work on deck and inside the hull. All the armor plates of the battleship are in place and the shell of the superstructure is erected. The turrets are yet to be placed in position and the guns mounted. The construction of ammunition hoists and magazines and the dividing of the vessel into compartments is as yet incomplete.

The Ohio's main battery will consist of four 12-inch guns and four 12-inch 6-inch rifles. The secondary battery will be composed of 6 and 12-pounders. The armor of the hull varies in thickness from 5 to 10 inches. The guns for the main battery are already at the Union iron works, but the 6 and 12-pounders have not yet arrived from the east.

The Ohio was recently in dry dock and was cleaned and painted.

The ship is 338 feet in length, 72 feet extreme width, with a displacement of 12,500 tons, fitted with twin screws driven by triple expansion engines of 15,100 horse-power, designed to give a speed of 18 knots; 12 Thornycroft tubular boilers, three smokestacks. Her battery consists of four 12-inch guns mounted on Hinchborne revolving turrets, 24 rapid firing guns and two submerged torpedo tubes. Her side armor is 11 inches in thickness, 3 feet 6 inches above and 4 feet below water line. The protective deck is constructed in two courses of plating, lower course 1 inch thick; the upper course is from nickel steel from 1 1/2 to 3 inches in thickness, according to location. She cost \$3,180,000.

The great battleship was launched at San Francisco, Saturday, May 18, 1901, in the presence of President McKinley, Governor Nash and many other men prominent in the public life of the nation. She was christened by Miss Helen Deshler, youngest daughter of William G. Deshler, of Columbus, and the launching was witnessed by a large number of Columbus people. In his address on this occasion, President McKinley said:

"What we want to build is more ships. We ought to have a good commercial line from here to the Philippines, built by American workmen, manned by American sailors and carrying the American flag."

"There is nothing in this world that brings people so close together as commerce. There is nothing in this world that so much promotes the universal brotherhood of man as commerce, and we want to encourage commerce."

The citizens of Ohio are now engaged in raising a fund of \$50,000 for the purchase of a magnificent silver service for the ship which bears the name of their state.

Defenders of the Law

BLOOD WINE

CURES RHEUMATISM AND KIDNEY DISEASES

Undoubtedly no class of people are more severely subjected to the weather than officers of the law. Probably no class of people suffer as a result of such harsh treatment any more than they with rheumatism. There is hardly a policeman, sheriff or marshal that has not had it—and badly, too. In a great many cities "Blood Wine" is recommended by the heads of the police departments, and officers are told to use it when subjected to long spells of inclement weather. Every officer who has ever taken "Blood Wine" for rheumatism speaks of his experience about as Mr. Espich, the city marshal of New Philadelphia, Ohio, does. He says:

"I take this opportunity of writing you regarding my experience with 'Blood Wine.' As my business keeps me out in all kinds of weather, I have been subjected to attacks of rheumatism. I have tried various well-known rheumatic remedies, but the results have never been satisfactory. But when I found 'Blood Wine,' I found a remedy that completely cured me, and did it in a remarkably short time. I can sincerely recommend 'Blood Wine' for rheumatic sufferers."

His was a case of aggravated rheumatism. It was not a new case, but an old stubborn case of long standing, one that broke out in intense fury with every wet spell. Mr. Espich had suffered so severely that he had lost faith in all medicines, and only under protest did he consent to try "Blood Wine." Rheumatism forced crusts of lime like deposits about the joints. Instead of the bones moving freely and painlessly in the smooth-tissue covered joints, they grate and bleed and gouge into one another because of their unnatural size and shape, and produce excruciating pain and suffering. This is the way Mr. Espich felt. He was in misery with every move. When he commenced taking "Blood Wine" it immediately worked on his blood. Slowly but surely it abstracted the acid and neutralized the blood; then it dissolved those crusts about his bones. When this was done it made new tissues to cover these bones; then through the blood it produced an oil to keep the joints freely lubricated and moistened. Consequently the pain soon left and Mr. Espich quickly became a well man. Now he has no sign of pain. He eats well, feels well, and is well. Is it any wonder that he wants to tell about it and say a good word for "Blood Wine," the medicine which cured him? No one suffering with rheumatism or kidney disease should hesitate to take "Blood Wine." It will drive the disease entirely out of the system.

FREE BLOOD TEST.
As rheumatism and kidney diseases are both diseases of the blood, the only accurate way to tell one's true condition is to examine the blood. You can have an expert bacteriologist analyze your blood free of charge, by sending your name to the Louis Franklin Co., Worcester, Mass., for full particulars.

"Blood Wine" costs fifty cents a bottle.

B. C. ANSLEY'S SUCCESS

Great Popularity of Plan to Sell Medicine at Half Price And Guarantee a Cure.

B. C. Ansley, the enterprising druggist, rather than await the ordinary methods of introduction, urged the Dr. Howard company to secure a quick sale for the celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

The wonderful success of this plan was a great surprise even to B. C. Ansley, and today there are scores of people here in East Liverpool who are using and praising this remarkable remedy.

So much talk has been caused by this offer, and so many new friends have been made for the specific, that the Dr. Howard company have authorized Druggist Ansley to continue this special half-price sale for a limited time longer.

In addition to selling a 50c bottle of Dr. Howard's specific for 25c, B. C. Ansley has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

When your head aches, your stomach does not digest food easily and naturally, when there is constipation, specks before the eyes, tired feelings, giddiness, bad taste in the mouth, coated tongue, heartburn, sour stomach, roaring or ringing in the ears, melancholy, and liver troubles, Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

Dressmakers to Raise Prices.

Chicago, March 24.—Dressmakers throughout the country are to make at once an increase of from 15 to 20 per cent in the price of all gowns, in accordance with a decision reached here at the national convention of the dressmakers. This will affect the poor as well as the opulent. The higher scale is to go into effect at once. The dressmakers say they are justified in making the increase, since they have to pay more for material and help.

A GREAT TRUTH

How it Has Spread From Home to Home in East Liverpool.

In every part of East Liverpool, in the homes of the wealthy, in the humble abode of the man of toil, 'tis now a well-known fact—a great truth—that Doan's Kidney Pills have brought more comfort to backache sufferers and cured more sick kidneys than any medicine of modern times.

Mrs. Mary Hewitt, of St. George street, says: "I read in the Pittsburgh Press an account of some one who had been cured of kidney complaint in that city by using Doan's Kidney Pills. The fact of such an account being published of one living almost in the same place had a tendency to convince me that there must be some truth in it and I determined to try them myself. Some years before this I had a severe attack of rheumatism. For three months I lay helpless and after that I had trouble with my kidneys. For a year I suffered severely. My back was so bad that it felt as though I had a ball where the kidneys are. I could not bend, lean back against a chair or reach up. I could not lie on my back, and about every move I made caused pain. I had taken numerous remedies, but none brought the desired relief. Well, Doan's Kidney Pills, procured at the W. & W. pharmacy, did what no other remedy was able to do. I took them regularly for a short time and found them to be all the Pittsburgh paper stated them to be. I can heartily recommend them. After using them I was rid of backache and other symptoms of kidney trouble."

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no other.

EAST END**GREAT IMPROVEMENT**

The Railroad Company Building a Retaining Wall Where It is Much Needed.

A large force of men is engaged on the C. & P. railroad in the vicinity of Mulberry street excavating for the retaining wall, which will be built by the railroad company. The residents of Railroad street are well pleased with the improvement that is made by the wall being built, which when completed will be topped off with a coping and a substantial iron railing. The wall will average six feet in height. An East End contractor, John Schmeltzenbach, has received the contract for the building of the retaining walls for a distance of 18 miles, between the East End and Rochester, Pa.

The railway company is taking advantage of every foot of ground, excavating to private property lines in most cases. The work of building the wall will be carried on in haste and a large amount of stone is being delivered along the line.

Horse Fell in a Trench.

A team belonging to Rinehart's livery barn, which was attached to a buggy, was being driven along Pennsylvania avenue last night, when one of the horses fell into a trench in front of a new house being built on that street. The horse was badly bruised, and it was fully two hours before it could be extricated from its predicament. The trench had been dug in the street by plumbers who neglected to place lights there warning people of the danger. The animal was finally gotten out and taken to the livery barn. While badly bruised, luckily no bones were broken, and in a few days it will be in its usual condition.

Mercer-Trevor.

The wedding of Miss Alice Mercer, daughter of Mr. and Mrs. S. D. Mercer, of Pennsylvania avenue, and Harry Trevor, has just been announced. These young people were married quietly last Thursday evening and the announcement was received with surprise by their many friends. Both of the young people are quite popular and their friends join in wishing them a happy married career. They expect to take a short trip and after returning to the East End will make their home there.

Juniors' Social.

The Juniors of the Second Presbyterian church will hold a social in Larkins & Ferguson's hall March 31. Preparations are being made by the committee to make the social a success. The musical program of the young people will prove a great attraction. Refreshments will also be served.

NEW EQUIPMENT FOR NATIONAL GUARD

Will Soon Be Ready to Be Issued to the Soldier Boys of Ohio.

Columbus, March 24.—(Special).—Adjutant General Gyger received a telegram from Major James Parker, assistant adjutant general of the United States army, saying the new equipment provided under the Dick law for the National Guard was ready to be issued by the war department and that it would be issued to the Ohio Guard as soon as it shall be determined just what is needed. The department will send its own inspectors to ascertain this information.

Adjutant General Gyger wired that these inspections could be made at any time. In some states the National Guard in reality is only on paper, and where this is the case the equipment will not be issued. The purpose of the inspection is to prevent imposition of this kind.

A GOOD PLATFORM.

Chief of Police Thomas V. Thomp-
son, Republican candidate for mayor,
in an interview printed in another col-
umn, makes it plain that he has a
clear conception of the duties and re-
sponsibilities of the office to which he
aspires, and that he is determined, if
elected, to give the people an honest
and faithful business administration.
Mr. Thompson has grown up in the
city and is acquainted with its needs
and its people. Those who know him
—and there are few in the city who
do not—know that he is a man of his
word, and when he announces his de-
termination to do a certain thing he
goes ahead and does it. When he is
mayor he will be mayor in every sense
of the word. As he states, the suc-
cess of the new administration will de-
pend largely on the capability and ef-
ficiency of the men whom the mayor
shall appoint to office. Mr. Thompson
announces his intention of making
such appointments as will insure the
enforcement of the laws and place
men of business capacity and known
executive ability at the heads of the
different departments which come un-
der the mayor's supervision. He will

also see that the men placed in office
attend to business and meet the re-
quirements of the positions they hold
if they do not the penalty of summary
removal, which the mayor is author-
ized by the new code to impose, will
be promptly put into effect. Fairer
promises no man could make, and a
better platform has not been announc-
ed by any one since the subject of the
mayorality election first came before
the public. Mr. Thompson is not the
man to go back on his pledges. He is
handicapped by no political bargains
and has no political debts to pay. We
believe he will be guided solely by
the public interests and will seek to
give East Liverpool the kind of an ad-
ministration which its best citizens
are asking and demanding at his
hands. That he will be elected is a
foregone conclusion, and his reiteration
of the pledges made earlier in the
campaign is an assurance which the
public will hail with approval.

The essence of Republican strength
is found in the fact that the men of
the party stand by the party nominees.
No good Republican ever bolts his
ticket without an excellent reason. He
considers the result of a primary elec-
tion or a party convention as binding.
The opposition to the local Republican
ticket, which hopes to persuade
enough Republicans to bolt so that it
can elect an anti-Republican ticket is
reckoning with its host. East Liv-
erpool Republicans are not made up of
that sort of material. No good rea-
son can be advanced why they should
bolt any of the nominations made at
the recent primaries, while there are
countless reasons why the entire
ticket should be elected. The Republi-
can party in this city has never been
addicted to factionalism. It has
achieved its triumphs by sticking to-
gether. It will pursue the same course
this spring, and it matters not how
strenuous the effort to down it, that
effort cannot succeed.

The Democratic party of East Liv-
erpool has neglected to fill the vacan-
cy on its ticket and consequently has
no candidate for mayor. It would have
been no easy matter for the half dozen
leaders of the party, pulling in differ-
ent directions, to agree upon a candi-
date, even if the woods had been full
of men courting certain defeat, and
there has been a woeful scarcity of
aspiring Democrats. Besides, it is a
matter of very little consequence, any-
way.

The local Democracy is a headless
party and it is entirely appropriate
that it should have a headless ticket.

OBITUARY

Miss Catherine Phillips.
Salineville, March 24.—(Special).—
The funeral of Miss Catherine Phil-
lips took place from her late home
yesterday afternoon at 2 o'clock. The
deceased was about 63 years of age
and had lived all her life in the vicin-
ity of Summitville and Salineville. She
had been an invalid for the past 20
years, which had for the most part
confined her to her home. Several
weeks ago she contracted a severe
cold that rapidly developed in an
acute attack of the grip that could not
be controlled. Her death resulted Sat-
urday afternoon. She leaves one sis-
ter and two brothers. The funeral ser-
vices were conducted by Rev. J. A.
Grimm, pastor of the Presbyterian
church of this town. Interment at
Woodlawn cemetery.

Mrs. Margaret Scroggs.
Mrs. Margaret Scroggs, of West
Point, died yesterday morning after a
lingering illness. She was about 60
years of age and has a daughter, Mrs.
Harry J. Windham, living in this city.
The latter was at the bedside of her
mother at the time of her death. Her
husband, the late J. J. Scroggs, was at
one time a prominent resident of this
county. Mrs. Scroggs had a large cir-
cle of friends throughout the county
and her death will be deeply mourn-
ed by all.

DRINK HAD MADE HIM A MANIAC

A GARDENDALE MAN PUT IN JAIL
FOR SAFE KEEPING.

His Ravings in His Cell Described
As Something Most
Frightful.

As a result of a prolonged drunken
spree, Albert Brown, who lives with
his family in Gardendale, was seized
with an attack of delirium tremens
last night, and as a safeguard to his
family and also to himself, was ar-
rested and hauled by the patrol to the
city hall, where he was given a cell
in the women's department.

His case is one of the most serious
that has come before the police in
many months. A call was sent into
the fire station at about midnight and
Officers Morley and Woods upon ar-
riving at the home found the deranged
man carrying on in a fearful man-
ner. He was attempting to climb the
side of the house and his maneuvers
were strange enough. After he was
committed to a cell Dr. C. B. Ogden
was summoned and administered a
nerve tonic.

In a short time Brown was resting
in a peaceful sleep. This morning he
was some better, but he underwent a
change for the worse shortly before
noon and his rantings and ravings
were awful to behold. He completely
lost all control of his mental powers,
and while the wild stare of the maniac
showed plainly in his eyes he attempt-
ed to break the iron bars surrounding
him.

After surging at the bars for an
hour he began laboring under the hal-
lucination that he was on board a
steamboat and tried all manner of
ways to get the boat stopped. He
talks constantly to himself and to
brother deckhands. They are giving
him the worst of the work and he com-
plains to the captain, but receiving no
help he has turned the master of the
boat down.

Mayor Davidson does not know ex-
actly what he will do with the unfor-
tunate man. He is in no position to
be released and though he is now in
sane it is thought that the attack is
only temporary, and to send him to
the asylum would probably be useless.
Until he shows good signs of regain-
ing composure he will likely remain a
prisoner in the city jail.

MORROW IS CHOSEN TO MANAGE THE CLUB

The Reorganized Base Ball Team
Meets and Transacts Import-
ant Business.

As predicted exclusively in the News
Review yesterday, the members of the
East Liverpool base ball team held a
meeting last night and elected W. E.
Morrow manager of the team for the
coming season. They decided on uni-
forms of Yale grey with blue trim-
mings. The jackets will be blue with
red cuffs. The suits will be ordered
some time today.

Arrangements have been made to
open the season at Rochester, when
the grounds there are in condition to
play on. The first games here will prob-
ably be played at Rock Springs park.

Laughlin, J. C. Gruber, Maude Pan-
cake, Pearl Scott, Hallie Huston, Clyde
J. Freeman, William Conser, Leora
Lee, Grace Sutherland, Mattie King,
Bessie McAllister, Cary Farmer, Lois Cope
Solon Sanders, Leora Haviland.

The next examination will be held
at Wellsville, Saturday, April 4, 1903.

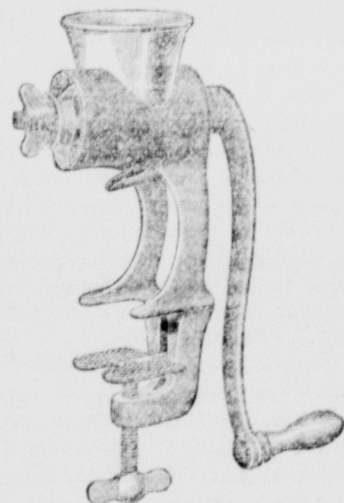

Quietly Wedded.

Salineville, March 24.—(Special).—
J. W. Andrie, a prominent young busi-
ness man of this place, surprised his
friends by announcing that he had
been married last Saturday evening to
Miss Mary Toban, daughter of Tipton
Toban, who resides west of Saline-
ville. Rev. W. Hays, pastor of the
Presbyterian congregation in Mechan-
icstown, performed the ceremony at
his residence. They will make Saline-
ville their home.

Continued from First Page.

of the working force to something like
1,000 men. The natives are more or
less immune and can stand the life
and the work, but between cock fight-
ing and patriotic and ecclesiastical
holidays they prefer not to work more
than 165 days out of the 365 in each
year. The larger per cent of imported
laborers die. Those who don't strike
for higher wages by virtue of being
immunes or else drift away from the
place soon. At least this is the tale
told of the experience of the French
engineers.

These men who have "been there"
are represented as standing with a
hand to each ear straining the audito-
ry nerves for the first sound of the
signal that the bargain has been closed
between their company and the
United States, and that they are free
to return at once to that dear Paris.

But the harrowing recital seems to
have no terrors for the American en-
gineer or the American mechanic or
skilled workman. Everybody credited
with a pull here is being flooded with
applications for some kind of a job on
the canal. There will be opportunity
enough apparently. It is estimated
that at least 20,000 laborers will at
once be put in the ditch, when the
United States is ready to begin work,
with a corresponding number of skill-
ed Americans to oversee and direct
the business. The government rail-
road will supply not a few places. En-
gineers familiar with what has been
done estimate that eight years will be
required to finish the canal if work is
conducted on the scale outlined. They
say it will cost \$175,000,000 to do it.
The French company has already ex-
pended \$300,000,000, but it is known
that most of that was wasted.

At any rate all is ready. There is
\$40,000,000 now waiting in the treas-
ury for the French company, \$10,000,000
for Colombia and another \$10,000,000
with which to start the actual digging.
The president is ready to appoint the
commission of seven men to do the su-
pervising. All that now delays is the
ratification of the treaty by the Col-
umbian senate.

INVITED TO SEND A DELEGATE

Local Base Ball Men Asked to Send
Representative to Independ-
ents' Meeting.

East Liverpool has been invited to
become a member of the National As-
sociation of Independent Base Ball
clubs and to send a representative to
the meeting, which is to be held at
the Bingham hotel, Philadelphia, next
Friday. The association was formed to
protect the independent clubs from
unscrupulous players and contract
jumpers, and to assist in the booking
of games.

Owing to the chaotic condition of
the base ball situation here it is not
likely that a representative will be
sent.

Everybody reads the News Review.
Its 3,100 circulation shows that the
East Liverpool reading public appre-
ciates a good thing.

HOSPITAL FUND SWELLED BY \$1,200

RECEIPTS FROM THE LINCOLN
LECTURE MOST GRATIFYING.

Ladies of the Association Highly Pleas-
ed Over the Success of
the Affair.

A meeting of the Hospital associa-
tion was held in the Y. M. C. A. par-
lors on Saturday. The object was to
receive the report of the committee
on the Abraham Lincoln lecture which
was given by Rev. Dr. Pratt. It was
noted by the ladies that by an over-
sight the names of three of the pa-
trons to the hospital fund were omit-
ted. They were Mr. and Mrs. John
W. Hall, Mr. and Mrs. Monroe Pat-
erson, and Mr. George Stevenson. Ac-
cording to the report of the committee
the total receipts, after all expenses
were deducted, will amount to about
\$1,200. The ladies are very much
pleased with the success they have
had in raising such a large sum and
also feel gratified to Dr. Pratt for his
able assistance.

and threatened to kill his family.
He is a powerful man and is regarded
as a dangerous person to be at large.

NATURE'S OWN CURE

Hyomei Cures Catarrh Without Dan-
ger of Drugging the
Stomach.

Not until Hyomei was discovered
has it been possible to truthfully say
that a remedy for catarrh was known.

This remedy is breathed through
the Hyomei inhaler for a few minutes
four times a day, and during that
time every particle of air taken into
the air passages and lungs is impreg-
nated with the germ killing and health
giving Hyomei. It is the only treat-
ment that cures catarrh.

Stomach drugging often causes dis-
ordered digestion or brings on some
other diseases and never makes a per-
manent cure of catarrh. Hyomei does
not only kill the germ in the throat
and nose, but penetrates to the min-
utest air cells in the lungs and enters
the blood with the oxygen, killing the
germs in the blood. It frees the mu-
cous membrane from poisonous mi-
crobes and gives perfect health.

A complete outfit costs but \$1.00,
and includes the inhaler, dropper and
sufficient Hyomei for more than a
month's treatment.

Will Reed has so much faith in the
merit of Hyomei that he agrees to
return the money to any purchaser
who may be dissatisfied.

TEN PIECES OF SHEET MUSIC FOR \$1.00.

Is This Old Music?
NO!

10 pieces of copyright music, latest popular pieces of the day,
for \$1.00.

Why, you ask, do we make this offer, do we buy this music so
cheap that we can afford to sell it 10 pieces for \$1.00.
NO!

The reason, in order to keep up to date we have standing orders
with the leading publishers for from 1 to 10 copies of each new issue.
These are sent us soon as they are off the press. In 10 years we
have accumulated more music than our limited space will allow, our
shelves are running over. We must make more room or reduce our
stock. We decide to sell 10 pieces for \$1.00, or sent prepaid to any
address for \$1.10.

This music we have in stock and will not include the last copy of

WELLSVILLE STREET REPAIRS AND CLEANING

Two Important Matters Attacked
by the Wellsville City
Fathers.

FERRY FRANCHISE GIVEN

Ordinance Granting the Smith & Mc Nicol the Right to Lay a Switch Granted—Other Topics of Interest Discussed.

The city council held a special meeting last evening and discussed important matters. President Whitacre and Messrs. Henderson, Shoub, McLean, Weaver, McCormick and Aughinbaugh were present.

Before any business was proceeded with Mayor Fogo came forward and made a short but very emphatic speech relative to his object of calling the meeting. He stated that the principal thing to which he wished to call the attention of council was the horrible condition a number of the city streets were in and he asked that some action be taken at once to have these streets repaired. He also stated that he thought as the present council was about to retire, it would be a good plan for it to settle all matters now on hand and not leave them over for the new council, as it would be some time before they could get rightly settled.

The first thing to be settled was the ordinance granting Watson Johnston a license to operate a ferry across the Ohio river from the wharf at Third street to the landing on the opposite side, with the privilege of operating a cable ferry after the ordinance is passed, until a steam or gasoline ferry can be constructed, the ferry to be built by May 31, 1903. This ordinance received its third and final reading and was passed.

The ordinance granting the Smith & McNicol Pottery company the right to lay a railroad track on Coal street also passed its third and final reading.

The next matter demanding attention was the keeping of the streets clean and having them sprinkled the coming summer. A letter was read from J. H. Blood, of North Baltimore, O., in which he stated that he would purchase the sprinkler and sweeper, now the property of the city, furnish all other necessary equipments and clean and sprinkle all the paved streets, which are about 7 miles, in the city, for \$19 a mile. The matter was left in the hands of the improvement committee with power to act and action to be taken at once.

Councilman Henderson was very much opposed to having this matter left in the hands of this committee, of which he is a member, as he stated that some other members will not interest themselves in anything left in their hands until everyone is disgusted.

Street Commissioner Herbert was asked to enlighten council as to the nature of the work required to repair the east side of Liverpool street. He stated that several days' work would be required, that to put the street in first class condition crushed stone should be used so as to make a good road bed. The matter was left in Mr. Herbert's hands with power to act at once.

KNOWS MI-O-NA WILL CURE

Will Reed Has Such Faith in This Great Dyspepsia Remedy That He Guarantees It.

It is an unusual thing for a druggist to sell a medicine under a guarantee to refund the money if it does not cure. Yet this is the way Will Reed, the popular druggist, is selling Mi-o-na, the remarkable cure for dyspepsia.

Never before has he had so large a number of customers tell him that a medicine has cured as with Mi-o-na. People who a few months ago looked like walking skeletons have put on flesh and today are ruddy and vigorous with perfect digestion and good health, solely due to the use of this remedy.

There is no longer need of anyone suffering or making their friends suffer on account of dyspepsia, for Mi-o-na can be relied upon to cure. The percentage of cures is so nearly one hundred per cent that there is little risk to Will Reed in guaranteeing to return the money if the medicine does not cure. And he stands ready to do it without any questions.

Headaches, all forms of indigestion, specks before the eyes, dizzy feelings, poor sleep, ringing in the ears and all forms of liver trouble are cured by Mi-o-na. A few days' treatment shows considerable gain in health and a cure speedily follows.

Remember that Mi-o-na is the only medicine for the cure of dyspepsia that is sold under an absolute guarantee to refund the money if it does not give satisfaction. If you are not perfectly satisfied with the results from Mi-o-na, Will Reed will return your money without any questions.

meeting, the repairing of all streets which needed repairs, was next to be settled. The condition of several of the streets was discussed when it was moved that an investigation be made of all the streets and those needing any repairing be repaired. The motion passed and the matter left in Engineer Leith's hands with power to act at once.

The ordinance making a change in May alley in George M. Aten's first addition passed its third and final reading.

Several residents of Highland avenue asked that grades be given them so as to permit them to build. Engineer Leith was instructed to attend to this when called upon.

For the purpose of widening Lisbon street between Fourth and Fifth streets the city has appropriated a portion of land belonging to Kelsey Bright, who asked for a settlement of \$300. An accurate measure of the land has been taken and was found to be just seventy-eight one-thousandths of an acre. Before paying such a price for the land the city will condemn its way through. The matter was not settled.

Citizens from the following localities have asked that sanitary sewers be built: Maple alley, Short street, Highland avenue, Clarke avenue, Twelfth street and West alley. Plans have already been drawn and without much debate on the matter, Engineer Leith was instructed to advertise for bids and have work begun without much delay.

The removal of the water works office to some other part of the city building in order to enlarge the post-office room was, without discussion, left in the hands of the building committee to meet with Mayor Fogo and Superintendent Ewing and determine a place suitable for the office.

Only seven members being present, it was necessary to send out for Mr. Brennan before the ordinance for the city to vacate land in Mill alley could be passed. The American Iron and Steel Plate company wish to build but cannot until this alley is vacated. After the passage of the third and final reading of this ordinance, the meeting was adjourned, with the next regular meeting to be held Tuesday evening, April 7.

BASEBALL CLUB

Wellsville People Lease Grounds for Three Years And Will Have Good Team.

The promoters of the scheme to organize a base ball club in Wellsville met last evening in the office of S. W. Connor, and the matter was discussed in every detail. A three years' lease has been signed and one year's rental paid for the Harrison field, back of Commerce street, between Fourteenth and Fifteenth streets, and as soon as the weather will permit work will commence.

to convert this field into an up-to-date base ball park. A committee was appointed to look over the ground and get a rough estimate of what work was needed and then ask for bids. The contract of building a high fence and a grand stand will be let at once, and the work on the same will be rushed with all possible speed.

Several outside players have expressed their willingness to sign with the team, and with the local players Wellsville expects to have one of the fastest teams in the Ohio valley when the season opens. When asked if he thought this enterprise would prove a success one of the stockholders said:

"I am positive we will be successful, for when the people see that we mean business and are willing to speculate our money to have good ball played here once more the crowds will turn out."

Another meeting will be held Friday evening, at which time officers will be elected and plans for the completion of the park put into working order.

Unclaimed Letters.

The following list of letters remain unclaimed in the Wellsville post office: Frank Barnes, Mollie Beck, Lawrence Dillon, Mrs. C. W. Davis, Rob Eddie, Carroll Fulton, Mrs. Jane Gilbert, Martin Lent, J. W. McPherson, J. E. McIntosh, James McEane, Chas. Mullen, Myrtle McLean, Charlie Murphy, Mrs. Mary Roles, Matt. P. Stevenson, William Steel, Abe Savre, Jasper Past, Dan Percell, Aaron Tunstall, Annie Weller, Annie Wilson and Mrs. C. E. Williams.

Water Trustees to Meet.

The water works trustees will hold a regular monthly meeting this evening. The principal subject to be brought up is the establishing of the new water works plant. Council was asked to appropriate \$20,000 to be added to the money the trustees already have on hand, but the petition was turned down. The trustees have decided to establish and equip a plant as best they can with the money they now have. The matter of the removal of the water works office will also receive attention.

Arranging for Campaign.

The Republican central committee met last evening for the purpose of completing arrangements for the coming campaign. This committee is hard at work and present indications point to complete success in the coming spring election.

Spring Vacation of Schools.

The board of education met last evening. A few bills of minor importance were passed upon and the salaries of the teachers and Truant Officer Pease were ordered paid. It was decided to close the schools of the city all next week for the spring vacation.

LOOKING INTO CAUSES OF FIRE

Insurance Adjusters Looking Into Alleged Incendiary Blaze in Chester.

A quiet investigation has been carried on ever since the burning of the building occupied by the Chester club and owned by John Shrader. It was suspected and still is that the fire was of incendiary origin. The insurance on the building was only \$1,500, which was carried in the North American Insurance company of Philadelphia. Adjuster J. C. Johnston, of Columbus, was in the city yesterday and investigated the fire and its origin as far as possible. The building was worth perhaps \$1,800 and but little difficulty will be experienced in the settlement of this claim.

Today F. L. Parsons, of Columbus, adjuster for the Equitable Insurance company, is in town and is making a thorough investigation. At the time of the fire it was given out that there was no insurance on the stock. It has since been learned that E. S. Good carried a policy of \$1,000 on the stock of the club. The principal business of Mr. Parsons in this city is to investigate the condition of the stock at the time of the fire. A careful inventory of the stock on hand will be made. Nothing as yet has been given out officially that would throw any light on the object of the insurance company, but it is whispered that some startling disclosures may soon be made public.

VISITED AT HOME

William McBee, Wanted for Shooting, Paid Quiet Call on His Relatives.

William McBee, who figured in the desperate shooting affray during the holidays, in which Archie Bruce came near losing his life, paid an informal visit to his home Saturday night and stopped over until Monday morning. The officials of Hancock county were not aware of his visit until after he had left. Between Christmas and New Years, McBee with little cause, fired a bullet from an old Colts revolver into the right side of the chest of Archie Bruce, the bullet penetrating the lung on that side. Mr. Bruce had a close call to death, and after the shooting McBee made the expression that he would return later on and complete the job. McBee told some of his friends that he had been working at Cornopolis since the shooting occurred.

The charge against McBee still holds good and every effort has been made by the authorities of Hancock county to apprehend the man.

McBee did not pass over the bridge on his visit to his home or he would have undoubtedly have been captured.

Election Proclamation.

The proclamation, calling for a special election in Chester, for the purpose of voting on the bond issue of \$22,000 for the paving of the streets, has been posted. The money to be obtained from the sale of the bonds will also be used for the paying off of the present indebtedness of the town.

CHESTER NOTES.

REALM OF SPORTS

BUD DOBLE BACK IN THE RACING GAME

The Distinguished Turfman to Be Seen Again in the Sulky This Year.

Lexington, Ky., March 24.—Bud Doble, once the star of all famous trotting horse trainers and drivers, is to be seen actively in the sulky again this year. The noted reinsman of bygone days is coming here this week to help his sensational green horse, Kinney Lou, to Memphis, Tenn., where he will personally give him his early training. The son of McKinney, 2:11 1/4, has been wintering at Walnut Hall stock farm in care of Ed. Benyon and looks the perfect picture of health and condition. Doble not only has designs on the M. and M. Detroit's rich fixture, but he has also set his heart on winning the famous Transylvania of 1903. The noted trainer won the inaugural event of this great race in 1889 with the great gray gelding Jack, 2:12, and the following year captured it with McDoel, 2:15 1/2, defeating in that race the great Allerton, 2:09 1/4, and now, after a decade, he is going to make another bid for this rich trophy before the days the silk colors finally pass away.

Kinney Lou went a trial last fall in 2:09 1/4. In the M. and M. he will meet a lot of green horses, including Jay McGregor, trial 2:09 1/4; Neddie Connors, trial 2:09 1/4; Patchen Maid, trial 2:10; Tregentle, trial 2:10; Lou Dillon, trial 2:08; and Bessie Brown, trial 2:12. In the Transylvania the game may be even harder, but Doble believes Kinney Lou will be capable by the first of October of going three heats in 2:08 or better and carrying that clip even up to four or five heats. Ed. Benyon, who has jogged this great prospect all winter, is much pleased with him and it may be that Mr. Harkness may annex him to his great stable before the trotting campaign opens, but from all account Doble does not seem anxious to sell the son of McKinney even at a very fancy figure. The old veteran wants to get back into the trotting game and this horse looks like an entering wedge to future fame and fortune on the turf for his famous owner, so long one of the most talked of characters in the sporting world.

LUTZ AND CARIS WILL WRESTLE AT ALLIANCE

Local Pugilist Will Have a Go With the Stark County Champion.

Larry Lutz, the local pugilist, has been matched with Mont Caris, of Alliance, for a wrestling match on the night of March 28 in that city. Caris is well known in local sporting circles and claims the title of champion of Stark county. At any rate he is considered one of the best in this section and has many friends who are willing to back his claim with the coin. Not long ago he was matched for a go with a Sebring wrestler. While it is not generally known

Pain

In My Heart I Could Not Lie Down.

Was On The Verge Of Insanity.

Choking Sensations I Was Afraid To Sleep.

"For years I was troubled with pain around the heart, fluttering and choking sensations—part of the time could not lie down. In short I was a nervous wreck; such violent jerking of the arms and limbs; nervous prostration—in fact, was on the verge of insanity—was afraid to sleep for fear I would never awaken. I saw a testimonial in our paper from a man similarly afflicted, and an account of the help he derived from the use of Dr. Miles' remedies. By the persistent use of the Heart Cure, Nerve and Pain Pills I soon felt like a new woman. I am never without these remedies now. In writing the above I feel that the help has not been told. No one who has not been through it knows or can know what 'on the verge of insanity' means. Your remedies were surely a god-send to me. There is scarcely a week but I recommend this remedy to every case of nervousness, or any other ailment. I was nearly crazed with pain and had given the money to my mother to get her some morphine to quiet the pain. I told her what your Pain Pills had done for me and finally persuaded her to send for them. She had only to take two of the Dr. Miles' Anti-Pain Pills and she was free from pain."—Mrs. Arthur Osborn, Decatur, Mich.

All druggists sell and guarantee first bottle Dr. Miles' Remedies. Send for free book on Nervous and Heart Diseases. Address Dr. Miles Medical Co., Elkhart, Ind.

Lutz has recognized ability as a wrestler and engaged in it as a profession before taking up pugilism. The bout next Thursday with Caris will be his first appearance and will make the Stark champion look to his laurels. Several from this city and a number from Sebring will witness the match.

Was a Popular Player.

James Johnston, a Toronto young man, who died a few days ago from typhoid fever, was well known in this city particularly among the members of the football teams. Johnston was a member of the Toronto high school team and has played here a number of times. He was known among the local players as one of the best players of his age and size in this section and he was well liked and extremely popular. His death was learned with the deepest regret.

Many New Features.

The committee having charge of the dance to be given by the East Liverpool Athletic club on next Thursday night at Rock Springs park, has arranged for several entertaining features, among them a vocal contest, which is to be participated in by three of the leading quartets of the city. A prize will be given to the one scoring the greatest number of points. There will be several other musical numbers which will be rendered between dances.

Basket Ball Match.

An effort is being made to bring the East Liverpool and Manchester basketball teams together at Beaver Falls before the season ends. These teams are about evenly matched in size and weight and both rely upon their team work to win games. The people of Freedom, Conway and vicinity are anxious for this meeting.

SPORTING MISCELLANEOUS.

Jack O'Brien and Joe Choyinski meet in Philadelphia March 30.

Boxing is flourishing in Michigan, Indiana, West Virginia and Pennsylvania, all bordering states, but is prohibited in Ohio.

The stockholders of the Wheeling base ball club have decided to increase the club's capital stock and will erect a \$5,000 grand stand.

Harry Forbes, the bantamweight champion, and Frankie Neil, the Pacific coast champion, have practically been matched to box before the Metropolitan club of Detroit, April 22.

McPadden and Yanger will meet at Detroit next Friday night. The bout will be 10 rounds. McPadden has promised that if he whips Yanger he will fight him again within 30 days.

McChesney is made favorite in the future book on the Harlem National handicap, worth \$10,000. The quotations show McChesney at 12 to 1. Lucien Appleby is second choice at 20 to 1.

Terry McGovern and "Young" Corbett will this week practically finish training for their championship fight, which is scheduled for March 31. Terry is already under weight and Corbett is not far from the required notch.

College Destroyed by Fire. Canton, Mo., March 24.—Christian college, belonging to the Disciple church, was destroyed by fire. The loss is \$50,000. The college was founded 55 years ago, and had 200 students.

METALLIC VAULTS TO HOLD COFFINS

A Company Proposes to Make Steel Boxes to Prevent Grave Robberies.

Cleveland, March 24.—A new corporation, known as the National Steel Grave Vault company, and incorporated for \$200,000 under the laws of Delaware, has located in Cleveland. The purpose of the company is to manufacture a steel box which will enclose a coffin, and when sealed make the robbery of graves or the spread of disease impossible. The cover of the vault is hermetically sealed with an iron and steel cement composition that is placed in the grooved lining of the box, and adheres to the double flange on the cover.

The vault is made of sheet steel and is covered with graphite and enamel. The water and germ proof locking device, which cannot be opened when once locked, insures the remains from molestation by ghouls, as was practiced in Indianapolis recently. By means of the vault, the makers claim, bodies can be sent from place to place with no danger of them being molested, or of the spreading of disease.

The company is composed of Cleveland inventors. The works will be located at the corner of St. Clair street and the C. & P. railroad. J. C. Hennis, L. A. Smart and George H. Bowler are among the stockholders.

TAGS PLACED UPON A THOUSAND BIRDS

Novel Scheme of Scientists to Ascertain the Longevity of Certain Fowls.

Washington, March 24.—The Smithsonian experts have tagged with aluminum bands around the lower part of the leg, 1,000 night herons, the long, white-plumed birds which are hunted for millinery purposes.

The experts have recently discovered near Washington some breeding places of these shy birds, and made a raid, in which, after a fight with the parents of the brood, they captured a thousand young, tagged them and let them loose. The object is to find out the average life of a heron and to discover his habits.

Notices will be sent out over the country from time to time during the next five years, calling the attention of lighthouse keepers and country postmasters to the enterprise, and asking them to report any case of herons bearing the Smithsonian tag being seen, killed, captured or dying.

ATTACKED A WATCHMAN

Men Tried to Rob the Office of a Traction Company in Steubenville.

Steubenville, March 24.—Three men tried to rob John Mulroney, night watchman at the Steubenville-Mingo and Ohio Valley Traction company's office at 2 o'clock yesterday morning. One burst into the office and ordered "Hands up!" A revolver was pointed to Mulroney's head, but still he did not obey the command. Quickly seizing his revolver which he had convenient, he fired at the men in the door. The man who commanded him to hold up his hands answered with one shot, and with his companions fell back.

The men went to the front window, near the door, and fired three shots more at the watchman, who was behind the counter, the bullets breaking the glass, and lodging about in the office. None of them struck Mulroney as he stooped behind the counter, and the shots passed over his head. They were undoubtedly after the Sunday receipts of the Traction company which were in the safe.

Cold Grub

You may get plenty of exercise and at the same time your stomach and bowels will get out of fix. You wonder why—It's easy. You eat a cold meal in the middle of the day, wash it down with hot coffee or cold beer, finishing off with a lot of indigestible pastry and go back to work. If you will take a dose of

Dr. Caldwell's Syrup Pepsin

every night, it will unload your stomach and bowels and you will soon be able to eat anything without suffering.

W. E. Oswald, of Ottumwa, Ia., writes under date of April 1, 1901: "I will take this means to inform you of the benefits I have received from using your Syrup Pepsin. I have been troubled for three years with my stomach. In fact could hardly keep down anything I could eat, and had spent between \$100 and \$200 with doctors, without getting relief. One day I saw Syrup Pepsin advertised and as I had tried everything else, I gave Syrup Pepsin a trial, and after the first dose, I could eat without nausea feeling. I have recommended Syrup Pepsin to a number of persons who used it with entire satisfaction. I will add that a friend stated he would have been willing six months ago to part with a 400-acre farm for the relief he has obtained."

There's nothing so bad for a cough as coughing!
There's nothing so good for a cough as Ayer's Cherry Pectoral!

A cough means a great deal to a young person, when there is a family history of weak lungs, with perhaps a case of consumption itself. Coughs weaken the tissues, congest the membranes, and prevent healing. Ayer's Cherry Pectoral controls the congestion and inflammation, and the cough disappears. Your doctor will explain, for we give all doctors the formula.

PACKAGE OF LETTERS

Confronts Mrs. Burdick at In-
quest Into the Death of
Her Husband.

ADMITTED LOVE FOR PENNELL.

First Met Him at a Card Party in
Company With Her Husband—Let-
ters Read in Court—Trying Ordeal
for Witness.Buffalo, March 24.—Mrs. Alice Hull
Burdick, widow of Edwin L. Burdick,
underwent a merciless examination
by District Attorney Coatsworth at
the resumption of the inquest into the
death of her husband, who was mur-
dered on Feb. 26.With a package of letters in his
hands, some of which were written
to Mrs. Burdick by Arthur R. Pennell,
co-respondent in the divorce proceed-
ings instituted by Mr. Burdick, and
other communications between Mr.
Burdick and his wife, Mr. Coatsworth
forced Mrs. Burdick to tell the story
of her relations with Pennell from the
time he first made love to her in New
Haven in 1898 until 1901, when these
relations were renewed after Burdick
had forgiven his wife and had taken
her back to his home for the sake of
their children.Mrs. Burdick was deathly pale
while on the witness stand. She an-
swered questions in a low, faltering
tone, evading a direct answer when
ever possible and reluctantly admit-
ting facts when the district attorney
pitilessly read extracts of the love let-
ters written to her by Arthur R. Pen-
nell.

THE NEXT MORNING I FEEL BRIGHT AND NEW AND MY COMPLEXION IS BETTER

Not since the inquest into the murder began has there been such intense interest in the proceedings. When the inquest was resumed at 2 o'clock most of the spectators in the crowded courtroom were women. There was a hum of excitement when Mrs. Burdick testified that she would be 42 years of age on April 30. She was married to Burdick in 1886. They had three children. She met Pennell at a card party five or six years ago at which Mr. Burdick was present. She went to New Haven and New York with the Pennells in 1898. Mr. Burdick did not go, being detained by business. No unusual friendship sprang up between her and Pennell. Witness did not recall a letter from Pennell written in New Haven in 1900, in which he said, "Yesterday I was at the gateway on the campus grounds where more than two years ago I drew you in in the darkness. This place is enshrined to me."

The district attorney produced the letter and handed it to the witness who trembled violently. "Do you recognize it as Pennell's handwriting?" "Yes," whispered Mrs. Burdick. "And you recall the incident now?" "Yes, sir."

Thought She Remonstrated.
Mrs. Burdick in recalling the incident confessed that Pennell went into a doorway, drew her in, took her in his arms and kissed her. She thought she remonstrated.

She did not remember that Pennell was at Shelter Island in September, 1900, nor a letter from him in which he wrote that he had found her gloves in the pocket of his tuxedo. The letter was handed her. She read it hastily and did not appear to enjoy its contents. It was written by Pennell, she said, but she did not remember having seen it.

Mrs. Burdick was then questioned at some length relative to the meaning of "1, 2, 3," referred to in a letter from Pennell, in which he said: "I will meet you at 1, 2, 3, Wednesday morning," but Mrs. Burdick answered that she did not know. There were two or three houses, she said at which she used to meet him.

Mr. Coatsworth produced another letter, postmarked New Haven, Sept. 19, 1900. Mrs. Burdick said she recalled receiving it. Pennell wrote: "I shall try and comfort myself by telephoning from New York and on Thursday shall know the exquisite happiness of seeing you." He referred to her "dear picture in the locket" and declared her "my love my life, my dearest one." Mr. Coatsworth produced another letter written from New York, Sept. 18, 1900, addressed to Mrs. Burdick. In this letter he wrote: "I just came from telephoning you and hearing your dear-

sweet voice. Am I foolish to telephoned you from way down here? It was worth all it cost me. I realize more and more that you are the only woman in the world for me."

"Do you remember getting that letter?" asked the district attorney. "No, sir."

"In this same letter he says: 'Only a day more and I shall once more see the loveliness in your eyes and experience paradise within your arms,' what does he mean by that, Mrs. Burdick?"

"I don't know." "Pretty strong language, isn't it?" Mr. Coatsworth showed the witness another letter written from New York by Pennell and addressed to Mrs. Burdick. She said it was his handwriting, but she did not remember having received it.

Witness Has Poor Memory.
"I will read it and see if it will refresh your recollection. 'As I looked into your beautiful eyes last night I feared there was some trouble hidden there. I did not know, but I feared it was because of some other reason than because I was going away. If there was, dearest, I wish you would tell me. There is that in the manner of your husband toward you that makes me fear some times that I might kill him.' Do you remember receiving that letter?"

"No, sir." Mrs. Burdick said she did not know whether her husband was aware of the fact that she was receiving letters from Pennell. Her habit had been to keep her letters locked in a box. Her husband first knew of her intimacy with Pennell, she thought, on Jan. 1, 1901, when she told him in reply to a question that she had been walking with Pennell. He told her she was very imprudent. She agreed with him then and did now.

"Did you give those letters to Burdick?"

"I don't know." "Did you take some letters from that box and give them to him?" "I unlocked it."

"How did you happen to unlock it?" "He forced me to."

"How did he force you?" "He took me by the throat."

She did not remember whether at that time Pennell was the subject of a discussion with her husband. She did not know whether some of the letters read were in the box at that time. It was in January, 1901, when she choked her. She could not remember when she rented a box in a safe deposit company's vaults. It was not about the time her husband had choked her, but recently, when she received papers from detectives about Burdick.

Her husband had not started the divorce proceedings. It was she that wanted a divorce from him. She had no love for him, but did love Pennell whom she expected to marry. He had a wife, but he expected they would be divorced. In reply to a question as to whether Mrs. Pennell had consented to a divorce she said: "Sometimes she did and sometimes she did not."

Witness admitted, however, that she had never talked with Mrs. Pennell on the subject. Pennell had hired the detectives who shadowed her husband. Her husband sent her away in May, 1901, on account of Pennell.

Mr. Coatsworth showed her a letter written by her from Atlantic City, May 27, 1901, in which she begged to be taken back, promising never to see "Arthur" and that she would be a loving and true wife. In the letter she said she could not promise that

he would leave town, but declared he would do what she said. She admitted writing the letter and said at that time she had hired no detectives.

Met Pennell Frequently.
After returning from Atlantic City and after promising her husband to be a good wife she met Pennell. It was not her habit to meet him, she said, but he was constantly begging her to do so, and she did meet him in a house on Seventh street. She was there one time when Burdick came, but he did not see her, as she stepped out of a window and went to church.

She did not hear that Mr. Burdick and his friends on that occasion caught Pennell as he was jumping out of the window and that they took him back to the room. Mrs. Burdick admitted having met Pennell in another house on Seventh street after that incident. She at first denied meeting Pennell elsewhere, but on Mr. Coatsworth's telling her that Pennell had told him differently she admitted that she had met Pennell at a house on Whitney Place two or three times.

George C. Miller, attorney for Edwin L. Burdick in the divorce proceedings against Mrs. Burdick, was the first witness of the day. He told in detail the steps that had been taken at the request of Mr. Burdick to secure a divorce. He last saw Mr. Burdick on the afternoon of the day he was murdered. Mr. Burdick spent half an hour with him discussing the divorce matter. He did not state that he had an appointment with anyone at his home that night.

The testimony given by Henry J. Orrett, the furnaceman at the Pennell house, was unimportant. Lizzie Romance, maid at the Pennell house at the time of the murder, gave testimony favorable to Pennell. She said Mr. Pennell was with his wife in their room reading at 7:45 on the night of the murder. She saw them again at 10 o'clock when she passed their door. She did not see them again until the next morning. Miss Romance did not notice anything unusual in Pennell's manner on the evening he and Mrs. Pennell started for the automobile ride which ended in their deaths.

A very complete modern house; suits everybody; all work guaranteed; the site is on Minerva street, 1/2 square east of Walnut, only a few minutes walk from the Diamond. We will make minor changes without extra cost. Why not let us show you the plans and locations. Terms \$700 down and balance \$24 per month.

\$1450 Will buy a four room slate roof house on Pennsylvania avenue, East End, with a lot 30x100; the street cars pass its front every six minutes. It is fitted with water and gas; the sidewalk is paved and curbed. This property is well worth the money. Terms \$450 down, balance \$10 per month.

\$1750 Will buy a nicely located four room house, with city water and natural gas connections, situated on Ohio avenue, East End, on the street car line and having a fine river view and front. This property is located above the power house about five hundred yards, in the south part of that level bench that lies opposite Babbs' Island. The appreciation of the beauty and pleasantness of this location is attested by the very fine residences built and now being built there. Terms: \$500 down, \$250 by June 1st, balance \$10 per month.

Fifty Dollars, One Hundred Dollars or Two Hundred Dollars down has started many people toward owning their homes and making good their escape from buying rent receipts; their \$10, \$15 and \$18 per month now buy the home instead. Practical advice and guidance in selecting the property is necessary to full and complete satisfaction. We spend our time devising ways for you to buy a home and getting together a list for you to choose from at prices lower than you can do for yourself. We want you to consult with us and learn how near we have accomplished our purpose. We have upwards of 300 properties for you to select from. We are open every day and evening.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

A Great Improvement—Stein & Sloan have installed in their store the new system of basket package carriers, the only one of the kind in the city. It greatly facilitates business.

Free Lectures—Miss Frances Ensign delivered a lecture this afternoon at 2:30 at the First M. E. church and tonight will deliver a second lecture. The lecture tonight is intended particularly for young men, but every one will be made welcome.

Seized With a Fit—Ross Heckerthorn, aged 20 years, was seized with an epileptic fit yesterday morning at the corner of East Sixth and Walnut streets and was taken to the home of a relative on Oak street by the patrol. The young man only arrived in the city Monday night.

Badly Hurt on a Boat—Samuel Hannigan, a watchman on the towboat Pacific No. 2, was painfully injured a few days ago at Parkersburg by falling from the gunwale to the bottom of a barge. His injuries were of such a serious nature that he was sent to the marine hospital at Wheeling for treatment. Mr. Hannigan makes this city his home when not on the river.

Called Away on Business—Rev. J. G. Reinartz, pastor of St. John's Evangelical Lutheran church, was called away this morning on synodical business, and in consequence there will be no meeting of instruction at the church this evening. However, the regular Lenten services will be held tomorrow evening, and on Sunday special services of great interest will be held.

No Quorum—There was no meeting of the board of education last night on account of a lack of a quorum. A representative of Bartlett Bros., of Cleveland, was present to interest the board, if possible, in a system of gauging the temperature of the different rooms of a school building, but because of the lack of a quorum was unable to present his plan to the board.

The Sale Progresses Finely—The rummage sale being conducted by the ladies of the W. R. C. in the Kirk building on Sixth street is meeting with great success. The sale was opened Saturday evening and a great amount of wearing apparel has been donated. The patronage so far has been very liberal and a large amount of money will doubtless be raised, the proceeds going toward the hospital fund.

BOWLING MATCH TONIGHT

The Wellsburg Elephants Will Contest With the Imperials Here Tonight.

The Wellsburg Elephants, one of the best bowling teams in West Virginia, will contest with the Imperials here tonight on the alleys of the latter team. One of the best contests of the season is expected.

The Imperials have won the majority of the games played during the season with out of town teams and have been practicing hard for a victory tonight.

UNION MADE SHOES

Do the shoes you wear bear the stamp. Union men are not careful enough about this matter. While we sell lots of Union Stamped Shoes we have comparatively few calls for them. There is no man who will object to having the stamp on his shoes, because he is insured by it, that his fellow workman has a comfortable place to work in and is paid living wages for his work. Douglas the most successful shoe man of this age, uses the stamp, and without a doubt makes the best \$3 and \$3.50 shoes in our land. We are proud of this line of goods.

"No Clothing Fits Like Ours" Don't fail to see our

New Spring Suits and Over-coats For Men, Boys and Children.

We have the exclusive sale of Morse & Beirs High Grade Clothing. For style, fit and workmanship it is conceded by all to be the most perfect made clothing in the world. When you fit on one of these suits the sale is made. You readily see the difference in what you have been wearing. We have not gotten the little ones, you will be more than pleased when you see this line. Also Spring Hats and Caps.

AN OPEN LETTER

To the Republicans of Columbiana County.

The Republican central committee, in behalf of the Republicans of Unity township, present to you our candidate for prosecuting attorney, Mr. C. P. Rothwell, of East Palestine, and earnestly solicit your support at the coming primaries.

Our candidate is a self-made man; has had a long and successful experience at the bar, and for years has been recognized as one of the leading trial lawyers of the county. A man of excellent business ability and for more than twenty years has been one of the most active workers and best supporters of his party in the county.

Our township (Unity) with near a thousand Republicans, has not been honored with an office at the county seat for 30 years. Liverpool township should not, in our judgment, get all the four places on the ticket, at the coming primaries. That township has the present prosecutor, and for that reason especially, should not again get that place.

Let the offices be distributed fairly. When we present to you such a candidate as Mr. Rothwell, with more than twenty years' experience as a lawyer, from a good Republican township that has not had an office at the county seat for thirty years, have we not a right to ask and receive the support of all fair-minded, loyal Republicans of the county?

Respectfully submitted,
R. N. CHAMBERLIN,
Chairman.
JOHN H. LOGAN,
Secretary.

SOCIAL EVENTS

A PRONOUNCED SUCCESS

The Hospital Benefit Rummage Sale Surpasses the Most sanguine Expectations.

The Woman's Relief Corps, which has opened a rummage sale for the hospital fund benefit, is much gratified at the success met with. Every conceivable article was placed on the counters yesterday and the patrons thronged in and out, with the desired articles. A large number of contributions were made and it is hoped that many others will bring or send contributions. If the rummage continues to be as well patronized as it was yesterday, the ladies will continue the sale for 8 or 9 more days. The rooms will be closed about 9 o'clock each evening.

Johnes-Saltsman.

Salineville, March 24.—(Special).—The wedding of Noble Saltsman and Miss Burdell Johnes occurred last evening at the home of Mr. and Mrs. W. W. Johnson. Only a few intimate friends of the contracting parties were present. Rev. J. E. Grimm performed the ceremony. The groom is well known here, having spent all his life in this vicinity, where he has been employed in the mines about Salineville, and enjoys a wide circle of friends. The bride is the accomplished daughter of Mr. and Mrs. Frank Johnes, of School House hill. The wedding was a surprise to many, as the young couple had not advised their friends of their intentions. They will make Salineville their home.

Missionary Society Election.

The Young Women's Missionary society of the First Presbyterian church held their annual election of officers yesterday evening at the church parlors. The society has a large membership and has done some excellent work for the cause of missions. The election resulted as follows: President, Mrs. Roney; first vice president, Miss Edna Simms; second vice president, Mrs. Hill; recording secretary, Mrs. W. K. Gaston; corresponding secretary, Mrs. Wilson; treasurer, Mrs. Faulk; assistant, Miss Mary Macrum; secretary of literature, Miss White.

Sirius Club Dance.

Invitations will be issued within a few days by the Sirius club for a dance at Rock Springs park on the night of Tuesday, April 21. The Encore orchestra, of Steubenville, has been engaged to make the music and arrangements have been made for a special car service. The Sirius club has been the host of several of the pleasantest functions of the season and this one promises to add to their laurels. The club committee is composed of Messrs. William Hardie, Russell Brannen, Harry Hancock, Harry Foutts and Valie Waggle.

The Play Oliver Cromwell.

Mrs. Reniger is expected to reach this city today and will immediately begin the work of training the cast for the drama, "Oliver Cromwell." It will be remembered that Mrs. Reniger trained the cast for the play "Scottish Reformation," which was given under the auspices of the ladies' auxiliary of the Y. M. C. A. The receipts from the opera will be used for the benefit of the association. The date for the presentation of the play has been fixed for April 23 and 24.

To Entertain Willing Workers.

Mrs. August Freymark, of Fourth street, will entertain the Willing Workers of St. John's Evangelical Lutheran church on Thursday afternoon. These meetings are always enjoyable to the members of this society, and on Thursday afternoon the ladies will probably sew.

The River Rising.

A substantial rise in the river has been noted today, the rate being six inches an hour. The stage at noon was 15 feet. The Queen City passed up at 1 o'clock this afternoon from Cincinnati, with a good trip. The Kanawha is due down at 8 o'clock tonight for Charleston. A good coal boat stage has been reached, and the Tom Rees, with 17 pieces, and Fred Wilson, with 12 pieces, have left Pittsburgh.

THE BOSTON STORE.

MANY GUESTS COMING TO THE JUBILEE DINNER

All Indications Are That the Y. M. C. A. Banquet Tonight Will Be a Great Affair.

The Y. M. C. A. building was the scene of bustle and activity today with the preparation for the jubilee dinner tonight. The tables are being arranged so that covers can be laid for 150 guests. Secretary Wright confidently expecting that number to respond to the invitations. About 100 have notified the secretary that they will be present, and there will be quite a number who will decide at the last moment.

AN EVEN EXCHANGE.

The following letter will explain itself. New York, Feb. 14, 1903.

Smith & Phillips Music Co., East Liverpool, O.
Gentlemen:—As we will in a short time celebrate our 50th year in the manufacture of the Gabler Piano we wish to secure for that event the oldest Gabler that can be obtained.

We hereby authorize you to make the following offer for us. We will give in even exchange a new style M. Gabler Upright Piano, price \$500.00 for the oldest Gabler Piano that may be found, either square, upright or grand.

The age of the piano will be determined by the factory number appearing upon the inside of the piano near the tuning pins.

Will you kindly make our offer generally known and advise us of the numbers of the pianos and their owners as they become known to you.

Very truly yours,
ERNEST GABLER & BROS.

ber who will decide at the last moment.

Secretary Wright has received a letter from Henry W. Stouga, the first secretary of the local association, who is now at Wheaton, Ill., engaged in evangelical work, in which he expresses his regret at his inability to be present and meet with his many old friends.
